INTERIOR DESIGN | ARCHITECTURE | DRAFTING ASSISTANT

I am an interior design and architecture student who excels in space planning, selecting materials and writing specifications, and creating construction documents. My organizational skills and attention to detail serve my goal of designing spaces that are resilient and intentional. I believe that design should aim to nurture and protect users' physical and emotional wellbeing through sustainable, functional, timeless and purposeful aesthetics.

EDUCATION

Front Range Community College – Fort Collins, Colorado **January 2023 – August 2025**
Associate of Applied Science – Architectural and Building Science GPA 3.9
Honors: Magna Cum Laude

Front Range Community College – Fort Collins, Colorado **August 2022 – May 2025**

Honors: Magna Cum Laude

EXPERIENCE

Kitchen & Bath Design Center (Fort Collins) - Intern February 2026 – Present

- Develop 2D and 3D drawings in AutoSketch and Chief Architect, specify and price cabinetry, select fixtures and materials, calculate project costs, and assist in creating client presentations. Collaborate with other designers throughout all stages of residential remodel projects.

Pro Lawn Landscaping, LLC. (Fort Collins) – Lawncare Technician March 2024 – August 2024

- Assisted with landscaping and grounds maintenance, including pruning, mulching, planting, tree and shrub removal, hardscaping, and lawn care. Contributed to the design and implementation of residential projects including stairs, gardens, and front yard redesigns.

Front Range Internet, Inc. (Fort Collins) – Office Assistant January 2023 – July 2023

- Performed a variety of tasks as an office assistant including file management, QuickBooks and Excel data entries, recording inventory, moving furniture and equipment, and general office maintenance.

ACADEMIC PROJECTS

Habitat for Humanity Residence

January 2024 – May 2024

- Developed a comprehensive construction document set including floor plans, roof plans, exterior elevations, building sections, details, and window and door schedules for a single-story house featuring three bedrooms, four bathrooms, a basement, and a two-car garage. The site and project guidelines were provided by Habitat for Humanity in relation to their latest development project.
 - Technologies Used: Revit

Mixed-Use Tenant Finish

January 2024 – May 2025

- Completed two separate tenant finish projects based on Morning Star Senior Living in Fort Collins, Co. Designed a 3,155 sqft. retail and office space and an 1,800 sqft. high rise apartment unit featuring two bedrooms and three bathrooms. Both projects are completely furnished and ADA compliant. Created presentations and construction document sets for both.
 - Technologies Used: Revit, Enscape, and Canva

Behavioral Health Clinic

August 2024 – May 2025

- Created a presentation and construction document set for the design of the interior of an 8,800 sqft. behavioral health treatment facility and 3,600 sqft. courtyard based on IIDA guidelines. The facility features patient rooms, exam rooms, nurse stations, dining spaces, and is fully furnished and ADA compliant.
 - Technologies Used: Revit, Enscape, and Canva
