

PDF Report Maker

Routine work often requires documentation for compliance with quality or safety standards like ISO 9001 or ISO 45001. Messaging apps aren't built for long-term archiving, and manually compiling photos into PDFs is time-consuming. PDF Report Maker simplifies this process—capture, organize, and export to PDF in minutes.

App Title: PDF Report Maker

Step 1: Select Your Report Template

- Launch the PDF Report Maker app. From the Home screen, browse the available templates designed for various needs.
- Options include A4 Portrait (2x2, 2x3, 4x6 grids) and A4 Landscape (3x2, 4x2, 5x3 grids). Each template predefines an organized grid for your photos and text.
- If you're unsure, tap "View Sample PDFs" to see examples. Choose the template that best suits your report.

Step 2: Add Your Report Details

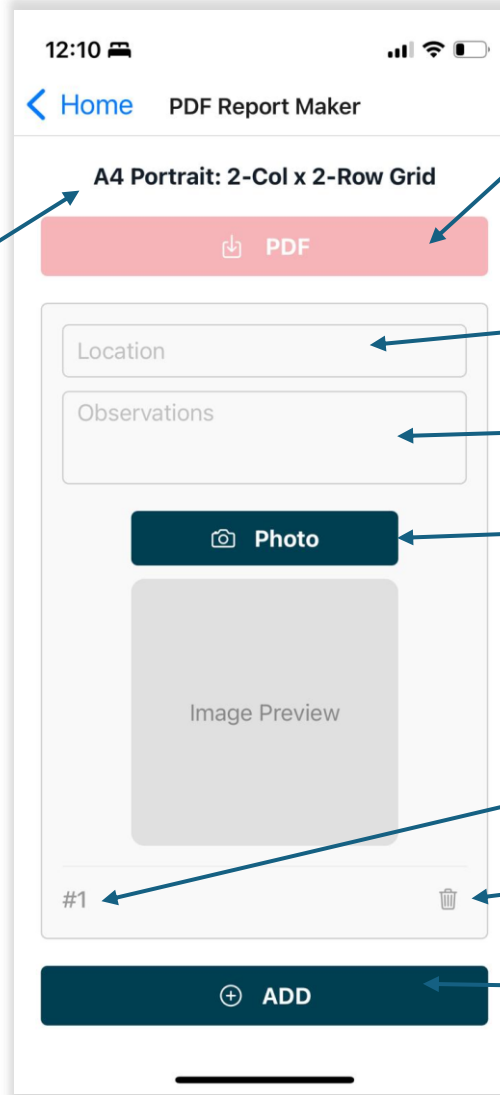

- Once you've selected a template, you'll be taken to the input screen. Here, you can create individual entries or 'cards' for your report. For each card, input details like "Location" and "Observations" into the text fields. Tap the "Photo" button to add an image from your library or capture a new one; a preview will be displayed.
- You can add more cards using the "ADD" button or remove a card using its delete icon.
- Please see next page for illustration.

