

SUGAR FILTER PRESS MACHINE – SS (EKTA BRAND)

Ekta Brand Sugar Filter Press Machine is a heavy-duty sugar syrup filtration system designed to remove all impurities and deliver clear, hygienic syrup output. Built with a robust stainless steel frame and body, this machine ensures long-lasting performance and efficient filtration, making it ideal for juice, beverage and food processing units.

Technical Details:

- Filtration System: 8-Stage Sugar Syrup Filtration
- Capacity: 1 PC
- Material of Construction: SS Frame & Body
- Filtration Capacity / Flow Rate: 200 LPH to 500 LPH
- (Depending on syrup viscosity)

Key Features:

- Heavy Duty Filtration System for effective impurity removal
- 8 Filtration Plates for clear and consistent syrup output
- SS Construction ensures hygienic processing and corrosion resistance
- High Flow Rate Performance suitable for medium to high production
- Reliable & Low Maintenance Design
- Ideal for Sugar Syrup, Juice & Beverage Applications
