

I liked having Mrs. Santillo
come.

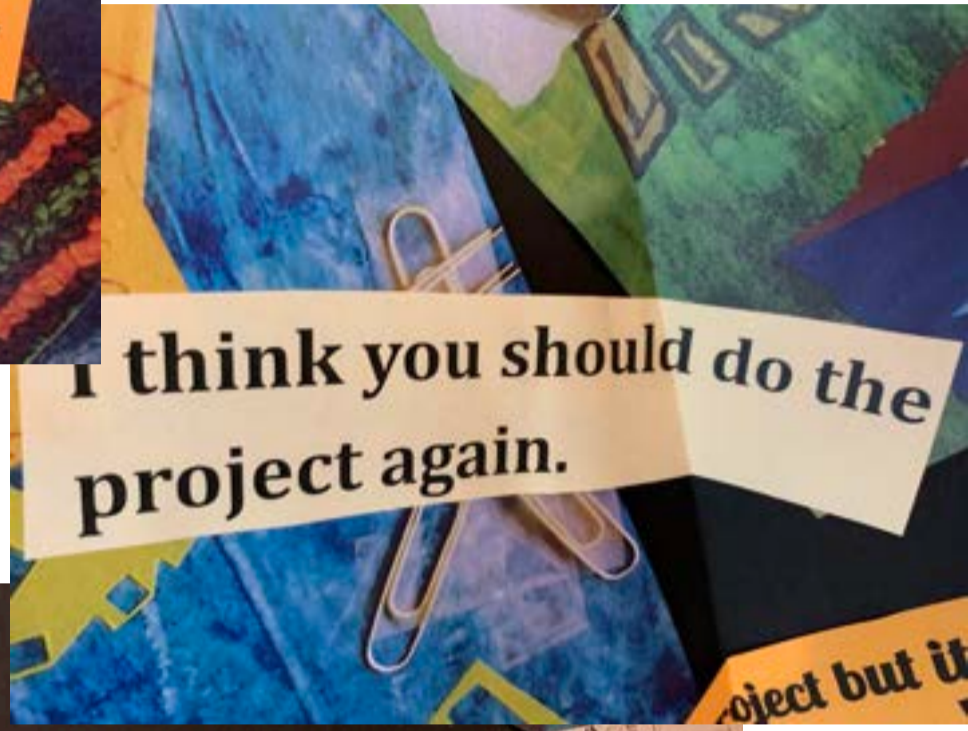

My grandmother was very
happy that I chose to honor
her and she liked all the
