Introduction

Introduction

Story to Comic

Mamastoria is an AI-powered platform that helps mothers, teachers, and creators transform their life stories into beautiful digital comics.

Stories Create Values

Because every story carries a value — Mamastoria turns them into lasting legacies and creative income

02

The Problem

The Problem Statement

“Local cultures and wisdom are at risk of being forgotten amidst modern digital distractions.”

Digital Noise and Disconnection

Children today grow up surrounded by endless digital noise — yet further away from their parents' voices and family stories.

Lack of Tools and Time

Mothers and teachers hold beautiful, meaningful stories — but have no simple, creative way to preserve and share them.

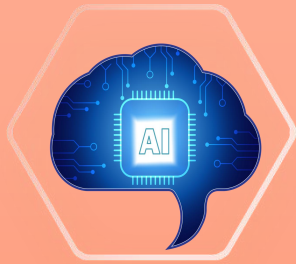

03

The Solution: Mamastoria Platform

From Stories to Comics — Powered by AI

AI Narrative

Mamastoria transforms voice or text stories into engaging AI-generated comics — powered by Gemini and Vertex AI.

Global Reach

Stories are multilingual, customizable, and publishable globally — enabling creators anywhere to share values across cultures.

Story Marketplace

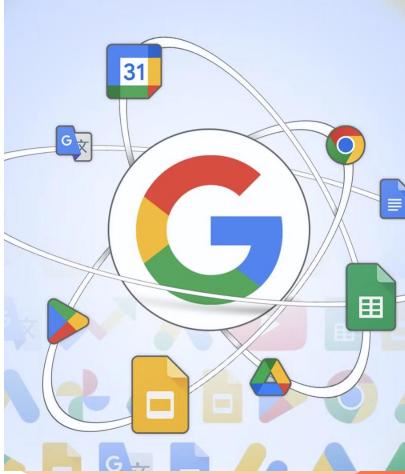

Every story can be monetized as digital comics — allowing mothers, teachers, and creators to earn while inspiring others

04

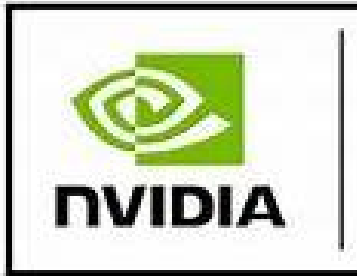

Why Google Cloud & NVIDIA

Strategic AI Partnership: Google Cloud × NVIDIA Inception

Google Cloud (Scale & Global Reach)

1. Secure & scalable AI infrastructure (Vertex AI + Firebase).
2. Gemini multimodal for text, image & translation.
3. Global network for data, users, and educational integration.
4. Ecosystem support via Google for Startups & Ecosystem Partner Tier.

NVIDIA Inception (Performance & Intelligence)

1. GPU acceleration for AI model training and image generation.
2. NVIDIA CUDA & TensorRT optimization for fast AI inference.
3. Developer ecosystem through NVIDIA Inception Startup Program.
4. Strategic synergy with Google Cloud AI compute layer.

05

Vision & Collaboration

Shared Vision: Empowering Mothers, Inspiring Generation

Empowering Mothers

Helping women and mothers express, preserve, and monetize their stories — turning creativity into independence.

Educational Impact

Inspiring children worldwide through culturally rooted, family-based storytelling.

Global Movement

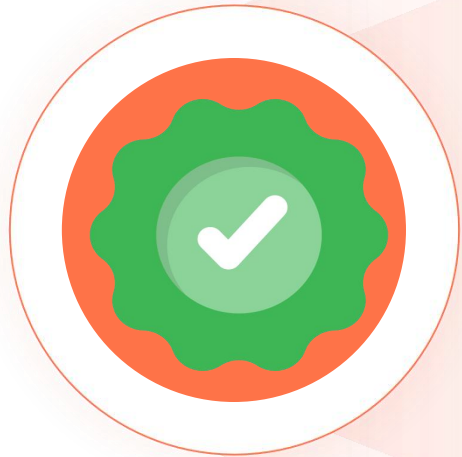

Building an inclusive ecosystem of women creators, educators, and organizations sharing values across borders.

