Luxury Tone Fx.

# The Secret of the Rock Gods

How did Eric Clapton achieve the legendary 'Beano' tone?

How does Brian May reach infinite sustain?

The secret isn't distortion. It's the **Treble Booster.**

## Meet the Lord Master

Not your conventional booster. The vital push your tube amplifier needs to truly come to life.

Recreating the iconic mid-60s Rangemaster circuit with the unmatched harmonic saturation and compression that only germanium can provide.

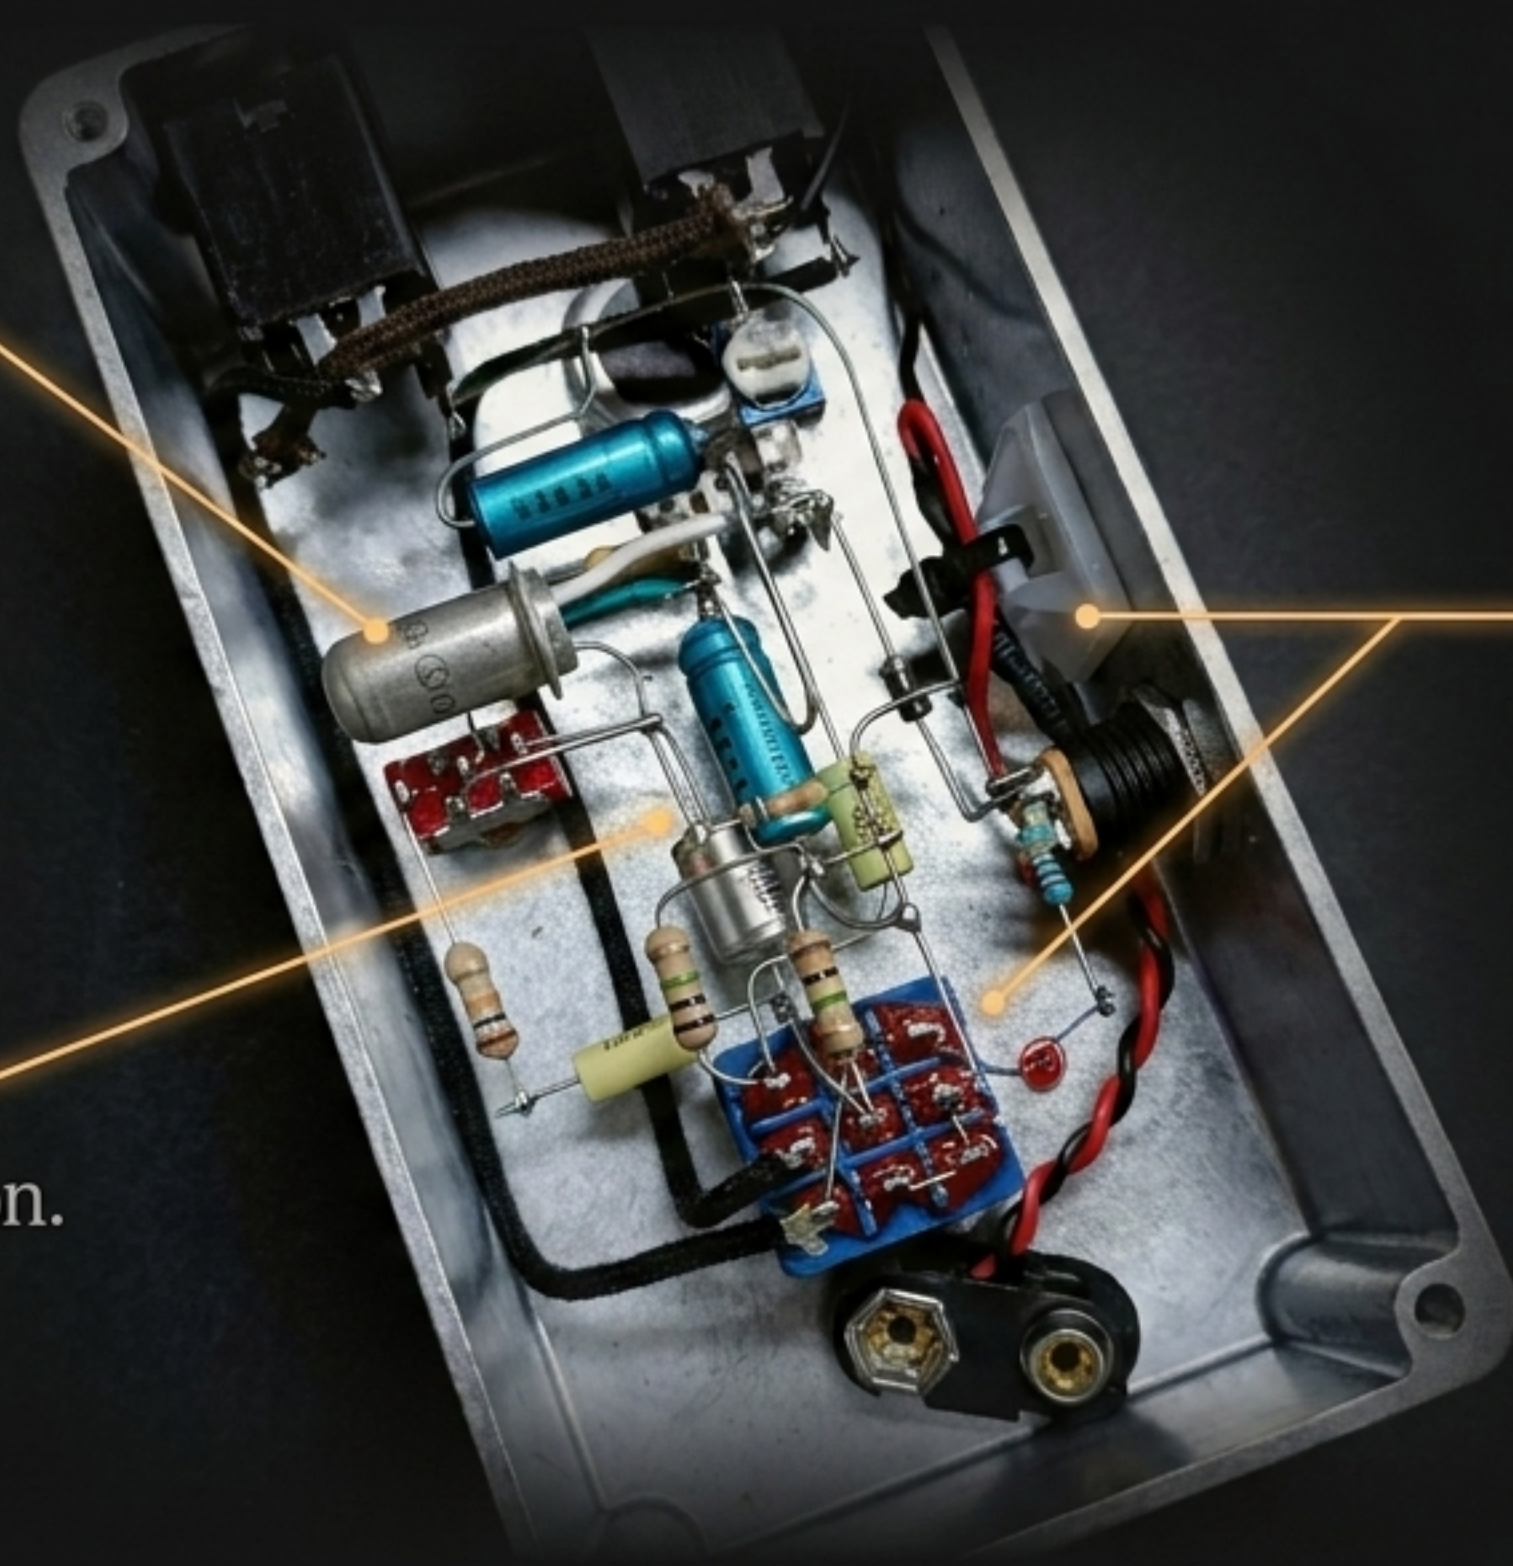

## The Soul:

NOS Ex-USSR GT404  
Germanium Transistor.  
Carefully selected for  
classic, organic grit.

## The Architecture:

Point-to-Point Construction.  
Hand-wired to ensure  
maximum signal purity.

## The Lifespan:

Premium Components.  
Built for lifelong  
durability and reliability.

# Exponential Versatility: The Toggle Switch

	TREBLE MODE	FULL MODE
Frequency Focus	High/Mid boost, eliminates low-end	Full-range frequency push
Tone Character	Classic British bite	Thicker, muscular, powerful
Best For	Cutting the 'mud' out of a dense band mix	Driving tube amps into heavy saturation

# Complete Dynamic Control

**Roll Back:** Crystalline, glassy cleans with a special chime. Extremely sensitive to your guitar's volume pot.

**Push Forward:** Hear your solos roar and cut through the mix like a knife.

# The Architect's Blueprint

**Circuitry:** Based on the legendary mid-60s Rangemaster.

**Heart:** GT404 NOS Germanium Transistor.

**Signal:** Authentic True Bypass.

**Build:** Handmade Point-to-Point Construction.

**Armor:** Heavy-duty Aluminum Chassis.

**Power:** 9V DC (Center Negative) or 9V Internal Battery.
