

STIRRER – HEAVY DUTY AV NO. 4

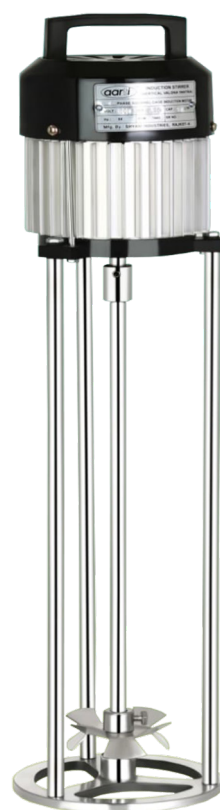

Heavy-duty rod type stirrer designed for efficient and uniform mixing of sugar, water, flavours and other general-purpose liquid materials. Ideal for continuous and batch mixing applications with smooth, stable performance.

Key Features:

- 40 litre mixing capacity
- Heavy-duty motor with copper winding
- Uniform and consistent mixing without sedimentation
- Stainless steel rod and bottom-fix SS dish
- Double ball bearing for smooth operation
- Stable, vibration-free performance
- Easy to operate and low maintenance
- Suitable for food & beverage and general liquid mixing

Technical Specifications:

- Capacity: 40 Ltr
- Motor Power: 0.18 HP
- Speed: 1440 RPM
- Winding: Copper
- Bearing: Double Ball Bearing
- Capacitor: 4 MFD (Running)
- Motor Body: Aluminium
- Rod Material: Stainless Steel
- Dish Diameter: 6 Inch SS (Bottom Fix)
- Total Length: 26 Inch
- Rod Length (Without Motor): 18 Inch

Ideal for: Sugar syrup preparation, beverage plants, flavour mixing, food processing and general industrial liquid applications.
