

GIVE BIG OIL CREDIT

You've read your thank you's and END with speech below.

A COMPLETE UNKNOWN ACCEPTANCE SPEECH

I would like to recognize the Oil & Gas Industry for the role it played in causing the recent climate destruction across Los Angeles. For decades Big Oil executives knew their product would cause climate disasters, and instead of warning the public, they lied to protect their billions in profits. Please join me and Give Big Oil Credit for all they've done.

How many cities will big oil burn down, before we call out big oil?