Step 3: Initiate PDF Generation

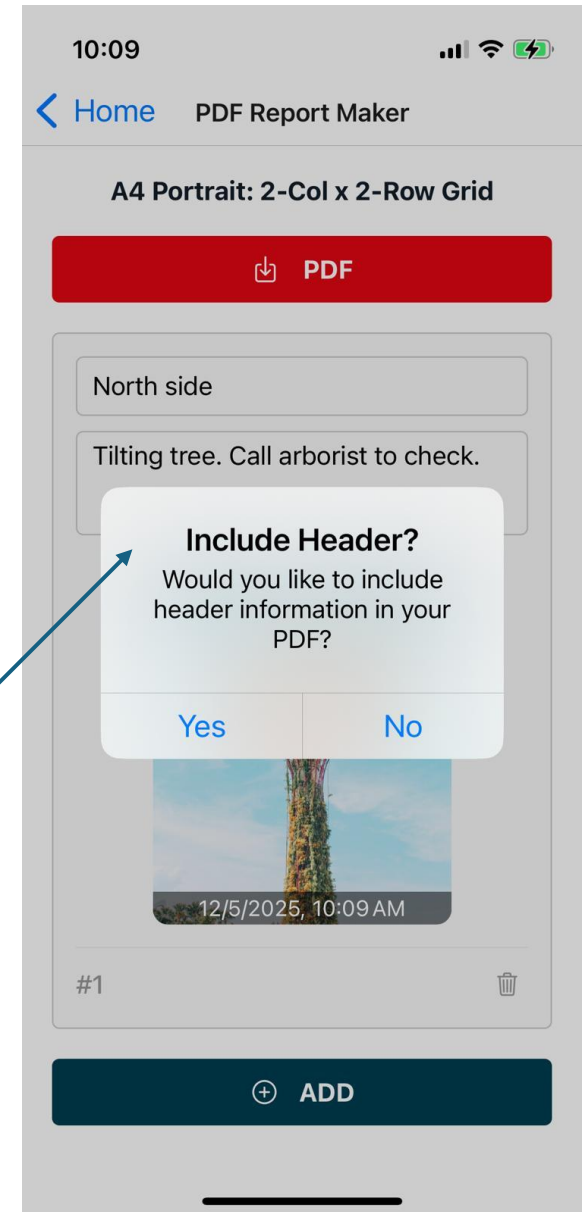

- After you've added your first piece of information, the "PDF" button at the top of the screen will become active. Tap this button. An alert will then pop up asking, "Include Header? Would you like to include header information in your PDF?". You can choose "Yes" to add custom headers or "No" for a quick generation with default settings.
- Please see next page for illustration.

Step 3: Initiate PDF Generation

The PDF download is enabled and when pressed will show an alert that will ask if you want to have a customized Header.

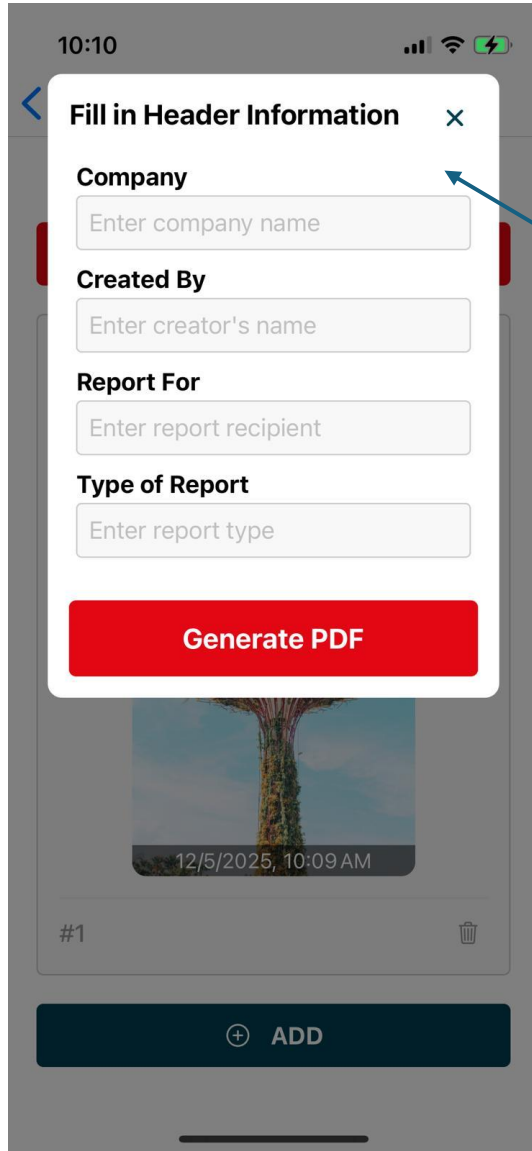

Step 4: Customize Your Report with Header Information

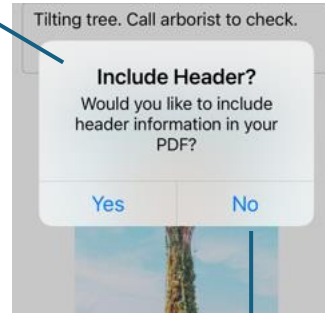

- If you selected "Yes" to include a header, a "Fill in Header Information" form will appear. Enter relevant details such as "Company," "Created By," "Report For," and "Type of Report." Once you've completed these fields, tap the "Generate PDF" button.
- Please see next page for illustration.

Step 4: Customize Your Report with Header Information

If you press **Yes**, a modal will pop up for you to "Fill in Header Information"

If you press **No**, it will generate a PDF right away that is shareable but will only have a default title and a footer.

