ABOUT US

“Elevating Industrial Safety Through Quality and Commitment”

Who We Are:

Founded in 2018, MM Safety & Work Wear Solutions is a one-stop partner for Industrial, Fire, Chemical, and Medical Safety Products & Services.

We go beyond product supply — delivering engineering-based safety solutions trusted by India’s leading industries.

Our Vision:

To be India’s most trusted provider of certified safety products and workplace solutions through innovation, integrity, and excellence.

Our Mission:

To make workplaces safer by combining global-quality products with expert consulting and unmatched service.

Our Journey:

- 📌 2018 – Inception
- 📌 2019 – First client: *Pernod Ricard India Pvt. Ltd.*
- 📌 2020 – Partnership with *Honeywell Safety*
- 📌 2021 – Alliance with *JCB Safety Shoes*
- 📌 2022 – Collaboration with *Brady India* for VLOP & Visual Management
- 📌 2023 – First Greenfield Project: *Moon Beverages Pvt. Ltd.*
- 📌 2025 – 500+ Products | 100+ Clients | PAN India Presence

What Sets Us Apart:

- PAN India supply network
- 1000+ safety products under one roof
- Certified brand portfolio
- Tailored industrial safety services and equipment
- Trusted by India’s leading manufacturing and F&B companies

WORKPLACE MONITORING SOLUTIONS

DESK AND SEAT OCCUPANCY SENSOR

(Designed to detect desks or seats occupancy)

Standard Version: Uses PIR technology

Pro Version: Uses PIR and Thermopile IR temperature technology

- Wireless detection and easy configuration
- Reliable and convenient desk or seat arrangement optimization
- LoRaWAN high distance internet wireless deployment
- V0 grade flame retardant material for safety and reliability
- NFC equipped for one-touch configuration
- 5 Year Battery Life
- Usage: Single person Desk, Face to Face Desk, Bar Table, Round Table, and Other customizations
- Size: 73 x 73 x 26 mm

AI WORKPLACE OCCUPANCY SENSOR

(Designed to monitor occupancy & utilization of workplace)

Sitting object: Used for region people counting

Standing Object: Used for line cross counting

- 100% anonymous detection
- LoRaWAN high distance internet wireless deployment
- 78 square meters large detection area
- Equipped with Wi-Fi for web GUI configuration
- Recognition rate is up to 98% based on advanced AI identification and analysis technology
- Used to determine the number of people in specific areas
- Size: 85 × 85 × 20 mm

AI ToF PEOPLE COUNTING SENSOR

(Actionable Insights Beyond People Counting)

Sitting object: Used for region people counting

Standing Object: Used for line cross counting

- 100% anonymous detection
- LoRaWAN high distance internet wireless deployment
- Line Crossing & Regional People Counting
- Staff Detection and Adults/Children Differentiation
- On-board AI algorithm (99.8% accuracy)
- Extendable multi-device stitching
- Advanced Heat Map
- Size: 180 × 26 × 72 mm

PRODUCTS

FOOT
PROTECTION

SAFETY SHOES

We deal in various kinds of Safety Shoes and have genuine branded products that fit all kinds of uses and fulfils all types of requirements:

JCB FASTRAC

Sporty Safety Footwear with Enhanced Wearer Comfort.

Perfectly adapted to the high humid Indian atmosphere for its outstanding air exchange, low weight and optimal climate control. Standing and walking in Fastrac is highly comfortable – all day long.

- Sole: Single Density PU, Black Outsole
- Toecap: Steel
- Lining: Mesh
- Footbed: EVA Footbed
- Safety category: EN ISO 20345 : 2011 & IS 15298 (Part 2): 2016
- Sample weight: 850 gm. + 50g. | Size 8.
- Size range: UK 5-12
- Options: ESD, Penetration Resistance

JCB EXCAVATOR

(Ankle Safety Footwear)

Light Weight Black 4 Metal D Rings & One Hook, High Ankle, Double Density, Slip Resistant, Direct Injected (On DESMA) PU Sole, Double Density Safety Footwear. Nail Less Strobel Construction.

- Sole: PU Double Density Black In Color, Black Outsole
- Toecap: Steel
- Lining: Mesh
- Footbed: Full EVA Moulded ANTISTATIC
- Safety category: As Per IS 15298 (Part 2) : 2016 Clause 7 ISI
- Sample weight: 850 gm. + 50g. | Size 8.
- Size range: UK 5-1
- Electrical Properties: Antistatic, Resistance Between 100 Kilo Ω Ohms & 1000 Mega Ω Ohms

JCB EXEC

(Low Ankle Safety Footwear)

Light Weight Black Formal Shoe , low ankle, Double Density, Slip Resistant, Direct Injected (on DESMA) PU Sole, Safety Footwear.

