General description

HT 30 is an associative thickener designed to improve viscosity and haze resistance in coatings and paint formulations. It provides enhanced film clarity, anti-sagging properties, and better application performance in water-based systems.

Properties

| Property | Value |
|---|-----------|
| Name | HT 30 |
| Solids % @ 105°C | 30 ± 0.5% |
| Solids Content @ 120°C for 2 hrs. | 48 – 50% |
| Viscosity @ 30°C (BF-RVT, SP-2, 20 rpm) | 3 – 4 cP |
| pH | 3.0 – 4.0 |

Storage and handling:

- Store in a cool, dry, and well-ventilated place.
- Keep containers tightly closed when not in use.
- Avoid exposure to freezing temperatures and direct sunlight.
- Use proper personal protective equipment (PPE) during handling.
- Recommended shelf life: 12 months under recommended storage conditions.
