

## 2 IN 1 PREMIUM SODA MAKER (FOR GLASS & PET BOTTLE)

This 2 in 1 premium SS soda maker is a heavy-duty manual machine designed for filling CO<sub>2</sub> gas in both PET and glass bottles to prepare fresh soda and soft drinks. It is ideal for juice centres, hotels, restaurants, food courts, and mobile vending setups.

The machine is equipped with a strong built-in storage tank that allows CO<sub>2</sub> gas to be stored, making it easy to transport and operate even without a connected CO<sub>2</sub> cylinder. The top-mounted filler ensures smooth and safe gas filling, while the integrated pressure gauge clearly displays the CO<sub>2</sub> pressure level and safe operating range up to the red line.

Manufactured using 100% food grade stainless steel, this soda maker ensures hygiene, durability, and long service life. The CO<sub>2</sub> gas cylinder is provided as per customer's requirement (on customer's scope).

### Key Features:

- Suitable for both PET & glass bottles
- Manual operation – no electricity required
- 100% food grade SS body
- Built-in CO<sub>2</sub> storage tank for easy mobility
- Accurate pressure gauge for safe operation
- Strong, durable & corrosion-resistant construction
- Easy to use and low maintenance
- Ideal for commercial soda production

Perfect for reliable carbonation and professional soda serving with premium quality output.
