# BACKGROUND OF GDO

Green Dream Organization (GDO) Founded from A group of active youth combined with a dream of a green Sudan, a clean and healthy environment and a community that lives in peace.

Green Dream is Voluntary, non-governmental, non-profit organization. It was established in 2018 and registered officially in Humanitarian Aid Commission (HAC in 2019).

Since its foundation, GDO has been working effectively among the communities towards spreading its message of the importance of agriculture and its role in developing the national economy, improving the per capita income, reaching the stage of self-sufficiency, and achieving its vision of Sudan Green, increase access to basic services and providing assets of livelihoods. GDO programs emphasize the role of youth, children and women in Sudan.

GDO programs emphasize the role of youth, children and women in Sudan. It works in sectors of Environment, FSL, Education, Health and WASH. GDO targeted beneficiaries from diverse ethnic, cultural and religious backgrounds. Most of GDO members are Youth. The staff members of GDO have received intensive training on organizational management in the framework of NGOs, Project Cycle Management (PCM) and technical issues of GDO field work.

## ■ VISION STATEMENT

Sudan Green, clean and healthy environment where a society enjoy living in peace.

## ■ MISSION STATEMENT

To strengthening and empowering the community, especially the vulnerable, to enjoy a green Sudan, a clean and healthy environment, and a society living in peace in addition to enhanced Environment, FSL, Education, Protection, Health and nutrition and WASH.

For vulnerable population Through multidimensional programs that were planned to support them, by focusing on main sectors.

## ■ GDO VALUES

## ■ GDO OBJECTIVES

- 1- To encourage and support home farming & school garden.
- 2- To improvement of water sources, sanitation and hygiene especially in schools & rural areas.
- 3- To improvement of the education environment and support local efforts to upgrade formal and non-formal education.
- 4- To empowerment of women and improve their livelihoods especially in communities affected by conflict.
- 5- To Supporting delivery of primary health care services and maternal & child health services.
- 6- To reduce acute food insecurity and malnutrition for children under five and women of reproductive age.

## ■ GDO MEANS AND METHODS

- 1- Humanitarian aid, recovery and development projects.
- 2- Training Courses and forums.
- 3- Campaigns and advocacy.
- 4- Coordination and networking.
- 5- Research and Social Studies.
- 6- Arts, music, drama and media.

## LEADERSHIP/MANAGEMENT

GDO is applying a unique set of leadership good practices guides and values but there are many other guiding principles to be incorporated in the organization working sphere to create more dynamic communal mechanisms for best decision-making options. GDO is managed through :

- ◆ General Assembly.
- ◆ Board of Director.
- ◆ Executive Management (Staff).

The organization's General Assembly has a well-defined role in the constitution. Despite the Board of Director, members have roles and duties defined in the constitution, but some management duties can be tackled indeed by available active committed members. Consultancy Council has an advisory role to oversee the overall progress made and provides directional guidance and advice to the Board of Director members the consultancy council is providing invaluable communication channel to GDO to reach advocacy and fund-raising objectives.

GDO has an installed administrative and financial system which enables the organization to smoothly run its sectors and projects. During the organization lifetime minor changes have been made to the system primarily because ongoing programs did not allow dramatic changes and because in the very most of all times the system was functioning as it was expected.

Due to the expected programmatic horizontal and vertical expansion GDO general assembly has decided to apply administrative development plan to incorporate lessons learnt during the previous period and introduce new flexible advanced system enabling experience sharing and providing the best possible support to the sectors.

## COMPREHENSIVE EXPLANATION OF MINE ACTION AWARENESS

### TYPE OF ACTIVITIES

OVERVIEW: THE MINE AWARENESS SESSIONS CONDUCTED UTILIZED THEATER ARTS AS A MEDIUM TO EDUCATE AND RAISE AWARENESS ABOUT THE DANGERS POSED BY MINES AND UNEXPLODED ORDNANCE (UXO). THIS INNOVATIVE APPROACH NOT ONLY ENGAGES THE AUDIENCE IN A CREATIVE FORMAT BUT ALSO EFFECTIVELY DISSEMINATES CRITICAL SAFETY INFORMATION TO DIVERSE AGE GROUPS, PARTICULARLY CHILDREN. THE SESSIONS ENCOMPASSED ALL COMMUNITIES WITHIN KOSTI AND RABAK, WITH A SPECIAL FOCUS ON VULNERABLE POPULATIONS RETURNING TO CONFLICT-AFFECTED AREAS.

