

MODIYO®
THINK INNOVATIVE

Hot Air Gun

Heat Shrink tubing, removing paint and de-freezing frozen pipes are just some of the jobs that can be easily done with these hot air guns. The gun fulfills all requirements of a modern and risk free use of heat guns. The 2-stage step switch for temperature 300 Deg C (550 Deg F) to 500 Deg C (900 Deg F) and airflow, joined with an assortment of plug-on nozzles complete the unit. The light weight, simple to handle body style makes working with it very easy.
