# 3D WALL CLADDING YEAR [2025]

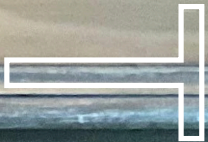

Timeless wall

# 3D WALL CLADDING

A stylish and modern decorative solution, 3D wall cladding adds depth and texture to interior spaces. Designed to enhance aesthetics with unique patterns and finishes, it transforms walls into dynamic focal points.

## Contact Information

## **SONY SENTRAL INDUSTRI**

At Sony Sentral Industri, we bring nature's beauty to your walls with our premium 3D wall cladding. Crafted primarily from high-quality teak wood—both recycled and fully teak—as well as other fine wood varieties. Each piece is expertly crafted to enhance interiors with warmth, texture, and a timeless aesthetic. Transform your walls into stunning focal points with the richness of wood and the excellence of our craftsmanship.

# Transform Your Home

Transform your space with the timeless beauty of handcrafted wall panels made from reclaimed teak roots.

At Sony Sentral Industry, we blend sustainability with craftsmanship to create unique, organic textures that bring warmth, character, and elegance to any interior. Each panel tells a story—of nature, heritage, and exceptional design.

## VOLCANO WOOD

The "volcano" effect is achieved through special carving techniques that highlight the deep grains, and contours of the wood, creating a rugged, dramatic look. This cladding is highly durable, eco-friendly, and ideal for accent walls in residential, commercial, and hospitality spaces, adding warmth and a bold, natural aesthetic.
