ABOUT US

Founded in 2025, Vishwokarma Labs is a modern multimedia studio dedicated to creativity, innovation, and learning. We offer a wide range of services including banner design, video production, audio recording, advertising, and branding, all under one roof.

More than just a studio, we are also a learning hub. Our expert-led tuition classes cover hands-on training in Raspberry Pi, Arduino, and other electronics and coding platforms, helping students and tech enthusiasts turn their ideas into reality.

Our creative space includes a green screen studio, a high-quality audio recording room, and a shared co-working zone designed for collaboration and focus. To make the experience even better, we provide access to indoor games like carrom, ludo, and chess, plus a small reading corner for inspiration and relaxation.

And yes every guest is welcomed with free tea, coffee, cookies, and sweets, because we believe creative minds need good fuel.

At Vishwokarma Labs, we're not just building experiences we're building a creative community.
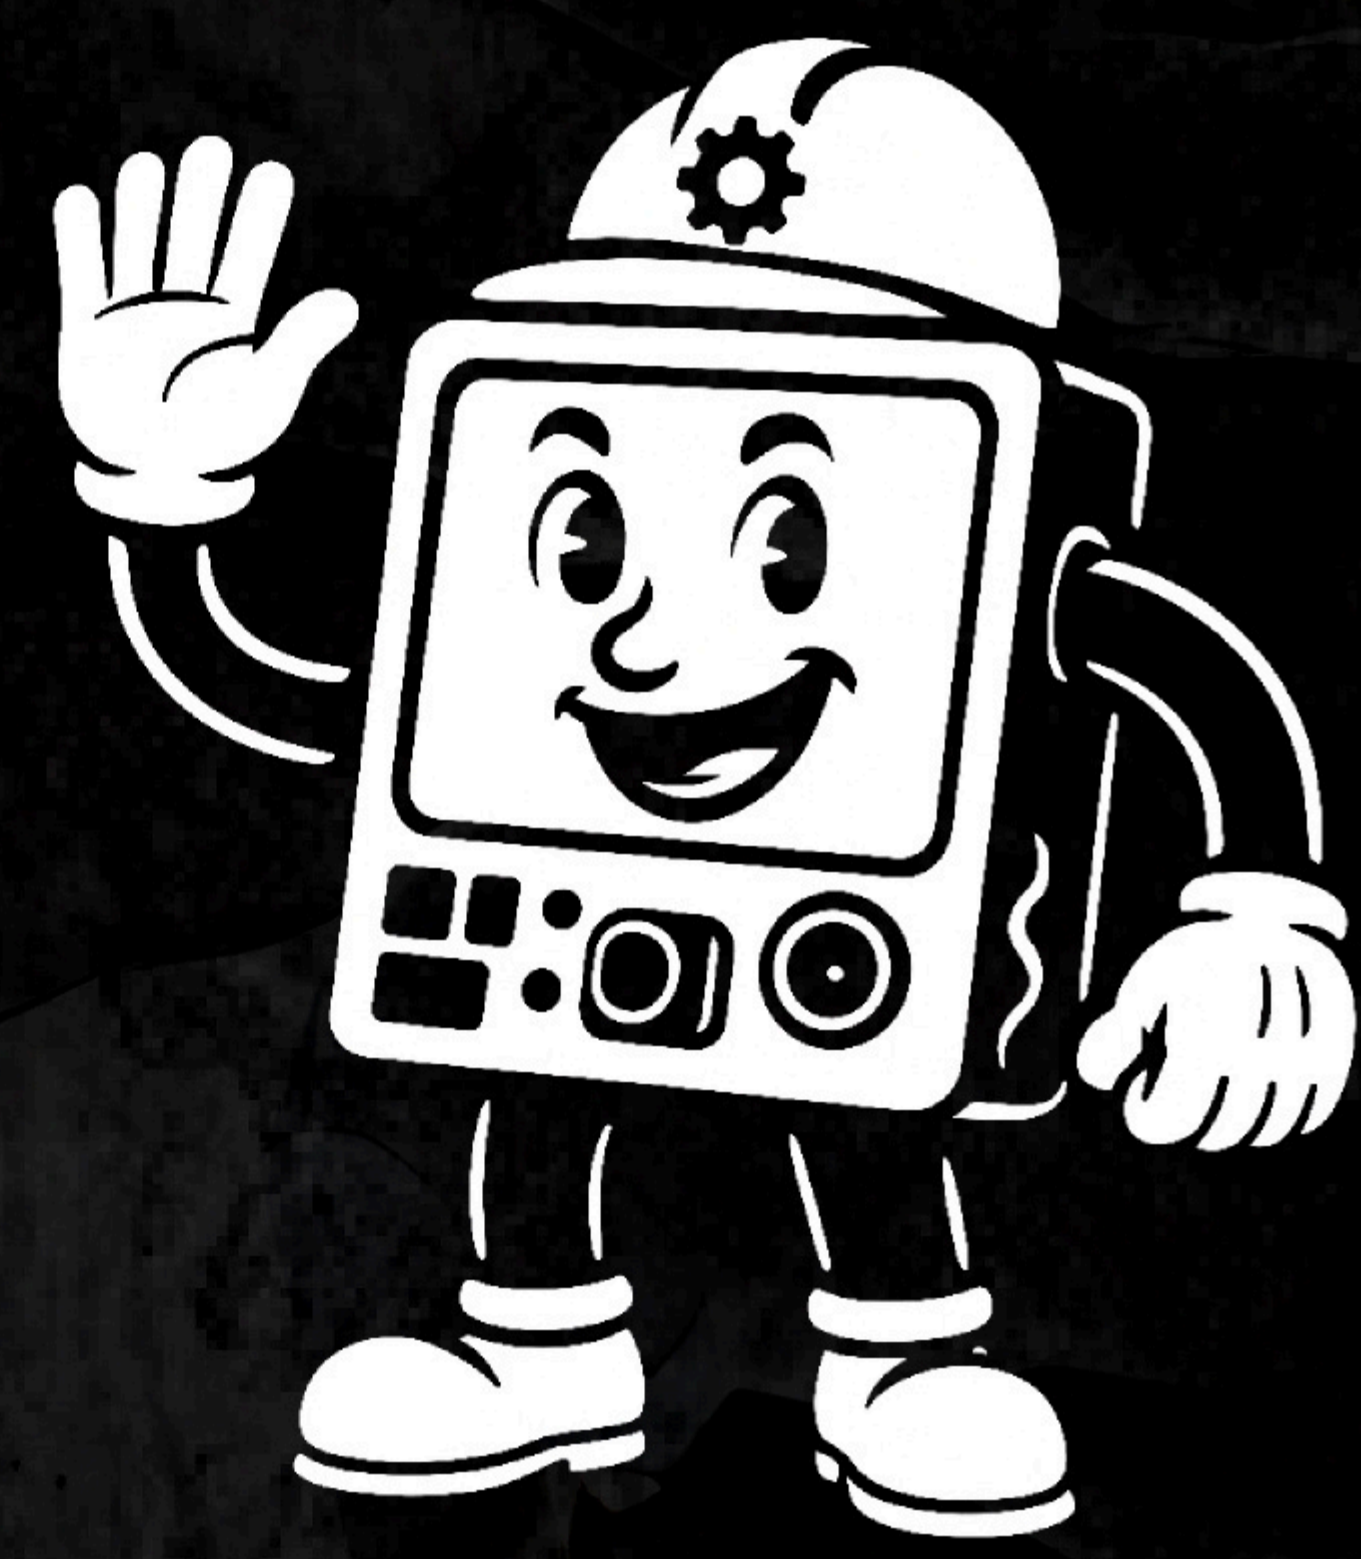

At Vishwokarma Labs, we provide a diverse range of services tailored to support creators, learners, and innovators in a professional yet welcoming environment. Whether you're here to work on a tech project, produce content, or just learn something new, our space is designed to bring your ideas to life with comfort, creativity, and community.

User
Testimonials

Nischaya Adhikari
★★★★★

Peace and quiet. Good place to sit and do work and assignments. I finished my thesis here. Much needed place in this area.

Anurag Sapkota
★★★★★

Chill, minimalist spot away from street noise felt like an office, so I actually got work done. Free peach tea was a nice surprise!

s.p. Dhakal
★★★★★

It's affordable and multiple functional working space , good hospitality.