things I wrote about her.

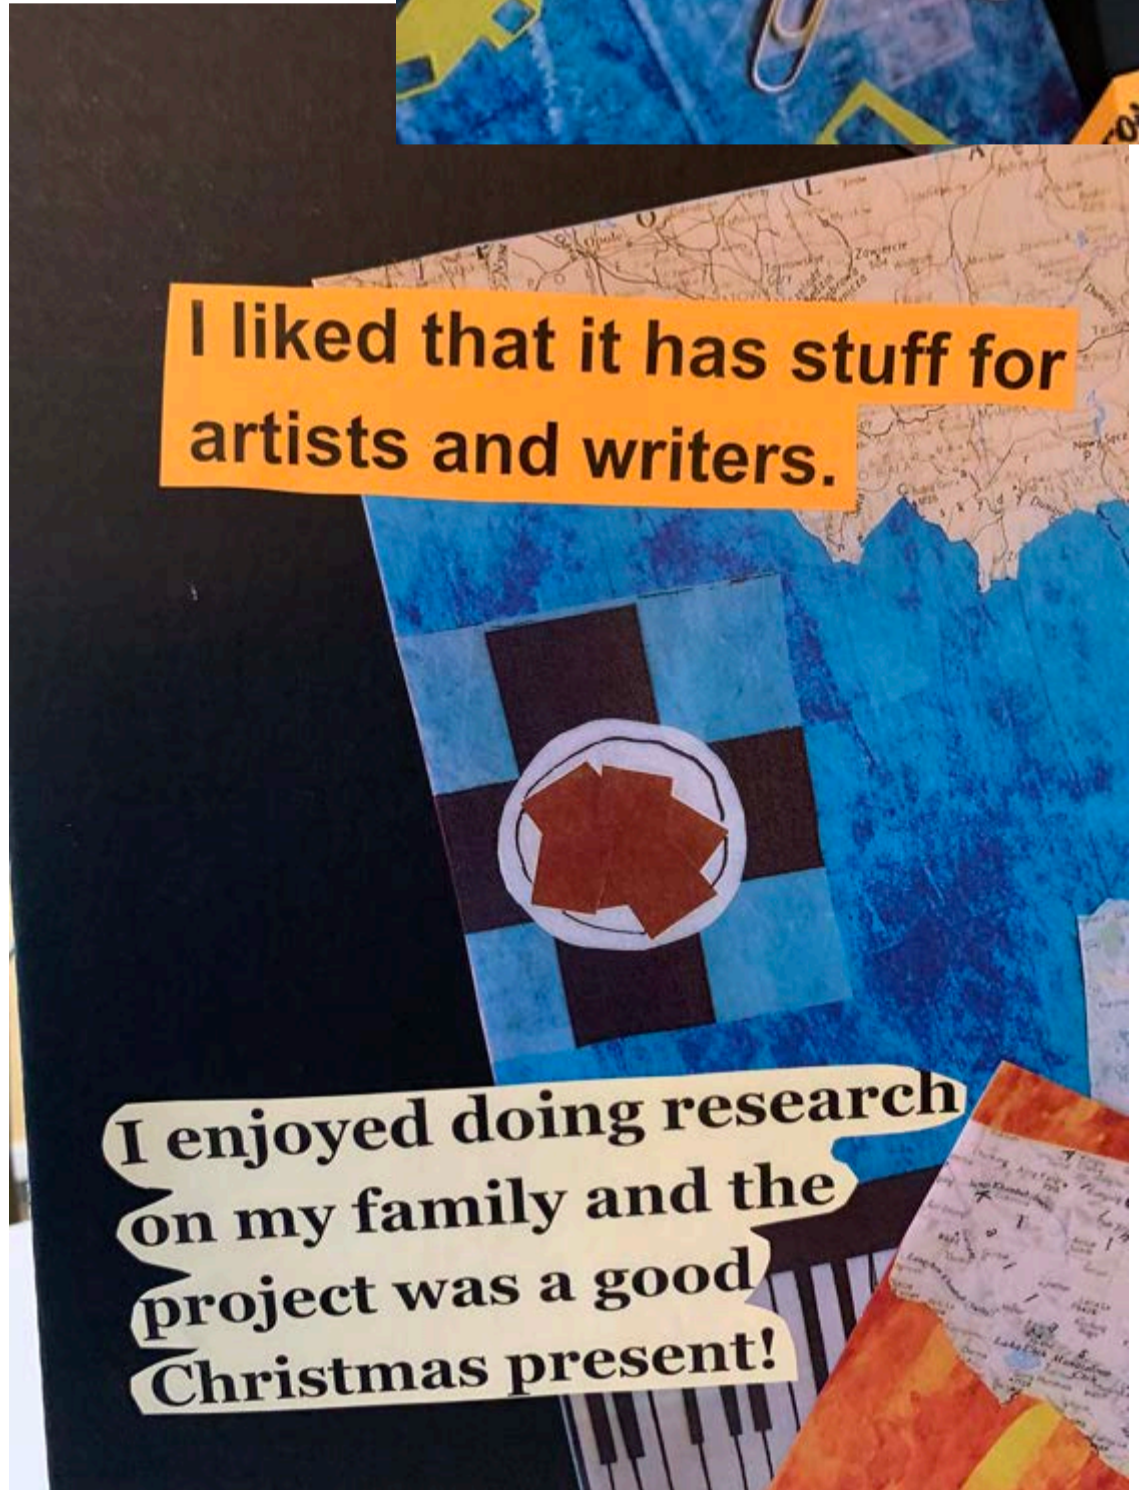

I liked the project but it was a little bit too personal.

I liked that it has stuff for artists and writers.

