I have 30 years of corporate business-to-business sales and marketing experience. Successfully managing territory lead generation and earning high-performance rankings nationally & regionally. Selling distribution medical supplies, brand-named food and beverage products, and banking and finance services across two states: Michigan and Ohio. I've also earned two degrees: a Bachelor's and an Associate's in Business Administration.

During COVID-19, I leveraged my successful corporate sales experience to catapult my dream of starting a business. A REI Agency. I skillfully form strategic partnerships in high-pressure and competitive work environments for local homeowners, investors, and businesses. I am adept with complex real-estate problem-solving and skillfully tailoring marketing strategies that scale business income profits through joint venture partnerships and AI-powered digital solutions.

My Testimonial: "A direct mail letter campaign that went to only 1200 HOMES generated a 39K real-estate investing profit split and a significant ROI! Truly, direct-mail lives up to its reputation as the gold standard of advertising."
