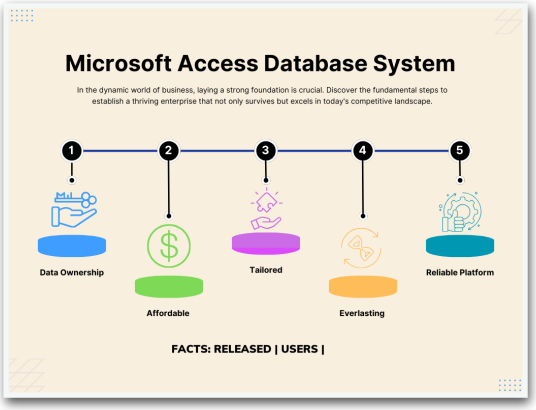
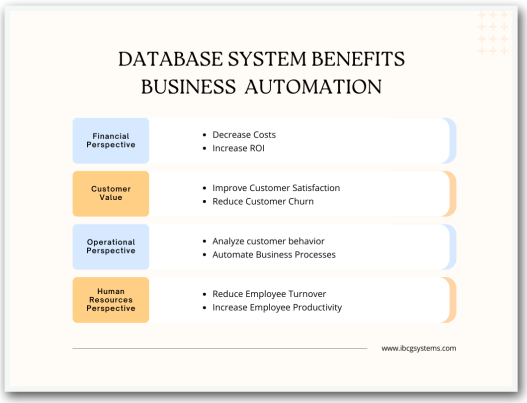
Maintenance Software

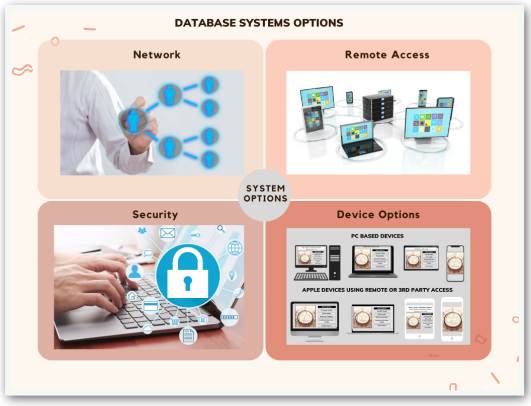
HSMS

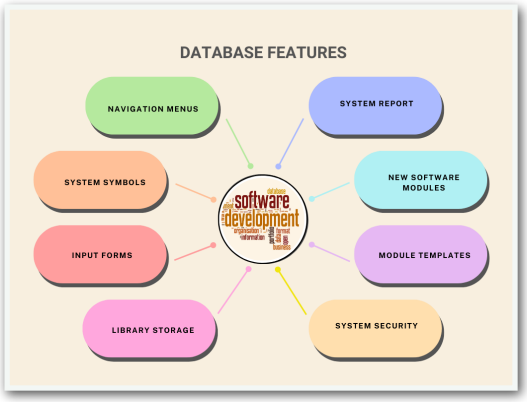
Database Systems

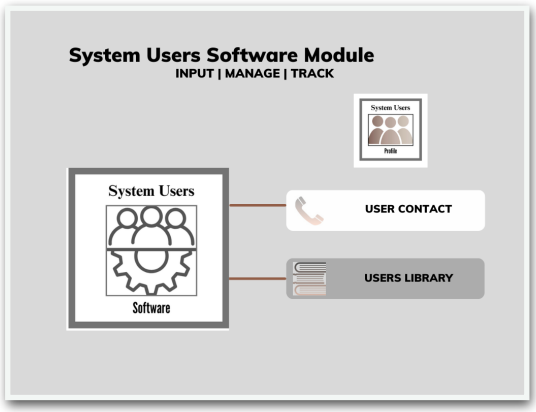
Microsoft Access is a database management system (DBMS) that allows users to store, organize, and manage data in a relational database format, offering features like tables, queries, forms, and reports for efficient data handling and analysis.

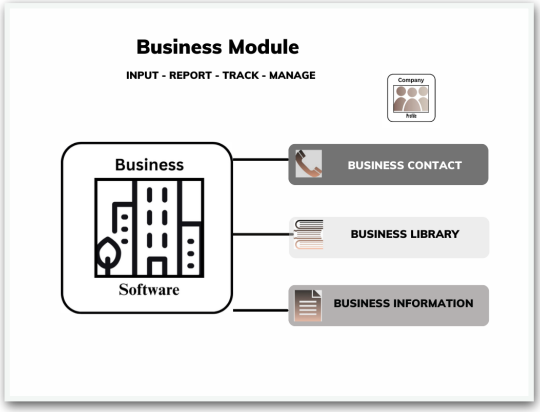












About

Software tools created specifically for hair loss specialists and trichologists. It streamlines client services allowing users to document, manage, and track comprehensive client information.

Hair & Scalp Software Modules

Title: Trichology Management Software
Developer: iBeauty Consulting Group, LLC
Product Branding: Trichology Management Software
Version: 1.0/0315.2025
Category: Hair & Scalp
