Safety Shoes

We deal in various kinds of Safety Shoes and have genuine branded products that fit all kinds of uses and fulfils all types of requirements:

JCB Safety Shoes:

JCB FASTRAC

Sporty Safety Footwear with Enhanced Wearer Comfort.

Fastrac is modern super light weight and highly flexible safety shoe. it offers out standing wearer comfort due to virtually seam free construction, padded collar and tongue. The innovative product is perfectly adapted to the high humid Indian atmosphere for its outstanding air exchange, low weight and optimal climate control. Standing and walking in Fastrac is highly comfortable – all day long.

- Upper: Black and Yellow High Tenacity Synthetic Fiber
- Sole: Single Density PU, Black Outsole
- Toecap: Steel
- Lining: Mesh
- Footbed: EVA Footbed
- Safety category: EN ISO 20345 : 2011 & IS 15298 (Part 2): 2016
- Sample weight: 850 gm. + 50g. | Size 8.
- Size range: UK 5-12
- Options: ESD, Penetration Resistance

JCB EXCAVATOR

(Ankle Safety Footwear)

Light Weight Black 4 Metal D Rings & One Hook, High Ankle, Double Density, Slip Resistant, Direct Injected (On DESMA) PU Sole, Double Density Safety Footwear. Nail Less Strobel Construction., As per Design B.

- Sole: PU Double Density Black In Color, Black Outsole
- Toecap: Steel
- Lining: Mesh
- Footbed: Full EVA Moulded ANTISTATIC
- Safety category: As Per IS 15298 (Part 2) : 2016 Clause 7 ISI
- Sample weight: 850 gm. + 50g. | Size 8.
- Size range: UK 5-1
- Electrical Properties: Antistatic, Resistance Between 100 Kilo Ω Ohms & 1000 Mega Ω Ohms

JCB EXEC

(Low Ankle Safety Footwear)

Light Weight Black Formal Shoe , low ankle, Double Density, Slip Resistant, Direct Injected (on DESMA) PU Sole, Safety Footwear. Nail less Strobel Construction As per Design A.

- Sole: PU Double Density Black In Color, Black Outsole
- Lining: Mesh
- Footbed: Non Woven Antistatic More Than 2 Mm Thickness
- Safety category: Meets IS 15298: 2016 Part II
- Size range: UK 5-12
- Electrical Properties: Antistatic, Resistance Between 100 Kilo Ω Ohms & 1000 Mega Ω Ohms

JCB COUNTESS

(Ladies Safety footwear with Velcro fastener)

Countess is Ladies safety footwear with two leather straps fitted with Velcro fasteners. it offers convenience, first-class wearer comfort and highest slip resistance. Thanks to its lightweight design, climate-optimized high-tech materials, and ergonomically designed sole. Countess the ideal companion for the working day and beyond.

- Sole: Black Single Density PU
- Lining: Mesh
- Toecap: Steel
- Footbed: EVA Footbed
- Safety category: EN ISO 20345 : 2011 & IS 15298 (Part 2): 2016
- Size range: UK 2-8
- Sample Weight: 850 gm. + 50g. | Size 8.

JCB EARTHMOVER

(Low Ankle Safety Footwear)

Light Weight Black 4 Metal Eyelets Low Ankle, Double Density, Slip Resistant, Direct Injected (On DESMA) PU Sole, Safety Footwear Nail Less Strobel Construction, As per Design A.

- Outsole: PU Double Density Black In Color
- Color: Black.
- Lining: Mesh
- Footbed: Non Woven Antistatic More Than 2 Mm Thickness
- Safety category: Meets IS 15298: 2016 Part II
- Size range: UK 5-12
- Electrical Properties: Antistatic, Resistance Between 100 Kilo Ω Ohms & 1000 Mega Ω Ohms

JCB VENT

(Breathable Safety footwear)

Vent is sporty, youthful, stylish combined with first-class wearer comfort. Thanks to its lightweight design, climate-optimized high-tech materials, and ergonomically designed highest SRC slip resistance, out sole. Vent offers very **good breath ability** the ideal companion for 24X7 working.

