

# Indoor fixed installation

**T3-PRO Series**

Ultra high definition

Light weight

Flexible assembly

Right angle splicing

Hardwired

Pre maintenance

Quick installation

High gray high brush

## Appearance

Extending the appearance of the MI-PRO series boxes with small spacing, a semi-circular design element symbolizing infinite possibilities is used as the exterior design element. When N boxes are pieced together to form countless waves, it shows a soft and graceful state. This not only showcases a stable and smooth aesthetic, but also gives the product a sense of technology and futurism. Through this innovative exterior design concept, it conveys Lianjin's determination and belief in persistently exploring in the field of display, dedicated to showcasing excellent quality to customers.

The perfect fusion of  
technology and vision

## Cabinet size

500X250X33mm

750X250X33mm

1000X250X33mm

1000X500X33mm

## Cabinet weight

Die cast aluminum integrated box body, high precision, with a total thickness of only 33mm,  
The weights of the four types of boxes, 1000X500mm/1000X250mm/750X250mm/500X250mm, are as  
follows:10.5kg/5.6kg/4.0kg/3.0kg

## Pre installation and maintenance

Support pre installation and  
maintenance, with zero space  
constraints

## High gray and high brush, dazzling colors

High grayscale and high refresh rate, no scanning lines in photography, resulting in a more realistic and delicate display with vibrant and saturated colors.

160°

Large viewing angle

3840Hz

High refresh rate

10000:1

high contrast ratio

16bit

High grayscale

## Innovative module

- The innovative design of the module ensures that the viewing angle of the light beads is not affected when rotating the module direction. Impact, there will be no color difference. Not only does it improve the visual comfort, but it also enhances the visual effect. The attractiveness of fruit.
- The module is hard connected to the box, and the module adopts magnetic suction automatic adsorption, which is reliable and does not fall off.

## Product Details

- Integrated power signal quick plug interface reduces internal wiring work in the box, making installation faster.
- The box is made of high-precision die-casting material, with integrated molding, positioning columns, eagle hook locks (screws that cannot be loosened), reinforcement ribs and other details designed for higher flatness. Effectively improve installation efficiency and enhance customer experience.

Integrated molding  
High precision die cast aluminum casing

## Free splicing, flexible display

The four types of enclosures, 1000X500mm, 1000X250mm, 750X250mm, and 500X250mm, can be flexibly spliced horizontally and vertically, providing unlimited possibilities for your creative ideas and applications in any scene

## Creative splicing, infinite imagination

Supports shapes such as right angles and columns to meet various creative splicing needs.

## Installation mode

Support multiple installation methods such as lifting, wall mounted installation, and column shaped installation, suitable for more scenarios.

Hanging

Wall mounting

Variety of shapes