- Sole: PU Double Density Black In Color, Black Outsole
- Lining: Mesh
- Footbed: Non-Woven Antistatic More Than 2 Mm Thickness
- Safety category: Meets IS 15298: 2016 Part II
- Size range: UK 5-12
- Electrical Properties: Antistatic

JCB VENT

(Breathable Safety footwear)

Vent is sporty, youthful, stylish combined with first-class wearer comfort. Lightweight design, climate-optimized high-tech materials, and ergonomically designed highest SRC slip resistance, out sole.

- Sole: PU Double Density, Yellow Outsole
- Lining: Gray Mesh
- Footbed: EVA Footbed
- Safety category: Meets IS 15298: 2016 Part II
- Size range: UK 5-12
- Sample Weight: 875+-50g | Size 8

JCB MIGHT

(Non-Metallic Leather Safety footwear)

High wearer comfort & highest slip resistance, thanks to its lightweight design, tropicalized high-tech materials including composite toe, and ergonomically designed out sole. Mighty the ideal companion for frequent flyers.

- Sole: PU Double Density, Grey Outsole
- Lining: Mesh
- Footbed: EVA Footbed
- Safety category: Meets IS 15298: 2016 Part II
- Size range: UK 5-12
- Sample Weight: 900+-50g | Size 8

GUM BOOTS

Specialized Variety of Gum Boots is available with us which come in all adult sizes to match all your requirements:

STEEL TOE GUMBOOTS:

Steel toe gumboots help prevent a wide range of injuries, not just injuries from falling objects. They can also help prevent injuries due to slips and falls, cuts/lacerations and burns, and punctures. A sturdy safety boot makes it more difficult for injuries such as these to occur.

RAIN BOOTS GUMBOOTS:

Rain Boots are boots made of polyvinyl chloride, a plastic-based polymer, and formed by injection molding. This results in a boot that is highly waterproof, lightweight and quite durable, Rain boots help prevent a wide range of injuries, not just injuries from falling objects.

DIELECTRIC FIRE-FIGHTING GUMBOOTS:

Dielectric fire-fighting gumboots are specially designed insulated boots that protect firefighters from electric shocks while working in wet or live-wire environments. They also offer superior heat, chemical, and puncture resistance, ensuring safety during fire and rescue operations.

GUMBOOTS DRYING RACK:

Boot drying rack on legs, for industrial applications. Tubular structure allowing you to dry your industry boots or work shoes. Easy to use and space saving manual boot drying rack.

CERAMIC CUTTERS (HAND PROTECTION)

We have a wide range of Ceramic Cutters meant to fulfil the requirements of all types of different industries and jobs. Stainless steel blades have been the time-tested solution for every need. Ceramic blades are made from zirconium dioxide and have a hard edge, which helps it in staying sharp for a very long time. In a nutshell, these can be described as an alternative that is safer, stronger, and an absolute delight to use.

It is **non-magnetic**, **non-conductive**, and **non-sparking**, which makes it perfect for industrial use. It is **chemically inert** and **non-contaminating**, which makes it easy to maintain.

It is non-reactive, does not rust, and Oil and lubricant-free, which makes it ideal for cutting in special conditions.

It is very hard, non-porous, and chemically resistant, which makes it **safer than metal blades**.

Its **sharpness does not dull quickly**, so it is not excessively sharpened, which makes it safer.

Box Cutters:

Box cutters are compact, handheld tools that cut thin materials such as corrugated packaging or plastic film.

Micro-Ceramic Knives:

The smaller cutting surfaces on micro-ceramic-blade knives work well with thin materials such as paper, plastic film, vinyl, and even clamshell packaging.

Ceramic scissors :

Ceramic scissors are any scissors that use a ceramic material for their blades. The best ceramic scissors use 100 percent advanced ceramics, also called engineered ceramics, or zirconium oxide, to ensure longevity and performance.

Utility Knives:

Utility knives are hand tools that cut corrugated packaging, plastic, and other materials. Industrial utility knife uses include opening and breaking down corrugated boxes, cutting pallet wrap and banding, trimming flash from plastic components, and cutting raw materials to shape on the factory floor.