- Sole: PU Double Density, Yellow Outsole
- Lining: Gray Mesh
- Footbed: EVA Footbed
- Safety category: Meets IS 15298: 2016 Part II
- Size range: UK 5-12
- Sample Weight: 875+-50g | Size 8

JCB MIGHT

(Non Metallic Leather Safety footwear)

Mighty is our another new stylish non metallic leather safety footwear, offering very high wearer comfort & highest slip resistance, thanks to its lightweight design, tropicalized high-tech materials including composite toe, and ergonomically designed out sole. Mighty the ideal companion for **frequent flyers**.

- Sole: PU Double Density, Grey Outsole
- Lining: Mesh
- Footbed: EVA Footbed
- Safety category: Meets IS 15298: 2016 Part II
- Size range: UK 5-12
- Sample Weight: 900+-50g | Size 8

JCB TREKKER

(Ankle Safety Footwear)

Lace up Beige Safety Ankle Boot, Double Density, Direct Injected (on DESMA) PU Sole, Safety Footwear. Nail less Strobel Construction As per Design B.

- Outsole: PU Double Density Black In Color
- Color: Beige Except Color Which Is Black.
- Lining: Mesh
- Footbed: Non Woven Antistatic More Than 2 Mm Thickness
- Safety category: Meets IS 15298: 2016 Part II
- Size range: UK 5-12
- Electrical Properties: Antistatic, Resistance Between 100 Kilo Ω Ohms & 1000 Mega Ω Ohms

Go-Work Safety Shoes:

OIL RESISTANT: YES

JAMA Safety Shoes:

Lightweight Safety Footwear – 1 Year Warranty

JAMA Phoenix

(Genuine Leather Buffalo Barton Print Black)

Waterproof

- Sole: PU Double Density/Single Density, oil & fuel resistant
- Lining: Non-Woven Grey Mesh Lining
- Insole: Non Woven Anti-static, 2 Mm Thickness
- Safety category: Meets IS 15298: 2016 Part II
- Size range: UK 5-12
- Tow cap: Steel Toe, 200J (Composite Toe also available)
- Electrical Properties: Antistatic

JAMA Seattle

(Genuine Leather Buffalo Smooth Black)

Waterproof

- Sole: PU Double Density/Single Density, oil & fuel resistant
- Lining: Non-Woven Grey Mesh Lining
- Insole: Non Woven Anti-static, 2 Mm Thickness
- Safety category: Meets IS 15298: 2016 Part II
- Size range: UK 5-12
- Tow cap: Steel Toe, 200J (Composite Toe also available)
- Electrical Properties: Antistatic

JAMA Phoenix

(Genuine Leather Buffalo Barton Print Black)

Waterproof, Chemical Resistant, Heat Resistant

- Sole: Nitrile Rubber Chemical Resistant, oil & fuel resistant, Heat Resistant upto 300 Degree Celsius
- Midsole: PU
- Insole: Non Woven Anti-static, 2 Mm Thickness
- Safety category: Meets IS 15298: 2016 Part II
- Size range: UK 5-12
- Tow cap: Steel Toe, 200J (Composite Toe also available)
- Electrical Properties: Antistatic

JAMA Olympia

(Genuine Leather Buffalo Oiled Rust CG Cherry)

Waterproof

- Sole: PU Double Density/Single Density, oil & fuel resistant
- Insole: Non Woven Anti-static, 2 Mm Thickness
- Safety category: Meets IS 15298: 2016 Part II
- Size range: UK 5-12
- Tow cap: Steel Toe, 200J (Composite Toe also available)
- Electrical Properties: Antistatic

JAMA Commando Boot

(Genuine Leather Napa Black)

Waterproof

- Sole: PU Single Density, oil & fuel resistant
- Insole: Non Woven Anti-static, 2 Mm Thickness
- Safety category: Meets IS 15298: 2016 Part II
- Size range: UK 5-12
- Tow cap: Steel Toe, 200J (Composite Toe also available)
- Electrical Properties: Antistatic

JAMA Tyler

(Genuine Leather Full Grain Brown Oil Pull-Up)

Waterproof

- Sole: PU Double Density/Single Density, oil & fuel resistant
- Lining: Non-Woven Air-Mesh Lining
- Insole: Non Woven Anti-static, 2 Mm Thickness
- Safety category: Meets IS 15298: 2016 Part II
- Size range: UK 5-12

- Oil Resistant, Water Proof, Light Weight
- All Weather Friendly
- Heat Activated Moulded Thermo-Plastic Counter Stiffener
- Electric Shock Proof, Anti Skid

GUM BOOTS

MM SAFETY &
WORK WEAR
SOLUTIONS

Specialized Variety of Gum Boots is available with us which come in all adult sizes to match all your requirements:

Steel toe gumboots:

Steel toe gumboots help prevent a wide range of injuries, not just injuries from falling objects. They can also help prevent injuries due to slips and falls, cuts/lacerations and burns, and punctures. A sturdy safety boot makes it more difficult for injuries such as these to occur.

