

SEMI-AUTOMATIC LABELER MACHINE – REGULAR

A compact and easy-to-use semi-automatic labelling solution for round bottles. This portable, mechanically operated machine delivers fast and accurate labelling without the need for an air compressor. Built with heavy-duty material for reliable and long-lasting performance.

Specifications:

- Voltage: 220 / 110V
- Power: 220W
- Labelling Speed: 20 – 50 bottles/min
- Accuracy: ± 1 mm
- Bottle Diameter: 20 – 120 mm
- Label Size: Width 26 – 150 mm | Length 28 – 230 mm
- Roll OD: ≤ 250 mm | Roll ID: ≥ 76 mm
- Machine Size: 640 x 450 x 450 mm
- Weight: 26 kg

Key Features:

- No compressor required
- Simple mechanical operation
- Portable & space-saving design
- High labelling accuracy
- Heavy duty and durable construction
- Suitable for bottles, jars & containers

A perfect solution for small to medium production units looking for efficient and cost-effective labelling.
