

The 250 LPH RO Plant is ideal for small industries, schools, and packaged drinking water units, delivering pure and safe water.

Technical Specifications:

Capacity: 250 Litre Per Hour

FRP Vessel: Sand + Carbon Dual Media with Multi-Port Valve

Pumps: Vertical Booster Pump & Feed Pump

Micron Filters: 2 Nos

Dosing Pump: Antiscalant

Skid: MS Skid

Control Panel: Electronic

Membrane: 1 Nos 4040 with FRP Housing

Meters: 2 Pressure Meters & 2 Roto Meters

Pipe Fittings: High-quality

Features:

- Dual media filtration for better purification
- Antiscalant system for longer membrane life
- Compact, durable & low maintenance