REUSABLE RESPIRATORS

It is a common misconception that respirators and masks provide the same type of protection. Respirators can help protect you while you breathe in by filtering out small and even microscopic particles in the air and harmful gases, whereas cloth and single use masks are more about protecting those around you from large particle droplets as you breathe out, cough or sneeze. Industrial Respirator masks are available with us with national and international certifications

POWERED AIR PURIFYING RESPIRATORS

CONAER™ CA2100 POWERED AIR PURIFYING RESPIRATOR (PAPR)

Bison Life ConAer™ CA2100 PAPR is a high-performance powered air purifying respirator designed for demanding industrial environments. With dual airflow settings and a fast-charging lithium-ion battery, it ensures continuous clean air delivery for extended wear and superior user comfort. Industries & Applications:

- Spray Painting
- Powder Handling
- Chemical Processing
- Pharmaceutical Manufacturing
- Surface Coating and Mixing Tasks

NORTH PRIMAIR 700 SERIES

The Honeywell North Primair 700 (PA700) Series PAPR is engineered to be ergonomic, efficient and effortless to get workers on the job faster and keep them comfortable and productive. The PA700 Series PAPR offers convenience, comfort, and confidence. Industries & Applications:

- Pharmaceutical Development*
- Manufacturing (silica dust)
- Abatement
- Construction
- Hospital labs (chemotherapy drug mixing and infectious disease)

SELF CONTAINED BREATHING APPARATUS (SCBA) SETS

HONEYWELL T8000™ SCBA

A robust, EN 137:2006 Type 2 certified SCBA for firefighting and industrial environments. Offers panoramic visibility, buddy breather, optional digital gauge with PASS alarm, and ergonomic harness for extreme heat zones.

3M™ SCOTT™ SIGMA 2 TYPE 2 SCBA

A high-performance, cost-effective self-contained breathing apparatus designed for industrial, marine, and firefighting use. Ergonomically built with a Kevlar® harness, first-breath activation, and compatibility with 200/300 bar cylinders. Simple to use and maintain.

DRÄGER PSS® 3000 SCBA

Lightweight yet rugged SCBA system for industrial and emergency applications. Built with integrated hoses, ergonomic padding, and a proven pressure-reducing valve system. Designed for ease of use, maintenance, and long-duration comfort.

SAFETY BELT/HARNESS

Often Working at height can be dangerous, but it is our duty to take precautions and ensure Work Safety and Fall Protection, our range of Safety belts and harnesses help ensure this, and there are a lot of options to choose from.

AVAILABLE BRANDS: KARAM, HONEYWELL, PRIMA

PN-16
FULL BODY HARNESS
FOR BASIC FALL ARREST
(CLASS A)

PN-17
ALONG WITH ALL THE
FEATURES OF PN 16,
PN 17 HAS TWO LATERAL D-
RINGS AT THE SIDES FOR
POSITIONING AT HEIGHTS

PN-18
FULL BODY HARNESS FOR
TOEER CLIMBING
(CLASS L)

PN-19
FULL BODY
HARNESS FOR
ENTRY AND EXIT IN
CONFINED SPACE
(CLASS E)

PN-44 OR
THIS HARNESS
COMES WITH A
STERNAL FALL
ARREST
ATTACHMENT, AND
IS AN IDEAL CHOICE
FOR WORK
POSITIONING WHILE
WORKING AT
HEIGHT.

PN-56 OR
COMES WITH
COMFORTABLE BACK
AND SHOULDER
PADDING, THIS
HARNESS CAN BE USED
FOR ALL APPLICATIONS
LIKE ROPE ACCESS,
RESCUE, DESCENT,
WORK POSITIONING AND
FALL ARREST.

PN-22 AS
NOSPARK RANGE
OF HARNESSES
ARE ANTI-STATIC
IN NATURE AND
ARE ATEX
CERTIFIED

PN-22 FR
FLANIL RANGE OF
HARNESSES ARE
FLAME RESISTANT
AND CAN
WITHSTAND
TEMPERATURES OF
UP TO 700° F / 371°
C WITHOUT ANY
DAMAGE

SPECIALLY DESIGNED
FOR WORKERS
WORKING IN
CONDITIONS WHERE
THERE ARE POSSIBLE
ELECTRICAL HAZARDS

PN-74
ELASTO RANGE
CONSTITUTES SPECIAL
STRETCHABLE HARNESSES
DESIGNED FOR TOTAL
COMFORT TO THE
WEARER, THESE
HARNESSES PROVIDES
FOR GREATER FREEDOM
OF MOVEMENT

