Early Stage VC

General Information

Description

Operator of a construction company intended to provide innovative solutions for complex construction projects. The company focuses on executing various types of foundations, including driven piles, micro piles and anchors, while also planning to incorporate geothermal energy drilling, enabling clients in the construction sector to achieve reliable and efficient project outcomes through tailored approaches that address specific engineering challenges.

Most Recent Financing Status (as of 02-Apr-2025)

The company raised venture funding from Consulting Club International on an undisclosed date.