Rain Boots gumboots:

Rain Boots are boots made of polyvinyl chloride, a plastic-based polymer, and formed by injection molding. This results in a boot that is highly waterproof, lightweight and quite durable, Rain boots help prevent a wide range of injuries, not just injuries from falling objects.

Food Grade gumboots:

Food industry safety boots made of high resistance white PVC. Designed for use in the food industry. Provide the operators' feet protection against shocks, moisture, cold and offer good grip on wet surfaces.

Gumboots Drying Rack:

Boot drying rack on legs, for industrial applications. Tubular structure allowing you to dry food industry boots or work shoes. Easy to use and space saving manual boot drying rack.

Hillson Torpedo 212 – Safety Gumboot

Weight	1.830 kg
Dimensions	41 x 28 x 10 cm
Size	5, 6, 7, 8, 9, 10, 11
Weight	Size 9 - 1620 grams
Approvals	ISO 112254 1993 CE CERTIFIED
Type	PVC (DUAL DENSITY) GUMBOOT WITH STEEL TOE CAP (OPTIONAL)
Upper	Soft PVC upper
Outsole	Fully moulded hard PVC
Colors	Black/Gray
Toe Cap	steel toe cap with 140 joules A2 PER IS-0002 2004
Suitable For	Engineering, Construction Petrochemical Cement, Coal Mines, Railway Etc.
USP	PVC boot is leakage resistance, safe to working till 150,000 cycle and also comply BIS standard parameters.

CERAMIC CUTTERS

MM SAFETY &
WORK WEAR
SOLUTIONS

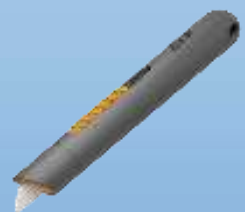

We have a wide range of Ceramic Cutters meant to fulfil the requirements of all types of different industries and jobs. Stainless steel blades have been the time tested solution for every need. Ceramic blades are made from zirconium dioxide and have a hard edge, which helps it in staying sharp for a very long time. In a nutshell, these can be described as an alternative that is safer, stronger, and an absolute delight to use.

- It is non-magnetic, non-conductive, and non-sparking, which makes it perfect for industrial use.
- It is chemically inert and non-contaminating, which makes it easy to maintain.
- It is non-reactive, does not rust, and oil and lubricant-free, which makes it ideal for cutting in special conditions.
- It is very hard, non-porous, and chemically resistant, which makes it safer than metal blades
- Its sharpness does not dull quickly, so it is not excessively sharpened, which makes it safer.

Box Cutters:

Box cutters are compact, handheld tools that cut thin materials such as corrugated packaging or plastic film.

Micro-Ceramic Knives:

The smaller cutting surfaces on micro-ceramic-blade knives work well with thin materials such as paper, plastic film, vinyl, and even clamshell packaging.

CERAMIC CUTTERS

MM SAFETY &
WORK WEAR
SOLUTIONS

Ceramic scissors :

Ceramic scissors are any scissors that use a ceramic material for their blades. The best ceramic scissors use 100 percent advanced ceramics, also called engineered ceramics, or zirconium oxide, to ensure longevity and performance.

Utility Knives:

Utility knives are hand tools that cut corrugated packaging, plastic, and other materials. Industrial utility knife uses include opening and breaking down corrugated boxes, cutting pallet wrap and banding, trimming flash from plastic components, and cutting raw materials to shape on the factory floor.

Replacement Blades:

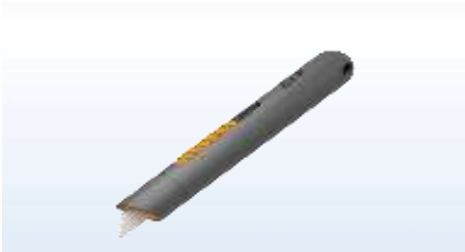

As with any cutting tool, you need to bring out a blade replacement as soon as your edge is too dull. Zirconium oxide is non-sparking, non-conductive, non-magnetic, chemically inert, and never rusts. Our blades are safe up to 1600 degrees Celsius and therefore ideal for sterilization and laboratory settings.