PN 57
TOEER HARNESSES HAS A
FULLY PADDED AND
ADJUSTABLE WORK
POSITIONING TO PROVIDE
AN EXTREME LEVEL OF
SUPPORT TO THE BACK
WHILE WORKING AT
HEIGHT

PN 43 IS
THE IDEAL HARNESSES
FOR TOEER
CLIMBING, WORK
POSITIONING AND
WORKING ON A
MAST

PN 41
IS A SPECIALIZED
HARNESSES FOR FALL
ARREST AND WORK
POSITIONING AT HEIGHT
IN INDUSTRIES LIKE
CHEMICALS AND
FERTILIZERS

PN-25
THE EXTENSION RESCUE
STRAP INCORPORATED ON
THE SHOULDER STRAP OF
THE HARNESSES HAS A D-RING
THAT CAN BE USED TO
CONNECT TO THE RESCUE
EQUIPMENT, WHEN IN NEED.
IT ALLOWS EASY RESCUE OF
THE WORKER AND MINIMIZE
DISCOMFORT

PN 11
BASIC CE COMPLIANT
HARNESSES, HAVING
ADJUSTABLE CHEST
AND THIGH STRAPS,
WITH A DORSAL D-RING
FOR FALL ARREST

PN 14
HARNESSES BEST
SUITED FOR A
CONTROLLED
DESCENT IN
CONFINED SPACES.

FIRE SAFETY

FIRE EXTINGUISHERS

Type of Extinguisher	Fire Classes Fought	Agent	Typical Sizes	Features / Applications
Water-Based	A	Water	Portable: 6 L, 9 L; Wheeled: 50 L, 100 L, 135 L	Effective against wood, paper, cloth fires. High-pressure throw. Not suitable for electrical or oil fires.
ABC Powder (MAP 50 / MAP 90)	A, B, C	Mono Ammonium Phosphate Powder	Portable: 2–12 kg; Wheeled: 25–100 kg	Multi-purpose, fights solids, flammable liquids, and electrical fires. High discharge reliability.
CO2-Based	B, C	Carbon Dioxide	Portable: 2 kg; Wheeled: 4.5–22.5 kg	Ideal for electrical fires and flammable liquids. Leaves no residue. Rapid cooling effect.
Foam-Based	A, B	Foam	Portable: 3–9 L; Wheeled: 50–135 L	Forms a blanket over flammable liquids. Suitable for wood, paper, and petrol fires. Alcohol-resistant variants available.
Watermist / Foammist	A, F	Watermist / Foam Mist	Portable: 2–9 L; Wheeled: 20–250 L	Uses fine mist to cool flames, safe for kitchens and electrical equipment. Environment-friendly.
Wet Chemical	A, F	Wet Chemical (bio-degradable)	Portable: 2–9 L	Specifically for cooking oil and fat fires. Prevents re-ignition and safe for kitchens.
Metal Fire (Class D)	D	SPM-TEC / SPM-PYRO Powder	4–9 kg	For fires involving alkali and heavy metals like magnesium, sodium, titanium. High heat resistance up to 5000°C.
Clean Agent (HFC236fa)	A, B, C	HFC236fa Gas	2–9 kg	Zero-damage, residue-free agent for electrical equipment and sensitive areas.
Specialty (B Plus Powder)	B, C	High-power powder	2–9 kg	Enhanced coverage for petrol pumps, petrochemical units. Splits powder into four upon activation for wider reach.
Home & Car Designer / Classic Range	A, B, C	MAP 50, MAP 90, HCFC 123	500 g, 1 kg	Compact and aesthetic design, suitable for homes and vehicles. Easy to handle and portable.
Lithium Battery Fire Extinguisher	ESF / Electrical, Lithium-ion fires	MAP 90 or Clean Agents	Portable: 1–9 kg	Designed for lithium battery fires, electronics, and sensitive equipment. Quick deployment, residue-free options, safe for high-tech environments.

