

STIRRER – HEAVY DUTY AV NO. 10

Heavy-duty rod type stirrer engineered for powerful, uniform and continuous mixing of sugar, water, flavours and other general-purpose liquid materials. Designed for high-capacity industrial applications with strong motor performance and long service life.

Key Features:

- Heavy-duty industrial design
- Powerful motor with copper winding
- Stainless steel rod with bottom-fix SS dish
- Double ball bearing for smooth & reliable operation
- Strong, stable & vibration-free performance
- Suitable for continuous & batch mixing
- Ideal for food, beverage & general liquid processing

Technical Specifications:

- Capacity: 100 Ltr
- Motor Power: 0.50 HP
- Speed: 1440 RPM
- Winding: Copper
- Bearing: Double Ball Bearing
- Capacitor:
 - Running: 15 MFD
 - Starting: 60 / 80 MFD
- Motor Body: Cast Iron
- Rod Material: Stainless Steel
- Dish Diameter: 7.5 Inch SS (Bottom Fix)
- Total Length: 36 Inch
- Rod Length (Without Motor): 28 Inch

Ideal For: Mixing of sugar syrup, beverages, flavours, food processing liquids and other general-purpose industrial liquid applications.