Nose/Face Mask

We have a wide variety of Nose/Face Masks that are used for various types of Respiratory Safety requirements. All type of Standard, generic, branded and un-branded masks are available with us:

HONEYWELL FF2400 P2 MASK

3-PLY FACE MASK MELTBLOWN FILTER

HONEYWELL SM2400 SURGICAL MASK

HONEYWELL FF2400N N95 MASK

PRIMA FFP2 N95 MASK

3 PLY FACE MASK

VENUS V-4400N95 MASK

FILTERING FACEPIECE RESPIRATORS

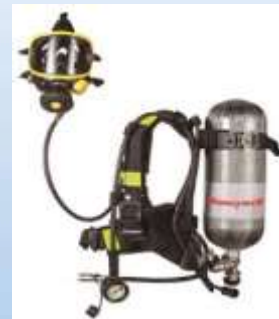

Respirator Mask

It is a common misconception that respirators and masks provide the same type of protection. Respirators can help protect you while you breathe in by filtering out small and even microscopic particles in the air and harmful gases, whereas cloth and single use masks are more about protecting those around you from large particle droplets as you breathe out, cough or sneeze. Industrial Respirator masks are available with us with national and international certifications and recommendations:

Honeywell Respirators:

EN T800 SCBA

Honeywell T8000 is a Self Contained Breathing Apparatus (SCBA) that is designed to provide a superior and effective safety product for respiratory protection in firefighting and industrial usage that complies with the EN137, Type II Classification. The T8000 SCBA from Honeywell understands a Firefighter's ensemble in high heat conditions, and the level of thermal performance. Firefighters need the finest protection against unforeseen circumstances that are immediately dangerous to life or health.

North Primair 700 Series

The Honeywell North Primair 700 (PA700) Series PAPR is engineered to be ergonomic, efficient and effortless to get workers on the job faster and keep them comfortable and productive. The PA700 Series PAPR offers convenience, comfort, and confidence—all day, every day.

Industries & Applications:

- Pharmaceutical Development*
- Manufacturing (silica dust)
- Abatement
- Construction
- Hospital labs (chemotherapy drug mixing and infectious disease)

Maintenance Lockout Kit with 3 Padlocks

Product Highlights:

Includes:

(1) 1 in Steel Lockout Hasp (49252), (1) 1.5 in Steel Lockout Hasp (49255), (1) 110 V Plug Lockout (65674), (1) 3-in-1 Plug Lockout (45842), (1) 4-Legged Ball Valve Lockout 0.5-2.5 in (45341), (1) AC Voltage Sensor (65269), (1) All Purpose Cable Lockout (50943), (1) Extra Large Rugged Plastic Toolbox (45613), (1) Gate Valve Lockout 1-2.5 in (65560), (1) Gate Valve Lockout 2.5-5 in (65561), (1) Lockout Safety Booklet (43565), (1) Wall Switch Lockout (65392), (10) Danger Lockout Tags (45655), (14) Padlock Identifier Labels (45584), (2) Clamp-On Breaker Lockouts 120/277 V (65396), (2) Universal Multi-Pole Breaker Lockout (66321), (3) SafeKey Nylon Lockout Padlock 1.5 in Shackle KD Red (150321)

Storage Container Material: Polyethylene

Storage Container Size:
7.5 in H x 14 in W x 8 in D

Color: Gray

Application: Lockout Tagout

BRADY ELECTRICAL LOTO KIT

Product Highlights:

Storage Container Size:

5.25 in H x 14 in W x 6.5 in D

Storage Container Material:

Polyethylene

Includes:

(1) 110 V Plug Lockout (65674), (1) 480/600V Clamp-On Breaker Lockout (65397), (1) Clamp-On Breaker Lockouts 120/277 V (65396), (1) Gate Valve Lockout 1-2.5 in (65560), (1) Lockout Toolbox (65290), (1) Small Ball Valve Lockout (65666), (1) Steel Lockout Padlocks 0.75 in Shackle KD Blue (99504), (1) Steel Lockout Padlocks 2 in Shackle KD Blue (99504), (1) Universal Multi-Pole Breaker Lockout (66321), (1) Wall Switch Lockout (65392), (5) Danger Lockout Tags (65525), (5) Labeled Lockout Hasp (65960)