#### OBJECTIVES:

- **Raise Awareness:** The primary objective was to inform participants about the dangers associated with mines and explosives, focusing particularly on how these threats can affect everyday life.
- **Engage Children:** Given the heightened sensitivity of children to foreign objects, the program specifically aimed to educate them about the risks and encourage cautious behaviors.
- **Reporting Mechanism:** The sessions included information on how to identify and report mine-related findings, emphasizing the importance of community vigilance and the proper protocols for dealing with suspicious objects.

Target Audience: The sessions were tailored to engage various demographics within the community, including:

- **Children:** Representing the most vulnerable group, children were taught to recognize and respond appropriately to potential threats.
- **Women and Men:** The program also aimed to involve women and men, ensuring comprehensive community participation and support.
- **Returnees:** Special attention was given to individuals returning to areas previously affected by conflict, as they are particularly prone to hazards posed by mines and explosives.

#### POSITIVE OUTCOMES:

- **ENHANCED KNOWLEDGE:** - PARTICIPANTS GAINED CRITICAL INFORMATION ABOUT THE DANGERS OF MINES AND THE NECESSARY PRECAUTIONS TO TAKE, FOSTERING A SAFER ENVIRONMENT WITHIN THEIR COMMUNITIES.
- **EMPOWERMENT OF VULNERABLE GROUPS:** - BY FOCUSING ON CHILDREN AND RETURNEES, THE INITIATIVE EMPOWERED THESE GROUPS WITH KNOWLEDGE AND TOOLS TO NAVIGATE THEIR SURROUNDINGS SAFELY.
- **COMMUNITY COHESION:** - THE INTERACTIVE NATURE OF THEATER ARTS PROMOTED COMMUNITY ENGAGEMENT, BUILDING A COLLECTIVE SENSE OF RESPONSIBILITY FOR SAFETY AND AWARENESS.
- **REPORTING AWARENESS:** - BY EDUCATING THE PARTICIPANTS ON HOW TO REPORT SUSPICIOUS OBJECTS, THE PROGRAM ESTABLISHED A PROACTIVE APPROACH THAT COULD LEAD TO TIMELY INTERVENTIONS AND ENHANCED COMMUNITY SAFETY.

### LOCATIONS

White\_Nile\_State

The mine awareness action utilizing theater arts proved to be an effective strategy in increasing community awareness and fostering a culture of safety. The results underscore the importance of targeted educational initiatives, particularly among vulnerable populations, in mitigating the risks associated with mines and unexploded ordnance. Continued efforts in this area will be crucial for maintaining safety and preventing accidents, especially as communities recover from conflict. An ongoing commitment to public education and awareness can significantly enhance the resilience of affected communities.