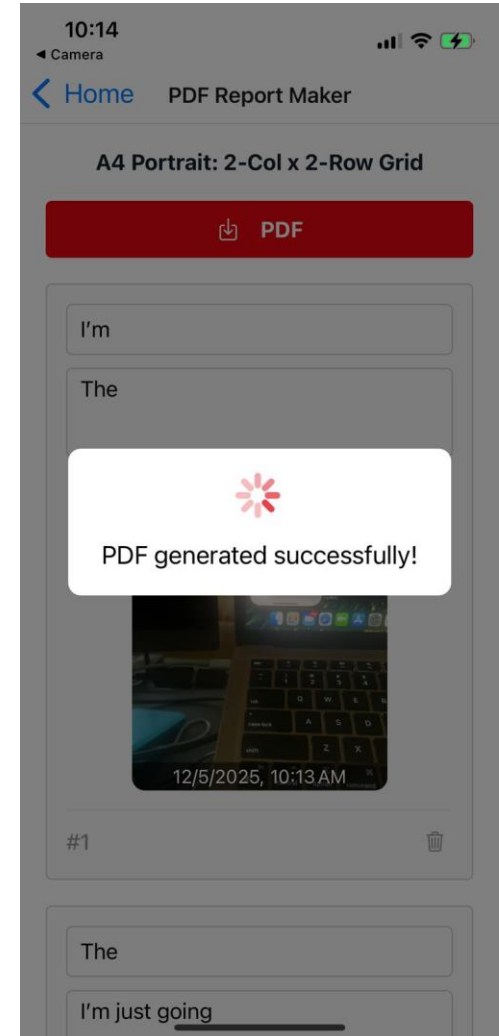

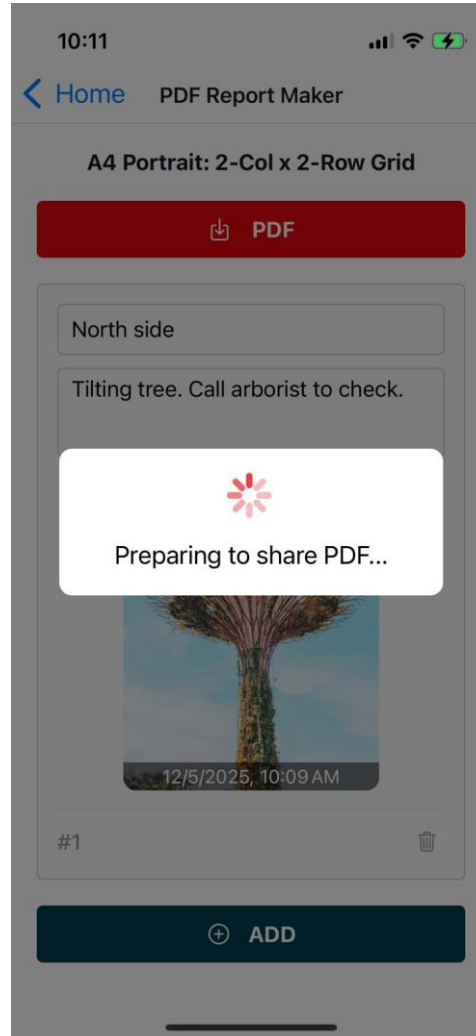

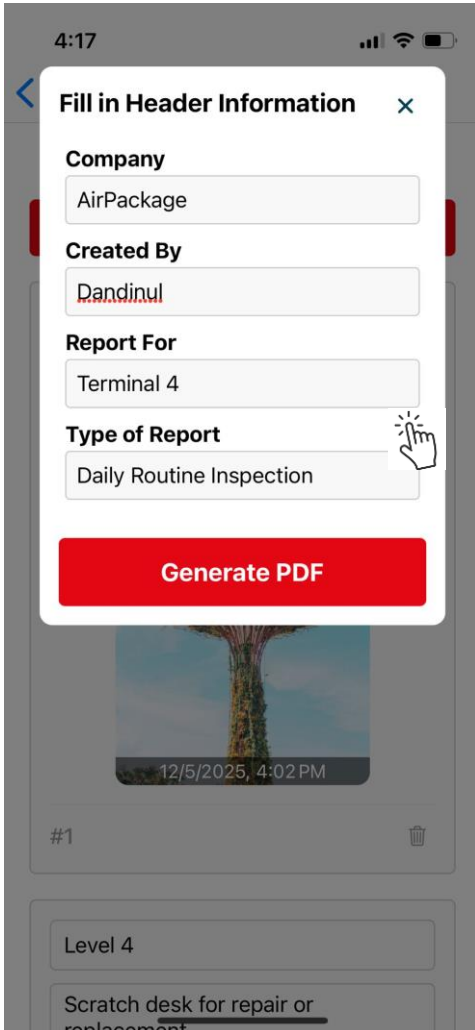

Step 5: Finalize Generation

- After tapping "Generate PDF" (or choosing "No" at the header prompt), the app will process your information. You'll see a brief "Preparing to share PDF..." message, quickly followed by a confirmation: "PDF generated successfully!"
- Please see next page for illustration.