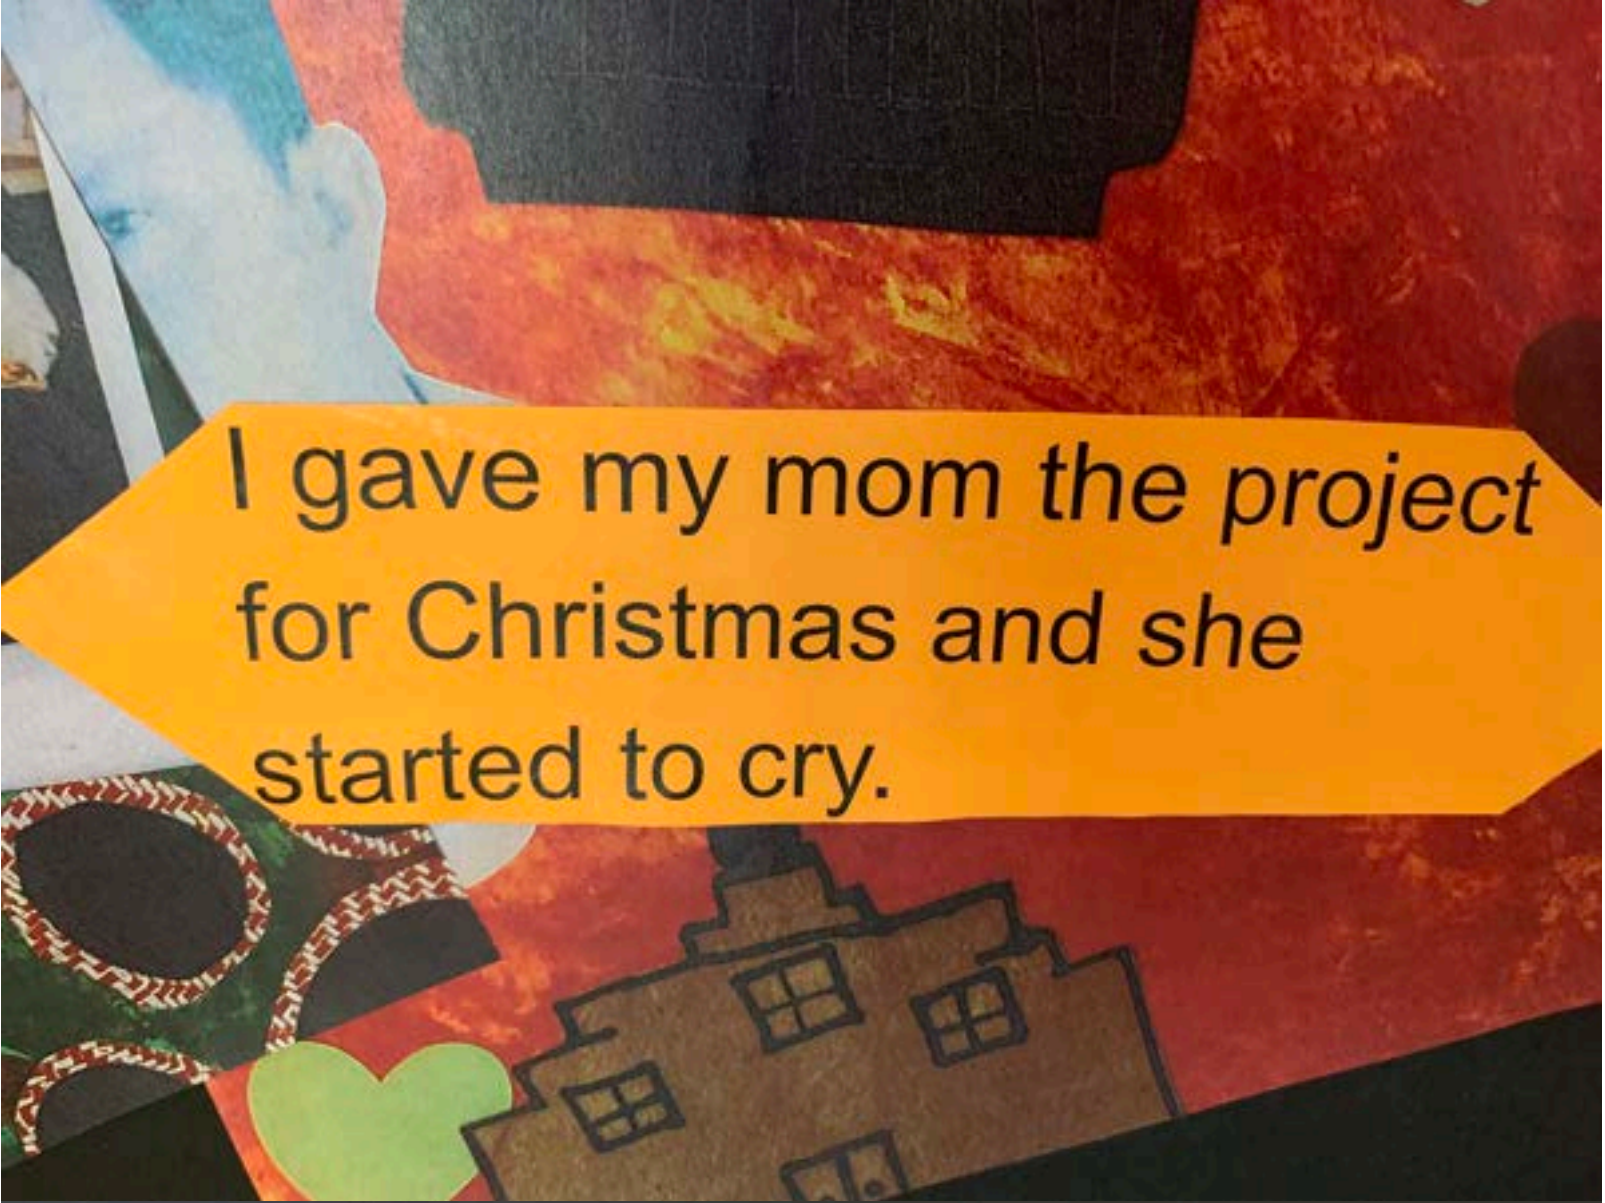

I enjoyed doing research on my family