# EDUCATION

## TARGET GROUP

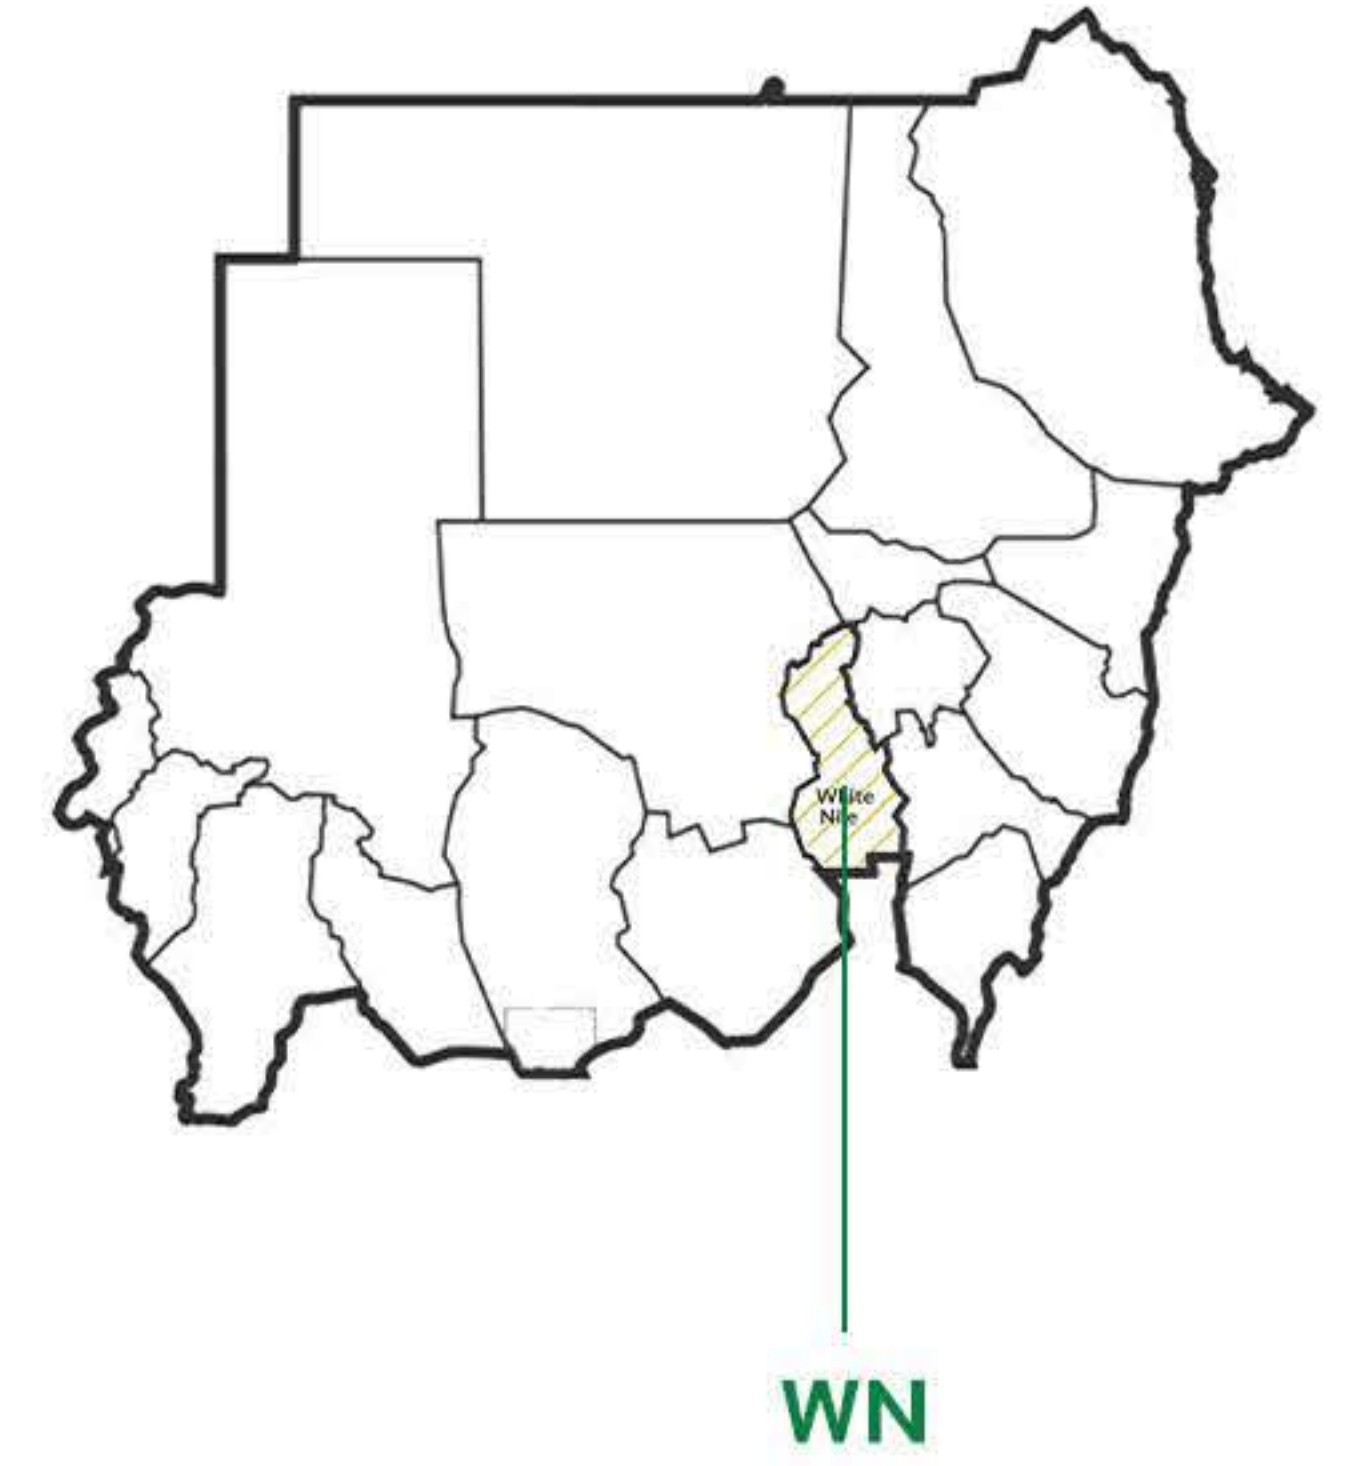

SCHOOL AGED CHILDREN, TEACHERS, PARENT, TEACHER, ASSOCIATIONS (PTAS) AND ACTORS ON EDUCATION SECTOR.

