

# What to do with all my photos!

You can start anywhere in time to write down the important and fun stories that your photos tell.

On the back of precious photos, jot down the names, places, and dates. (Soft lead on old photos, Zig Photo Signature marker on recent ones)

It's nice to print a few favorite photos from your digital collection from time to time.

Try looking online for images of your hometown, neighborhood, schools, workplaces, and world events. Use these to help tell your stories.

Research is showing how important it is to share your stories with your family. See website for more information.