and the project was a good Christmas present!

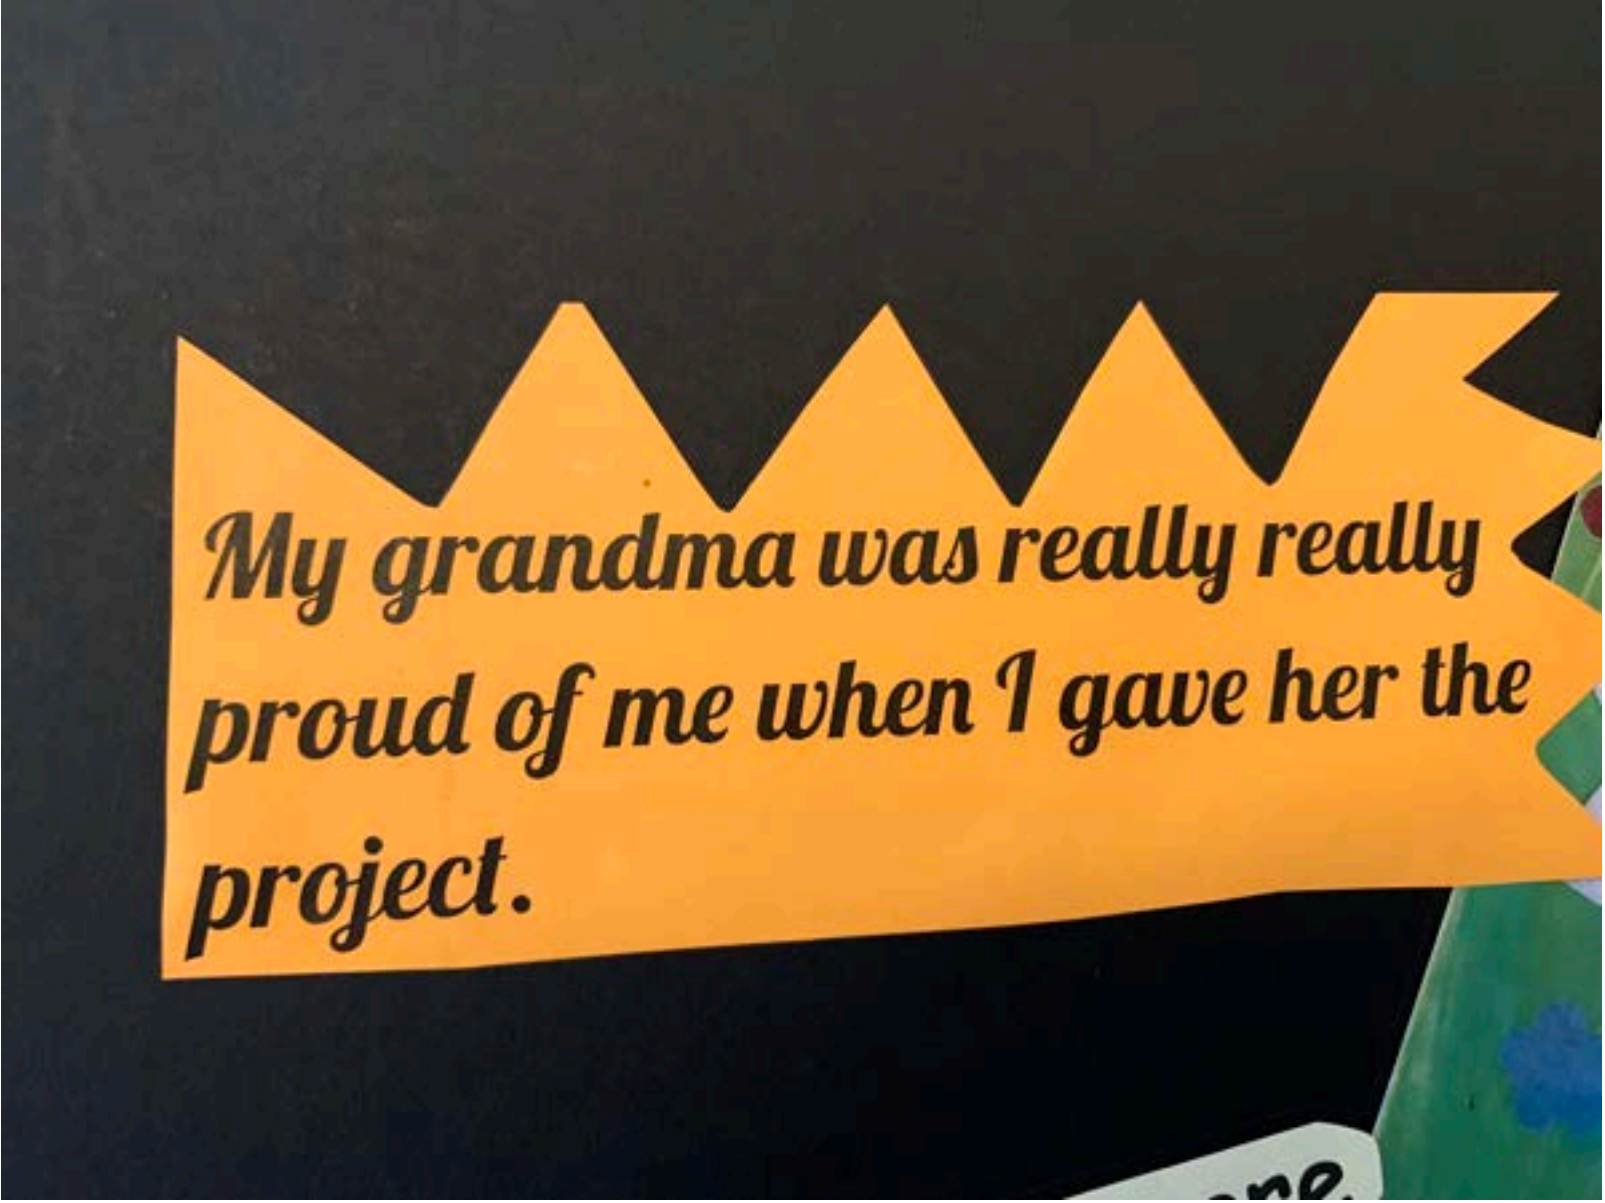

I liked researching my
ancestors and finding out
all the things they did.