# EDUCATION

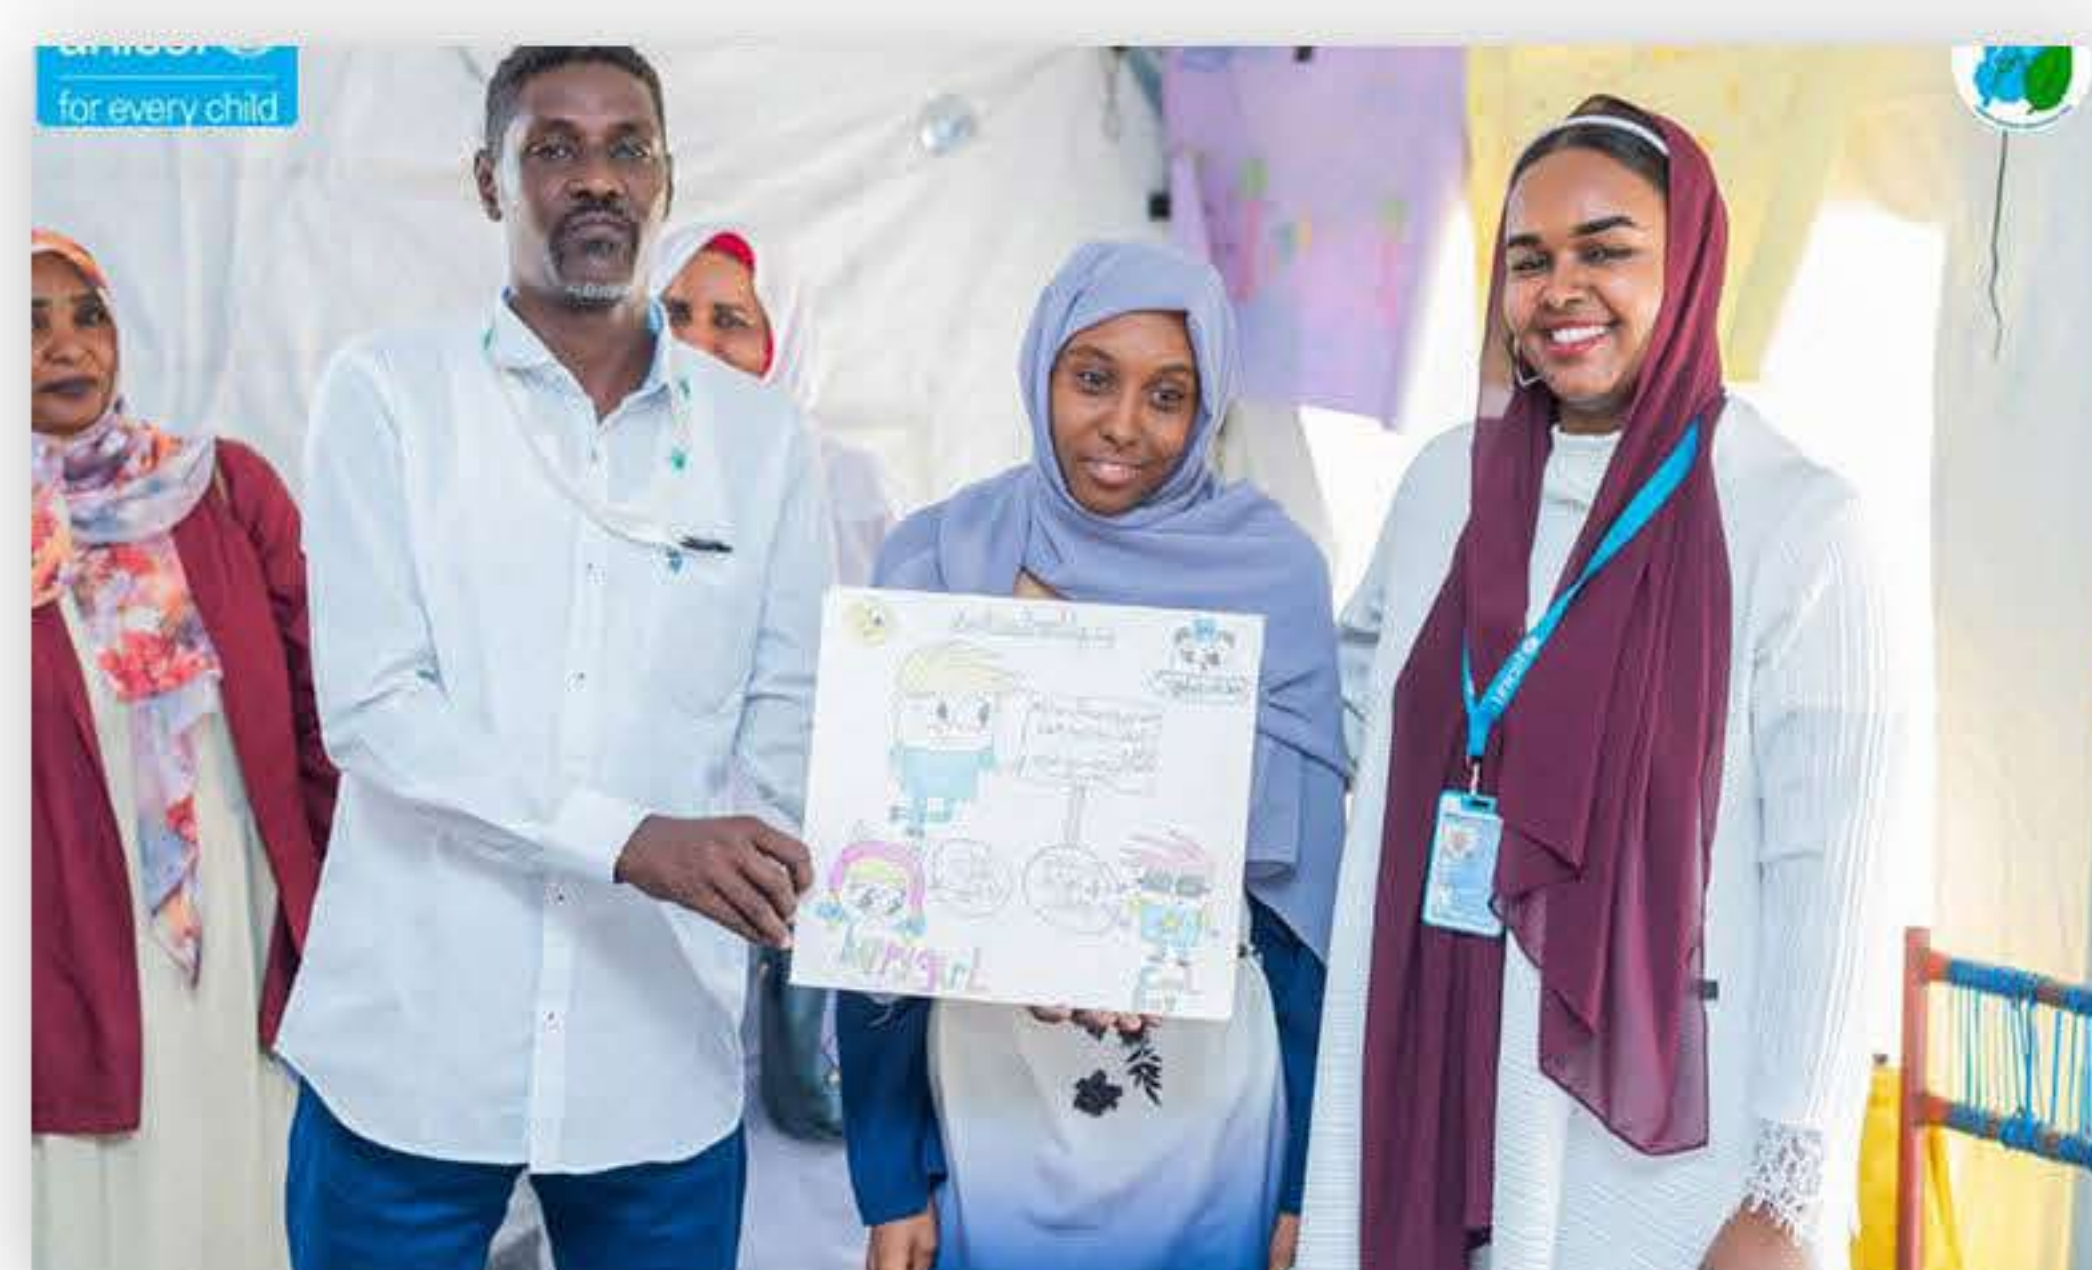

## LOCATIONS

White Nile State
