

ANKRAENERGIES

Your Journey Our Experties

AnkraEnergies, we specialize in consultancy, trading, and services to help businesses thrive. Our expertise ensures tailored solutions that meet your unique needs and drive success.

Introduction

At Ankra Energies, we are committed to empowering businesses with our specialized expertise in consultancy, trading, and innovative services. Our goal is to deliver customized solutions that align with your unique needs, ensuring enhanced efficiency and long-term success.

We offer expert consultancy services for designing tailored solar systems that maximize energy output while meeting specific project requirements. Our solutions are crafted to optimize performance, reduce costs, and integrate seamlessly into your operational framework.

About Us

Our team of professionals brings innovative and customized solutions to meet the unique energy needs of our clients. By focusing on efficiency, reliability, and environmental responsibility, Ankra Energies aims to empower businesses and individuals to transition to cleaner, greener energy sources, contributing to a more sustainable future for all.

Vision & Mission

Vision

Our vision is to become a global leader in renewable energy by pioneering advancements in solar technology, product excellence, and expert consultancy.

Mission

our mission is to empower communities and businesses by delivering innovative, reliable, and sustainable energy solutions.

We are committed to enhancing energy efficiency, reducing environmental impact, and providing high-quality products and services that support a greener, more resilient future.

Our Services

Metallurgical Engineering

Our metallurgical consultancy services focus on material selection and treatment processes to prevent corrosion and rust in infrastructure and industrial applications.

MEP Cost Optimization

We specialize in Mechanical, Electrical, and Plumbing (MEP) cost optimization for infrastructure projects. By identifying efficiencies and recommending energy-saving technologies, we help reduce project costs without compromising quality or performance.

Our Services

Project Management Consultancy

we provide end-to-end Product Management Consultancy along with Supply, Installation, Testing, and Commissioning (SITC) services to ensure seamless project execution.

- **Pre-Bid/Tender Support**

Assisting in the preparation, review, and submission of pre-bid and tender documentation, cost estimation and selection of materials to secure pipeline contracts as least cost basis.

- **Consultancy Services**

Providing specialized guidance and recommendations on solar energy project in the pipeline projects for selection of the material, technology and equipment.

Our Services

- **Engineering Support**

Delivering detailed engineering solutions and designs for solar energy projects, preparation of engineering documents & its approval as per the tender specification.

- **Procurement Support**

Coordinating and assisting in the procurement of materials, equipment, and services required for the successful execution of solar projects.

- **Installation & Commissioning Support**

Any site related activities such as installation, commissioning, testing and supervision, Ankra Energies is committed to delivering high-performance, sustainable, and cost-effective solutions for your business.

