Gorilla-Programming

SUMMARY

Java Developer with two years of experience in developing unique programming solutions for web applications. Skilled in developing user-friendly web applications, debugging written code and writing unique code to solve technology problems.

TECHNICAL SKILLS

Programming languages:

Java, C++, Python

Web Technologies:

HTML5, CSS, JavaScript, Spring Framework, Spring Boot

Data Management:

PL/SQL, DB2 SQL

Tools:

IBM Maximo Asset Management, BIRT Report, Power BI, Excel

CERTIFICATIONS

- SQL(Advance)|Hacker Rank| Jul'23
- CORE JAVA | WIPRO | May'22
- Spring | WIPRO | Feb'24
- Java |Hacker Rank| Jul'23
- Web Design for Everybody: Basics of Web Development & Coding Specialization | Coursera |June'20
- Master Spring Boot 3 & Spring Framework 6 with Java | Udemy | Dec'23

POWER SKILLS

- Planned and Productive in Independent Task
- Observant and hands on learner

EXTRA CURRICULAR ACTIVITIES

- Attended Cyber Security Workshop- Indian Cyber Security | Lovely Professional University | Feb'20
- Attended Alexa Code Lab on Alexa Skill | Lovely Professional University | Aug'19

WORK EXPERIENCE

- Software Developer** Mar 2022 -Present
Wipro Limited
Technology: Java, SQL, Birt Reporting, Maximo
- Documentation and Database Management Member** Dec '21 – Mar '22
Youth India Foundation
Technology: Excel

PROJECTS

Face Recognition Automatic Student Attendance Management System Dec'23 – Feb'24

Domain: Application Development | Programming Language: Python, SQL

- Implemented libraries like tkinter, cv2.
- Detect the face of any already registered student and mark their attendance in the database.

Human Resource Management System Oct'22 - Dec'22

Domain: Application Development | Programming Language: Java, SQL

- Developed a Swing Application with an attractive UI that is used to manage Requests between an Employee and a HR of an organization
- Implemented JDBC to store required data to Database
- Project GitHub Link: <https://github.com/Gorilla-Programming/Human-Resource-Management-System>

Edith – Discord Bot Jan'22 - Apr'22

Domain: Application Development | Programming Language: Python

- This Discord Bot greet someone when anyone join the server, say Goodbye if someone Left the server, can generate poll, can create support ticket for help, can play a mini tic tac toe game, can play any song in voice channel, can detect abusive word from chat and delete it.
- Project GitHub Link: <https://github.com/Gorilla-Programming/Edith-Cord>

ACHIEVEMENTS

- Member of the Month | Youth India Foundation
For Outstanding Performance in the Month of December 2021.
- Earned gold badge for JAVA | Hacker Rank
- Earned gold badge for C Programming | Hacker Rank

EDUCATION

- Master of Computer Application (ODL) Aug '22 - Present
Lovely Professional University | Jalandhar, IN Pursuing
- Bachelor of Computer Application Jul '19 - May '22
Lovely Professional University | Jalandhar, IN CGPA- 9.12
