marcoscrespo.diaz@gmail.com

Data Scientist specialised in GenAI, Machine Learning and Statistical Learning. I have experience in developing end-to-end AI and Machine Learning solutions in various sectors, as well as training LLMs, RAGs and agentic automation. I am motivated by working on ambitious projects, loaded with new technologies.

EXPERIENCE

Capgemini Engineering: Data and AI Engineer

September 2024

– Development of an application with AI and ML for the detection of anomalous traffic in UDP connections, reaching a recall of +95%.

– Training from scratch of an LLM based on Llama3 for an internal project.

Deloitte: Intern

February 2023 - May 2023

Process automation and reporting using Python and SQL for international insurance company.

EDUCATION

UC3M: MSc in Statistics for Data Science

September 2023 - June 2024

Master Thesis: SFPLSIM Model with MAR responses. Grade: 9.5

URJC: BSc in Mathematics

September 2019 - June 2023

Thesis: KMeans comparative study with different metric functions.