06

Why Mamastoria Will Succeed

Built on Human Emotion and Universal Need

1. Storytelling Is a Universal Human Need

Every human culture, every generation, and every parent uses stories to teach, connect, and inspire. This need will never be replaced by technology.

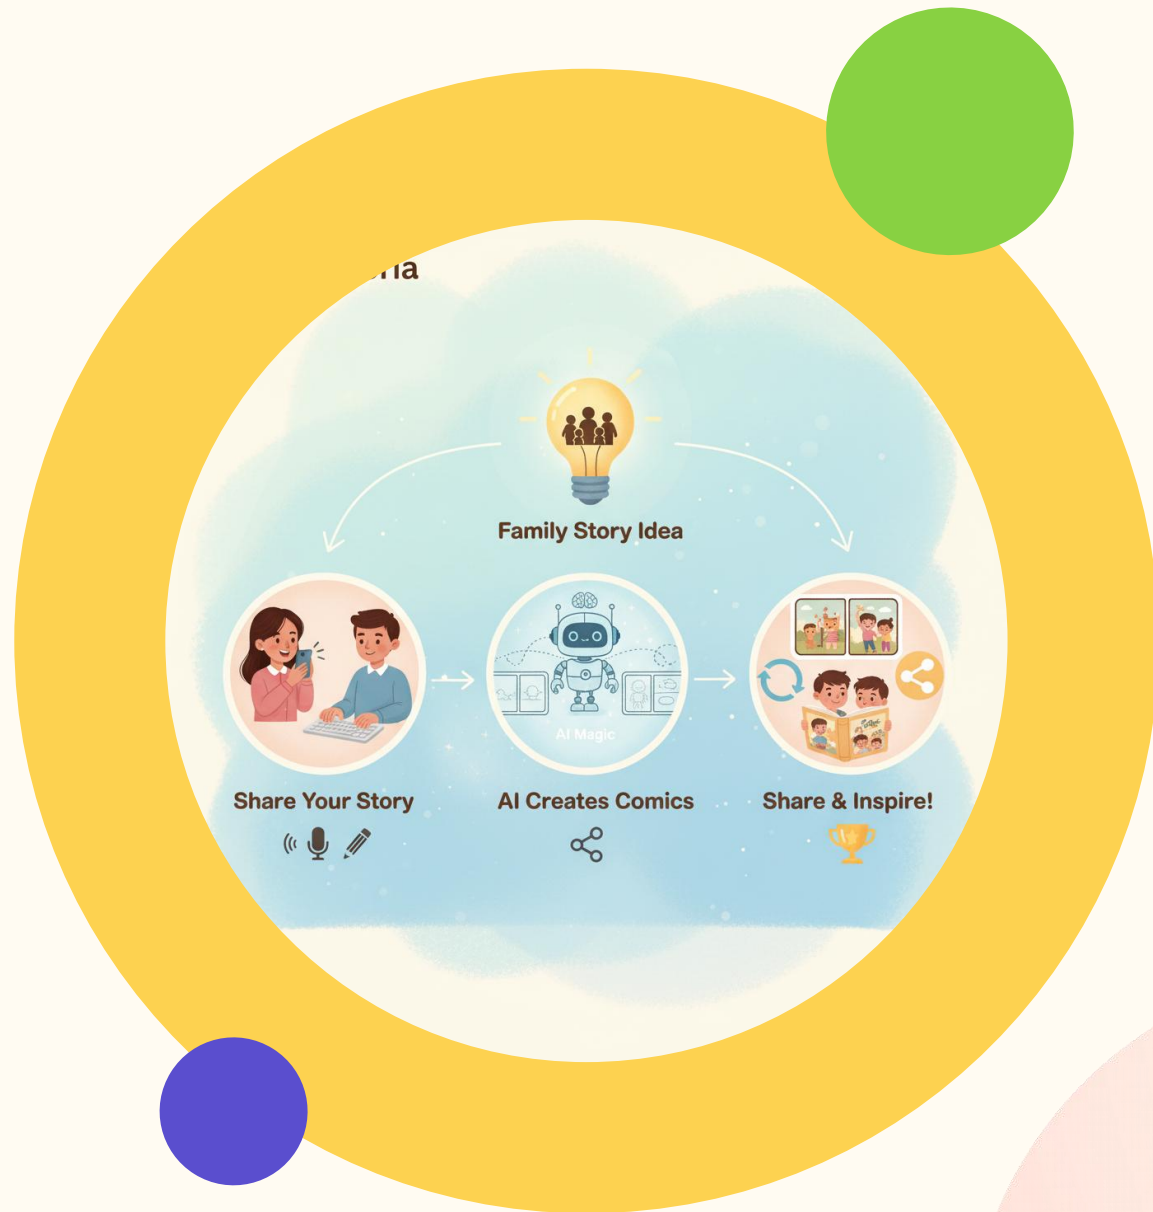

2. Emotional Connection = Retention

Platforms fade, but emotions stay. Mamastoria's users don't just create content — they build identity, memory, and meaning.

3. Digital Legacy Creates Network Effects

Every story published becomes a digital heritage — connecting families, communities, and organizations.

07

**A Movement That
Spreads by Itself**

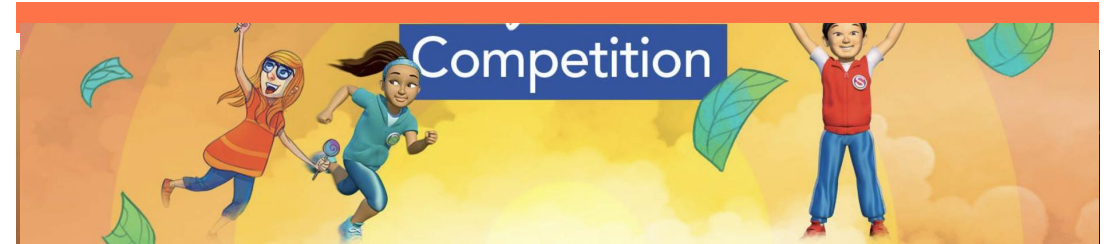

A Movement That Spreads by Itself

🌸 1. Community Ambassadors (Duta Mamastoria)

Every city has local mothers and teachers as storytelling ambassadors.

They promote Mamastoria not as a product, but as a movement of creativity and empowerment. 01

🏠 2. School & Youth Competitions

Teachers guide students to turn local stories into comics through national and global competitions.

Every school project becomes digital content that brings in hundreds of new users. 02

A Movement That Spreads by Itself

3. Women & NGO Networks

Women's organizations and creative NGOs encourage members to share inspiring stories.

Partnerships with government programs (empowerment, creative economy, tourism) amplify the reach.

01

4. Corporate & Brand Collaborations

Companies use Mamastoria for CSR storytelling, cultural campaigns, and emotional brand content.

When brands tell stories through mothers and children, audiences share them naturally.

The Application

The Application – Where AI Meets Human Storytelling

Story Input + AI

Ceritakan Identya

Tulis atau ucapkan ide ceritamu. Mama Stora akan mengubahnya menjadi komik yang seru dan penuh warna.

Contoh: Seorang anak menemukan kucing ajaib di taman

Ringkasan Cerita

Hasil cerita akan tampil disini

Call to Action

Conclusion

Join the Movement

Be part of a global movement where stories become legacies. Together, we can empower mothers, teachers, and creators to turn values into art — and art into impact.

Global Vision

Starting from Indonesia, Mamastoria is built to inspire the world — powered by Google Cloud and NVIDIA. Join us in scaling this impact to millions of families, schools, and communities worldwide.