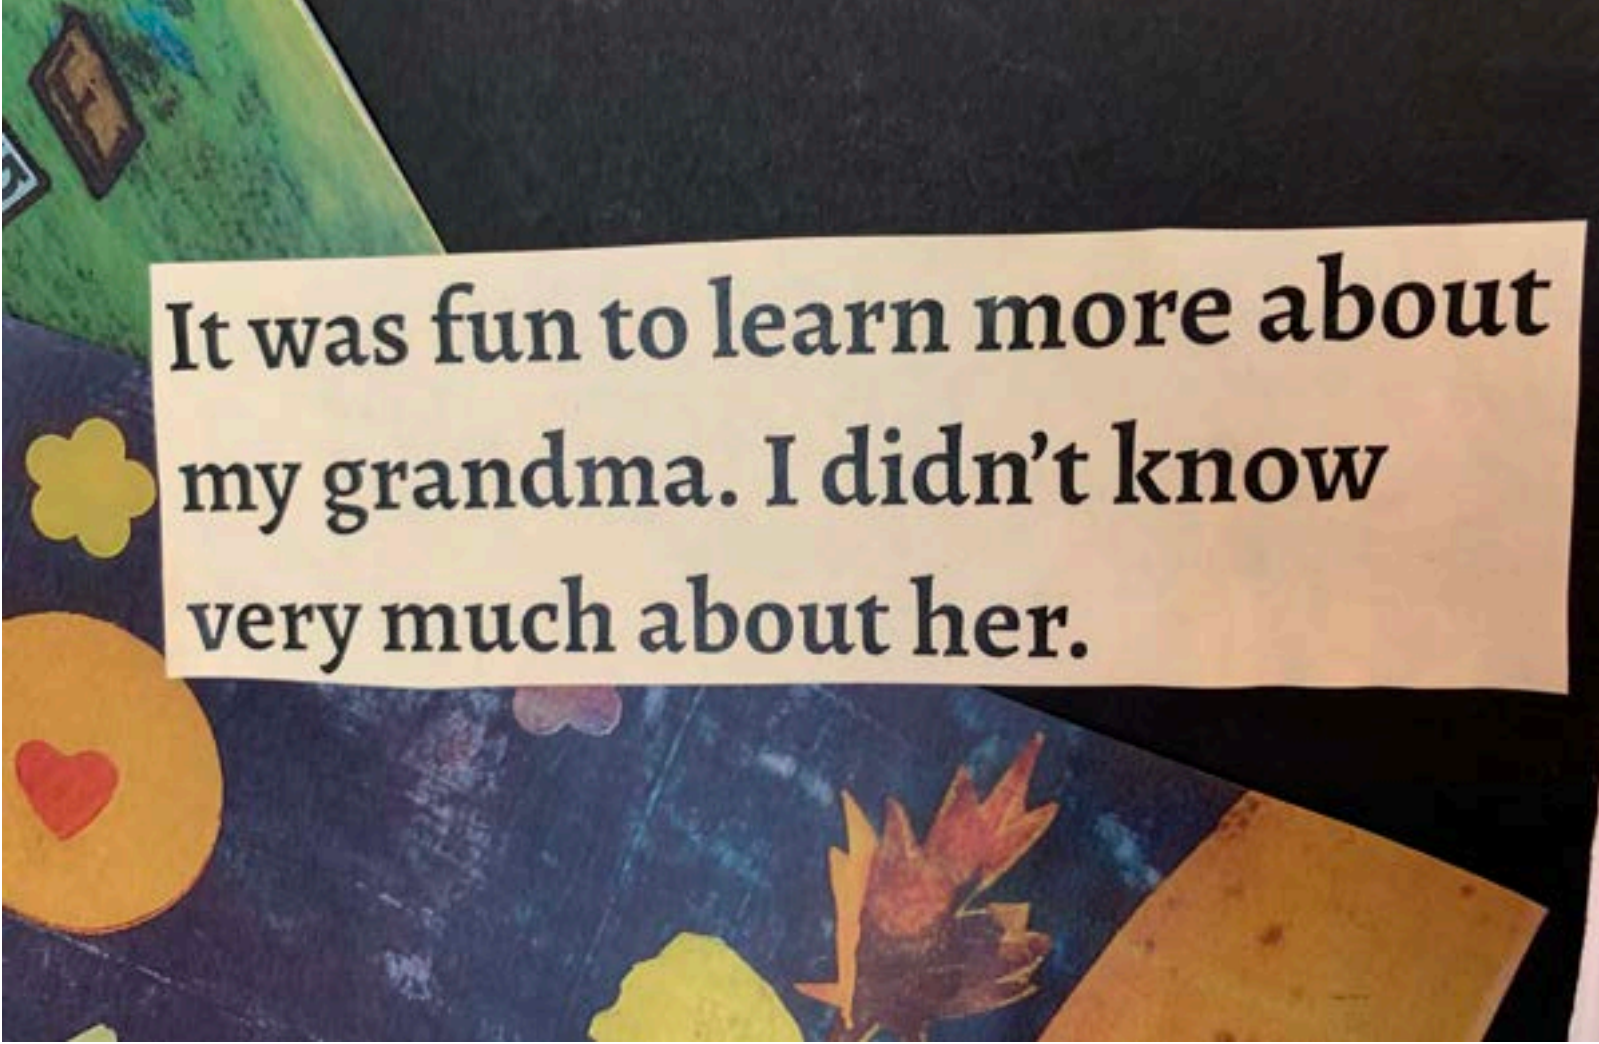

I liked working