Subject: Formal Demand for Investigation and Criminal Prosecution Regarding Psychiatry Fraud and Related Acts of Treason

Sheriff [Last Name],

I am formally placing you and your office on notice regarding ongoing acts of criminal fraud within the psychiatric industry—acts that not only constitute gross violations of the Nuremberg Code but also rise to the level of treason against the United States and its people. These violations include the knowing and willful administration of fraudulent diagnoses, coercive confinement, and non-consensual psychiatric treatment, often under the guise of “public health” or “mental health policy.”

The Nuremberg Code—established after World War II to protect humanity from medical crimes—mandates voluntary, informed consent for all medical procedures. Psychiatry’s continued promotion of the scientifically baseless “chemical imbalance” theory, and the forced institutionalization and drugging of individuals without fully informed consent, is a clear breach of that Code and constitutes a crime against humanity.

Further, any participation by government officials in these actions—particularly when used to suppress, silence, or dispose of vulnerable populations—can be construed as treason, as it betrays the constitutional rights and liberties of the people and aids in the subversion of lawful government protections.

Under your **Oath of Office**, you swore to support and defend the Constitution of the United States and the Constitution of your State. That oath carries with it the solemn duty to investigate and prosecute criminal activity without fear or favor, regardless of the position or influence of those involved. Willful failure to act upon evidence of such crimes may itself be considered a dereliction of duty and a violation of your sworn obligations.

I am demanding that your office open a formal criminal investigation into all local individuals, agencies, and institutions involved in these violations, and that criminal charges be brought against every party found complicit—whether in the public or private sector.

Please be advised that this letter will be made public in the interest of transparency, and that your response—or lack thereof—will be part of the public record.

Respectfully,

[Your Signature]
