

ACCEPTED CONTENT

The following is what is allowable content for the magazine. This is family friendly, so no **nudes, porn, racist or offensive material**. The purpose is to display Fine Art and **hand paintings or final works done by humans** and not computer generated art. Digital art done on a art tablet or iPad **is allowed** however because even though one uses a pen rather than a brush it is still art done by hand and a human. **AI Art however is not allowed** because it is simply a computer database that compiles images and renders them into simulated art through filters. Sculptures and wood carving is permitted, but **Photography and Crafts. Cartoons, 3D art and NFT's** are not what this magazine is looking for. There are other publications and websites that focus on those things. We also prefer finished art rather than sketches.

STYLES

We accept a variety of fine art **styles** such as **Modern Art, Pop Art, Abstract Art, Art Deco, Surrealism, Realism, Impressionism Or Old Masters, Folk Art, Contemporary Art** and others that fit into the Fine Art genre.

SUBJECT MATTER

Besides styles we will accept artists with **similar styles** in each publication if they differ in **subject matter** or classes such as: **landscapes, seascapes, still life, animal art or floral art, etc.**

You should **pick your best work** that displays your style or style range. Try to display **variety** rather than the same looking images! The purpose of "the Art Gallery" is to display a wide range of art to people who appreciate art. Often this is a subjected and varied audience.

We want to promote artists and their art but we **do not sell any art**. We leave that to you. We try to help you do that simply by posting your website, web-store, social media and contact information. We do not list prices, only the titles of each piece and the media of the piece (oil, acrylic, watercolor etc.) We do not guarantee any increase on sales or traffic in websites or social media. We do guarantee exposure in a global market through our subscription base.

Thank you for your interest in "The Art Gallery e-magazine!"
