

## **AI and Faith-Based Organizations: A Workshop on Ethical and Responsible AI Use**

EAiD is committed to promoting the responsible and ethical use of Artificial Intelligence (AI) for all institutions and society. Starting with an understanding of the ethical challenges posed by the increasingly pervasive use of generative AI tools, we help faith-based organizations understand the implications and define the necessary governance and usage tools. Our mission is to empower AI ethical reflection, turning it into an engine of progress for social, community, educational, and ordinary management activities, with a concrete, sustainable and responsible impact.

### **Our proposal:**

The EAiD workshop is designed to equip **faith-based organizations** with the skills and knowledge needed to critically understand and exploit the potential of AI in a responsible manner. Through interactive and hands-on sessions, participants will be guided in the understanding and operational preparation necessary to govern the ethical, cultural, strategic, geopolitical, and technical implications of AI, being aware of risks and making the most of its potential for use in strategic vision and day-to-day work.

**Duration: 2 or 3-days in-person workshop.**

### **Objectives:**

- 1) Equip Faith-Based Organizations with basic knowledge and Critical Understanding of AI and Its Ethical Implications**
- 2) Empower Faith-Based Organizations to develop and apply Ethical AI Guidelines.**

## **Understanding the Landscape of AI and Its Ethical Challenges**

**Session 1: Introduction to AI and Its Relevance for Faith-Based Organizations**

**Session 2: The Invisible Chain of AI in the World**

**Session 3: Ethics and Geopolitics of AI**

**Session 4: The Impact of AI on Society and Human Rights**

## **Evaluating AI Through Faith-Based Ethical Frameworks**

**Session 5: Institutional Ethical Principles of AI**

**Session 6: Data, Bias, and Privacy in AI – Ethical Challenges for Faith-Based Organizations**

## **Engaging Faith-Based Organizations in Responsible AI Use**

**Session 7: Participatory Exploration – Shaping the Discourse on AI’s Responsible Development and Use**

**Session 8: Practical AI Tools for Faith-Based Organizations**

- **Hands-on Workshop:**
  - **Prompting engineering**
  - **AI tools for research, development, and advocacy.**