Step 5: Finalize Generation

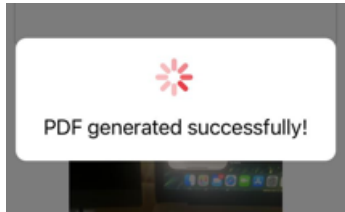

Step 6: Share Your PDF Report

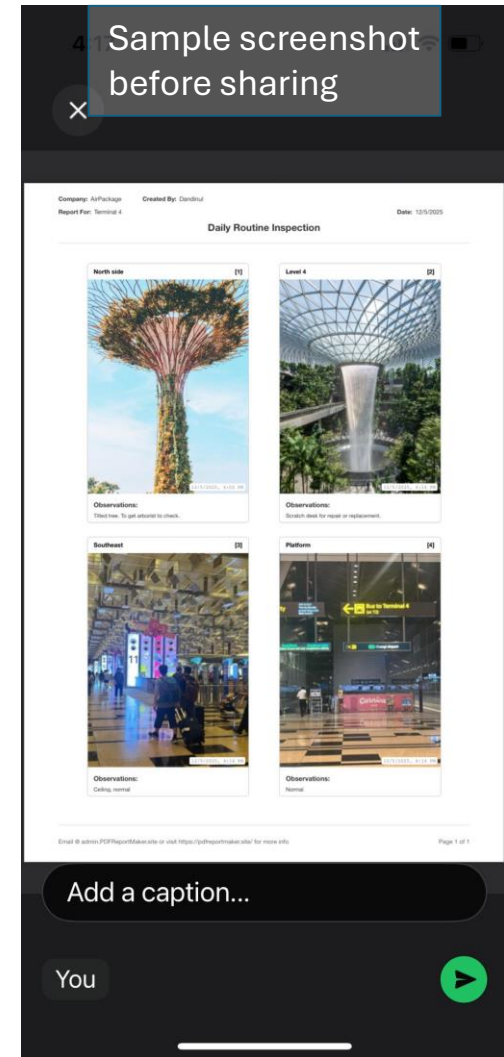

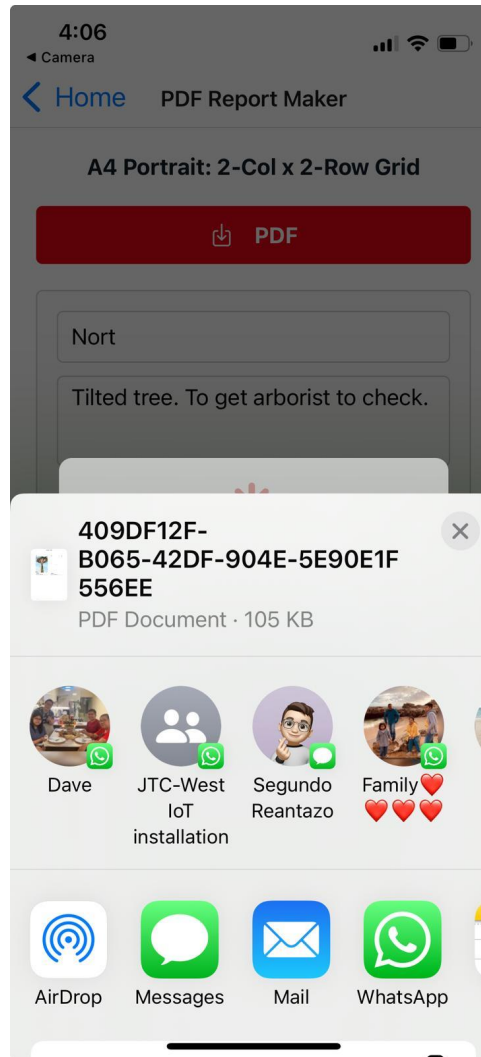

- With your PDF successfully created, the standard iOS share sheet will automatically appear. Your newly generated PDF document (showing its name and file size) is now ready. You can select your preferred method to share it, such as AirDrop, Messages, Mail, WhatsApp, or save it to Files or another app.
- Please see next page for illustration.

Step 6: Share Your PDF Report

When PDF generation completes, the success message briefly appears, then transitions to the sharing screen. This displays your newly created document ready to share through various apps. The rightmost image shows a sample single-page report with custom headers and the standard footer.

That's all.

Thank you!
