I get clear consent when I ask a person to dance

yes

It is perfectly fine to decline a dance for any reason. We encourage you to dance with everyone to promote an inclusive atmosphere

I can decline or discontinue a dance without having to justify myself

NO

Dancing means being in close proximity to other people. That's why I create a pleasant surrounding (fresh clothes, moderate perfume, no cigarette smell...)

Other people may have different sensitivities to odors

I respect the moral and physical integrity as well as the boundaries of every person

Respect

I pay attention to a mindful approach to boundaries both in dance and outside of it.  
I ask my partner whether feedback is welcome before I give it.

I adapt my movements to the available space.

I pay attention to my partner in terms of distance and choice of movement.

Space

I share the dance floor and respect all dances

I can talk to the Awareness Team

If I or someone else feels unwell, I can speak to the Awareness Team

We invite you to celebrate the diversity of all our dancers as we have an incredible weekend together! Let's create a joyful and inclusive atmosphere by respecting each person's energy, personal space and comfort zone. Together we will make this an unforgettable time for everyone!