FIRE ALARM AND SMOKE DETECTOR SYSTEM

TYPES OF FIRE DETECTION SYSTEMS	DETECTION METHOD	TYPICAL USE	FEATURES
Conventional Fire Alarm System	Divides the building into zones; detectors identify the zone of fire	Small to medium facilities like warehouses, offices, schools	Cost-effective, easy installation, zone-based identification
Addressable Fire Alarm System	Each device has a unique address for pinpoint detection	Large and complex sites (factories, plants, malls, hospitals)	Precise location identification, programmable logic, network integration
Wireless Fire Alarm System	Communicates via radio frequency	Heritage buildings, temporary setups	Quick installation, no wiring, easy expansion
Aspiration (VESDA) System	Continuously samples air through pipes	Data centres, clean rooms, server areas	Ultra-early smoke detection, high sensitivity, minimal false alarms

TYPES OF FIRE DETECTORS	DETECTION BASIS	APPLICATIONS	KEY FEATURES
Ionization Smoke Detector	Detects microscopic smoke particles	Fast-flaming fires, offices, hotels	High sensitivity, compact, widely used
Photoelectric Smoke Detector	Detects larger smoke particles via light scattering	Smouldering fires (paper, cloth)	Fewer false alarms, ideal for residential/commercial use
Heat Detector	Detects temperature rise or fixed threshold	Kitchens, boiler rooms, workshops	Heat rate-of-rise or fixed temperature, durable design
Multi-Sensor Detector	Combines heat and smoke sensing	High-risk zones, factories	Smart detection, minimizes false triggers
Flame Detector (UV/IR)	Detects ultraviolet or infrared radiation from flames	Fuel storage, chemical plants	Fast response, suitable for outdoor and hazardous zones
Gas Detector	Detects flammable or toxic gases	Refineries, manufacturing plants	Catalytic or infrared sensor types, often integrated with alarms

COMPLIANCE STANDARDS (INDIA)	
IS 2189: 2008	Fire Detection and Alarm System
NFPA 72	National Fire Alarm and Signalling Code
NBC (National Building Code of India, 2016)	Fire protection and alarm system guidelines
BIS / CE / UL	Approvals recommended for equipment reliability

INTEGRATED SOLUTIONS AVAILABLE THROUGH MM SAFETY
• Design, supply, and installation of fire alarm and smoke detection systems
• Site assessment and zone mapping as per NBC & IS standards
• Integration with sprinkler and suppression systems
• Annual maintenance contracts (AMC) and training support

ELECTRICAL
SAFETY

ELECTRICAL SAFETY EQUIPMENT

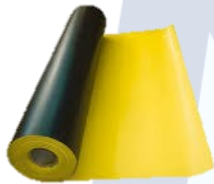

ARC FLASH SUIT

ARC FLASH SUIT SELECTION GUIDE

ARC RATING (CAL/CM ²)	PROTECTION LEVEL	TYPICAL USE / APPLICATION
4 – 8 CAL/cm ²	Low Risk	Control panels, LV switchboards, routine inspections
8 – 12 CAL/cm ²	Moderate Risk	MCC panels, distribution boards, maintenance work
12 – 25 CAL/cm ²	High Risk	415V–11kV switchgear operation, substation work
25 – 40 CAL/cm ²	Very High Risk	Power plants, industrial switchyards, HV maintenance
> 40 CAL/cm ² (up to 100 CAL/cm ²)	Extreme Risk	Live-line operations, high-energy faults, HV substations

INSULATED MAT / ELECTRICAL SAFETY MAT

INSULATED MAT / ELECTRICAL SAFETY MAT SELECTION GUIDE

CLASS / TYPE	WORKING VOLTAGE (AC RMS)	THICKNESS (MM)	TYPICAL APPLICATION AREA
Class A / Type 0	Up to 1.1 kV	2.0 – 2.5 mm	Control panels, testing labs, small equipment rooms
Class B / Type 1	Up to 3.3 kV	2.5 – 3.0 mm	LT & HT panels, substations, DG sets
Class C / Type 2	Up to 11 kV	3.0 – 3.5 mm	11kV / 33kV switchgear rooms, transformer bays
Class D / Type 3	Up to 33 kV	3.5 – 4.5 mm	EHV substations, high-voltage maintenance zones

INSULATING RUBBER GLOVES

INSULATING RUBBER GLOVES SELECTION GUIDE

CLASS	WORKING VOLTAGE (AC RMS)	TEST VOLTAGE (AC)	TYPICAL APPLICATIONS
Class 00	Up to 500 V	2,500 V	Control panels, low-voltage testing
Class 0	Up to 1,000 V	5,000 V	Electricians, switchboards, LV panels
Class 1	Up to 7,500 V	10,000 V	Industrial maintenance, substations
Class 2	Up to 17,000 V	20,000 V	Medium-voltage operations, HT panels
Class 3	Up to 26,500 V	30,000 V	High-voltage substations, utilities
Class 4	Up to 36,000 V	40,000 V	EHV substations, transmission lines