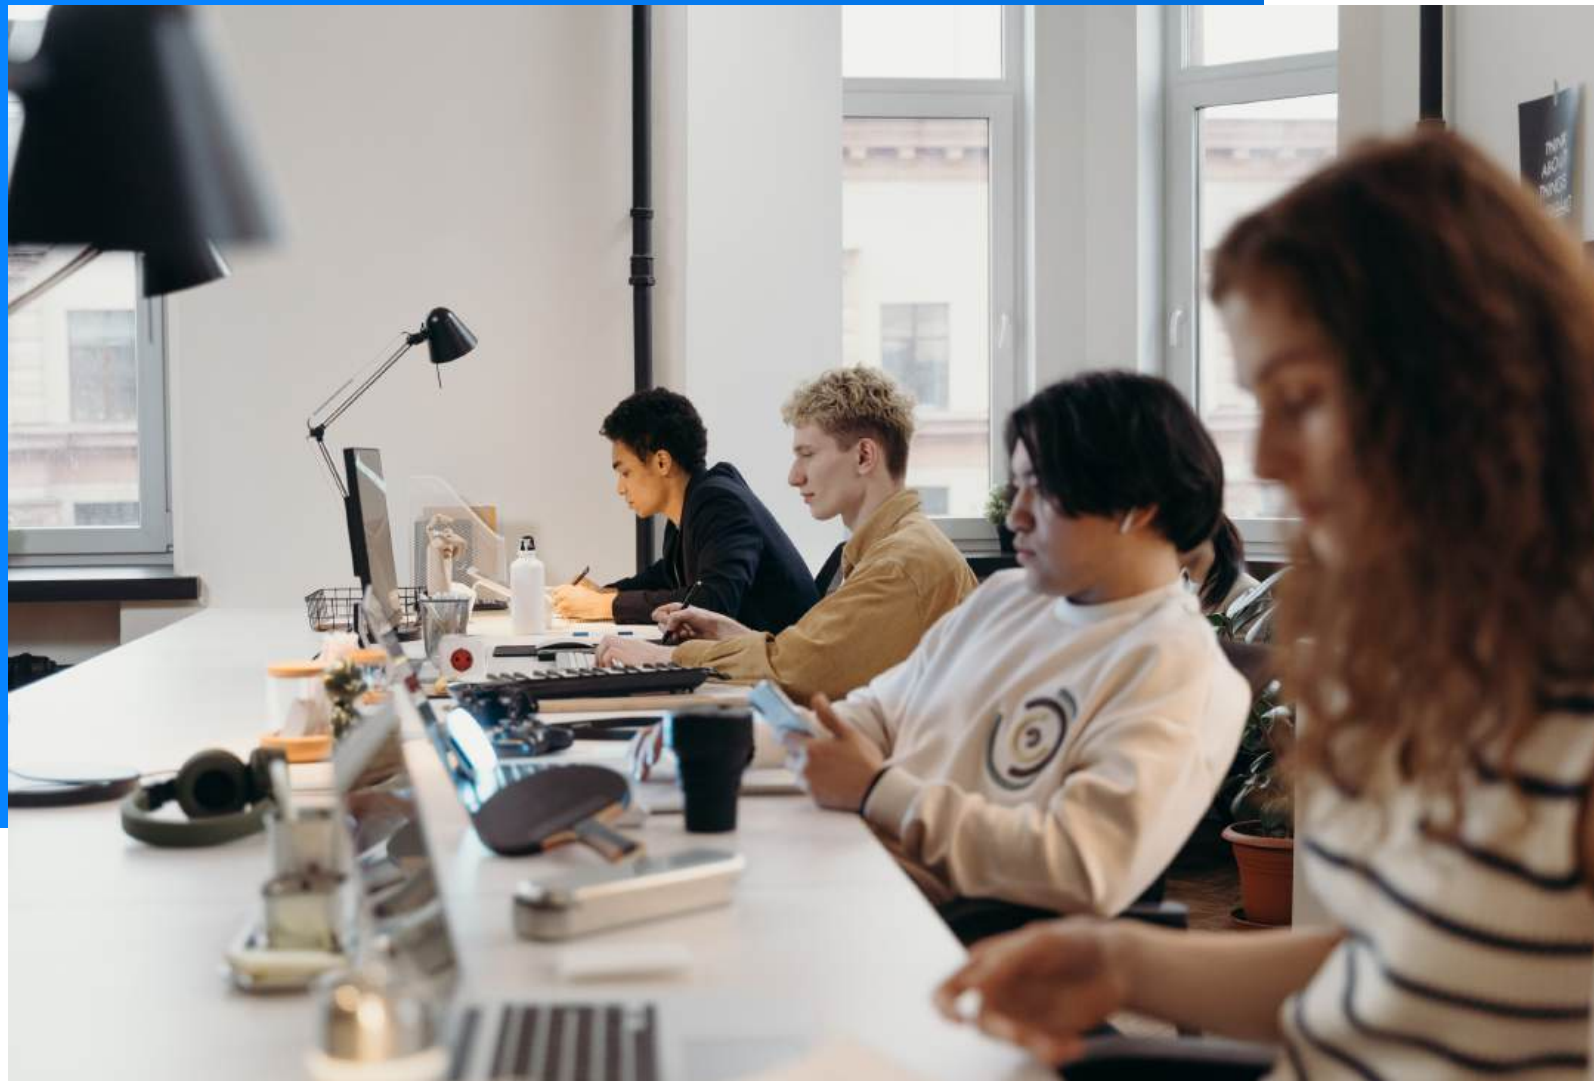

Our Services

Renewable Energy Consultancy

We provides expert consultancy for renewable energy projects, helping clients with everything from system design to energy assessment and feasibility studies. Our team offers tailored solutions that optimize energy efficiency, reduce costs, and ensure compliance with industry standards.

Our team ensures compliance with industry standards while delivering innovative, reliable, and future-ready renewable energy solutions.

Partner with Ankra Energies to unlock the full potential of clean energy and drive a more sustainable future.

Products

Renewable Energy Products

We are dedicated to advancing sustainable energy solutions through the trading of high-quality renewable energy products. By partnering with trusted manufacturers, We provides reliable and cost-effective renewable energy products that empower our clients to embrace clean energy, reduce their carbon footprint, and achieve long-term savings.

Flame Proof Electrical Products

We provides a comprehensive range of flameproof electrical products designed for safety and durability in hazardous environments. These high-quality products, including switches, junction boxes, lighting fixtures, and enclosures, meet stringent international safety standards, making them ideal for industries like oil and gas, petrochemicals, mining, and heavy manufacturing.

Products

Power Electronics Converters

We offers inverters and UPS systems designed to provide reliable power solutions with 96V DC input and an output range of 75-135V AC. These products are engineered for high efficiency and stability, making them ideal for a variety of applications, including backup power systems and renewable energy setups.

Balance of System (BOS)

Our BOS offerings include high-quality cable, lugs for secure connections, durable cable, glands to protect wiring from environmental damage, and robust lightning arresters to shield systems from electrical surges.

Contact Us

We're here to assist you with all your renewable energy, consultancy, and product needs. Whether you're seeking expert advice, innovative solutions, or reliable services, our team is ready to help. Reach out to us today and let's work together to power a sustainable future!
