AI-Human Playbook

"50+ Prompts, Frameworks & Swipe Files to Master AI-Human Collaboration in 2025"

Part 1: The Hybrid Framework

1. The 70/30 Rule:

- **70% AI**: Research, outlines, meta descriptions, repurposing.
- **30% Human**: Stories, opinions, disclosures, engagement.

2. Affiliate-Specific Workflow:

1. **AI**: Draft product comparisons (*"Top 5 VPNs for travelers"*).
2. **Human**: Add speed tests from your laptop + airport WiFi horror stories.
3. **AI**: Optimize for SEO (SurferSEO).
4. **Human**: Reply to comments (*"Yes, I used this VPN in Bali—here's my screenshot!"*).

Visual: A flowchart titled *"From AI Draft to Human Masterpiece in 4 Steps."*

Part 2: 50+ Hybrid Prompts

1. AI Prompts (Tools: DeepSeek, ChatGPT):

- *"Write a 10-point blog outline for [product] targeting [audience]."*
- *"Generate 20 long-tail keywords around 'budget gaming laptops.'"*

- *"Repurpose this blog into 5 TikTok scripts focusing on pain points."*

2. Human Prompts:

- *"Add a personal story about a time [product] failed/saved you."*
- *"Include 1 counter-opinion (e.g., 'This tool sucks for [use case]')."*
- *"Answer this Reddit user's question in the conclusion: [insert question]."*

3. Ethical Guardrails:

- *"Write a 2-sentence disclaimer that's transparent but non-salesy."*
- *"Add 3 trust-building elements (photos, polls, data sources)."*

Part 3: Monetization Hacks

1. Affiliate A/B Testing:

- **CTA Tests**: *"Get Deal"* vs. *"My Discount Code"* (Greg's winner: **4.7% CTR**).
- **Placement**: Mid-content CTAs earn 2x more than end-of-post.

2. Hybrid Upsells:

- **Free AI Content**: Blog posts.
- **Paid Human Content**: Video tutorials, 1:1 coaching.

3. Social Proof:

- *"I used this AI tool, but here's my raw footage proving it works."* (Embed unedited testing videos).

Part 4: Swipe Files & Templates

1. Blog Template:

```markdown
Copy
```

```
# [AI-Generated Title]
## Why I Tested [Product]
- [Human story: Frustration/breakthrough]
## AI-Powered Research
- [AI-generated comparison table]
## My Raw Results
- [Photos, screenshots, fail moments]
## Ethical Disclosure
- [Template: "AI helped, but I tested everything myself"]
```

2. Email Swipe File:

```
Copy
Subject: "The AI tool that almost ruined my [niche] journey"
Body:
- AI-generated stats on [problem].
- Human story: "Here's how I fixed it (and my embarrassing first attempt)."
- CTA: "Grab my solution [link]."
```

3. Reddit/Comment Replies:

```
Copy
"Great question! I used to think [common myth] too, but testing [product] showed
me [result]. Here's my proof: [link]."
```

Part 5: Troubleshooting Guide

1. Fixing AI Overload:

- **Symptom**: High bounce rates.
- **Fix**: Add 2 "hot takes" and 1 video.

2. Fixing Human Overkill:

- **Symptom**: Burnout from manual tasks.

- **Fix**: Automate Pinterest/Google Discover posts with AI.

3. Google Penalty Recovery:

- **Step 1**: Delete 100% AI posts.
- **Step 2**: Republish with human stories + disclosures.
- **Step 3**: Request re-indexing via Search Console.
