

Insulation Installer

Location: West Allis, WI
Full Time

Company Description

Green Homeowners United is a company dedicated to helping people reduce their energy burdens through home energy efficiency upgrades. We provide services throughout Southeastern WI and consulting services nationwide. Our team of BPI-certified energy assessors assess energy loss and inefficiencies in homes and make recommendations for improvements. We also have a team of residential energy experts who complete the repairs and upgrades such as insulation, windows, gap/air sealing and more. Our mission is to help homeowners finance energy upgrades that pay for themselves while making homes more climate resilient. Come grow with us!

Insulation Installer will be expected to:

- Add insulation (rigid, blown, batts, sprayfoam) to attics, basements, walls to reduce energy loss
- Apply air/gap sealing techniques
- Show attention to detail and pride in work
- Work with a team to problem solve on-the-ground issues in old homes to best reduce energy use and health hazards
- Learn and apply safety techniques and equipment
- Work on a team the majority of the time but be able to work independently as assigned
- Understand building science principles behind different construction approaches and energy efficiency improvements to further improve homes (training provided)
- Use power tools and equipment
- Speak professionally to customers and team members

Training is provided. While experience in these areas is ideal, a great candidate is someone eager to learn and develop their skills.

Requirements:

- Eagerness to learn and develop skills with a growing company
- Experience/skill with tools including drills, saws, and other common small residential construction equipment
- Attention to detail, knowledge of basic math and measuring skills
- Must be able to carry upwards of 50 lbs
- Ability to climb ladders
- Ability to go into attics and crawl spaces to install insulation and gap seal
- Must be willing to work in lead safe & effective manners including full protective equipment when necessary and adhere to clean standards at the worksite (training provided)
- Creative strategic thinking skills and willingness to innovate
- Excellent listening, interpersonal and problem solving skills, strong personal time management skills, organization skills, and the ability to work under pressure, and the ability to resolve conflicts while maintaining effective relationships
- Training/experience using power tools required
- Ability to undertake occasional travel within Wisconsin and northern IL
- Must have a valid Driver's License and ability to safely drive a box truck (CDL not required)
- Ability to be at work between 8am and 6pm, Monday-Friday (varies by day)