freely.

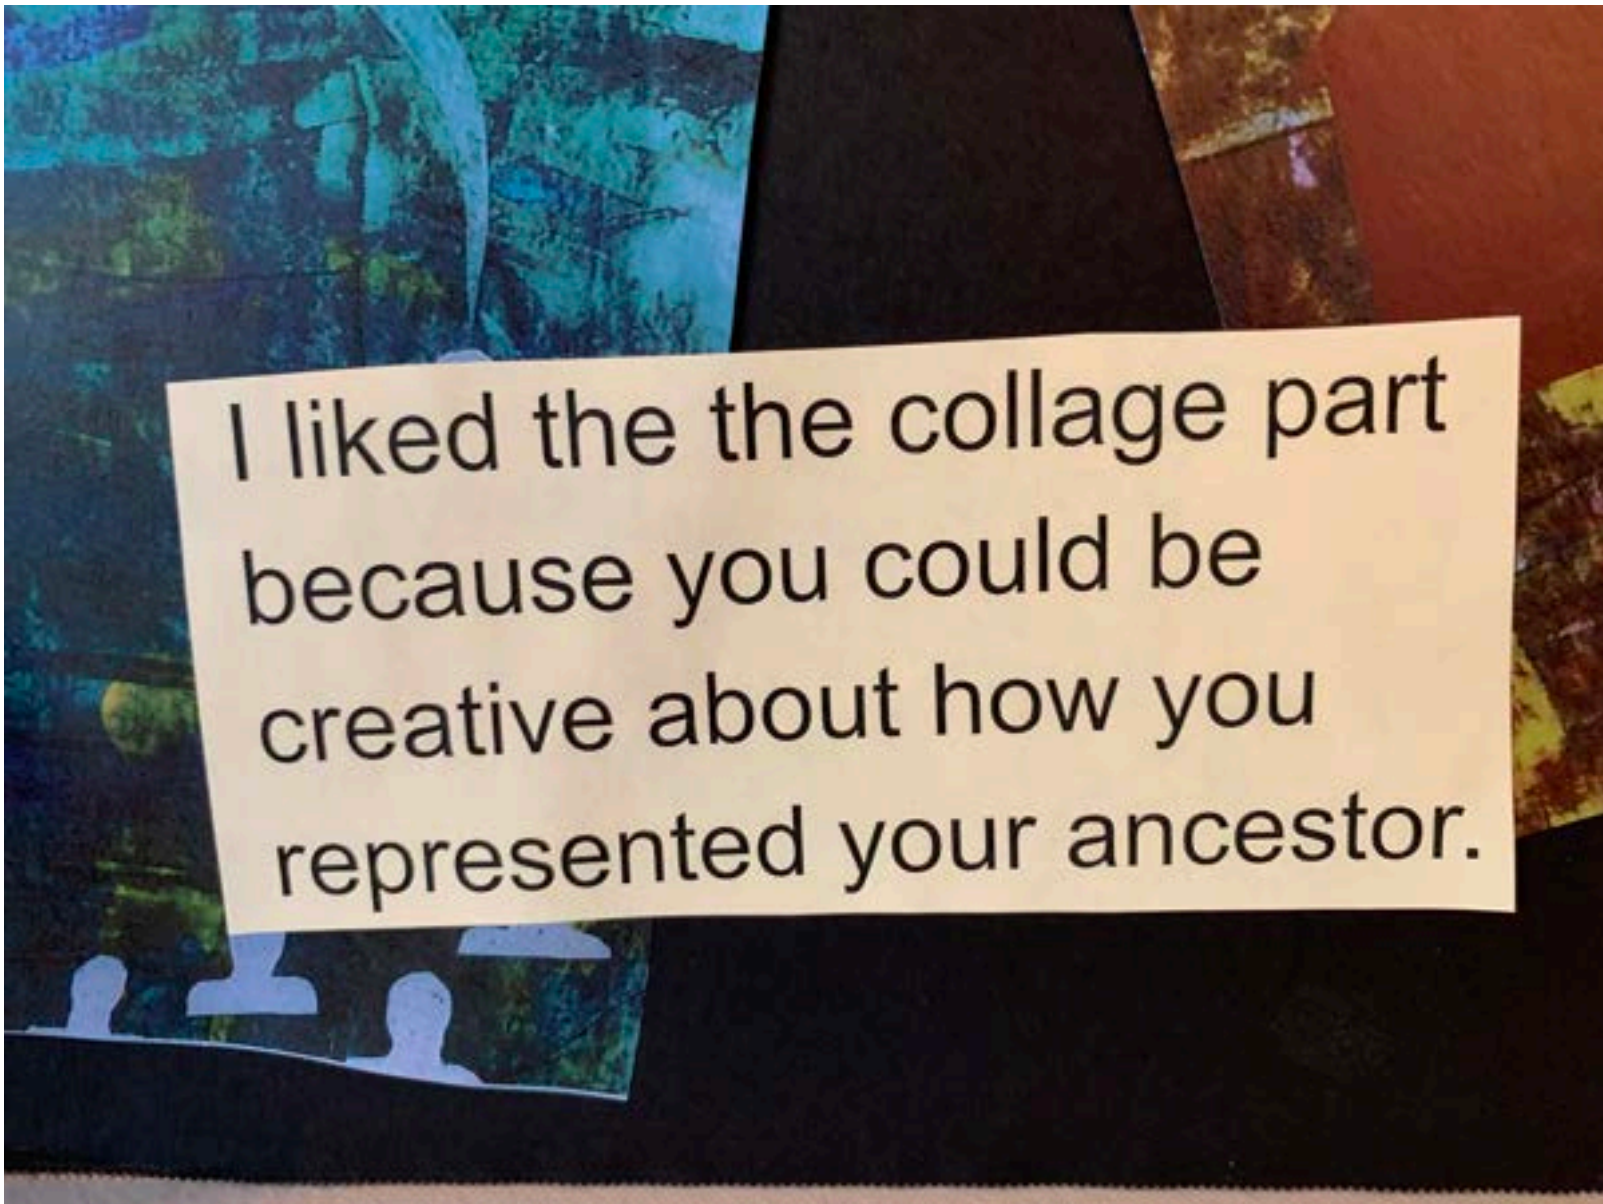

I gave my mom the project
for Christmas and she
started to cry.

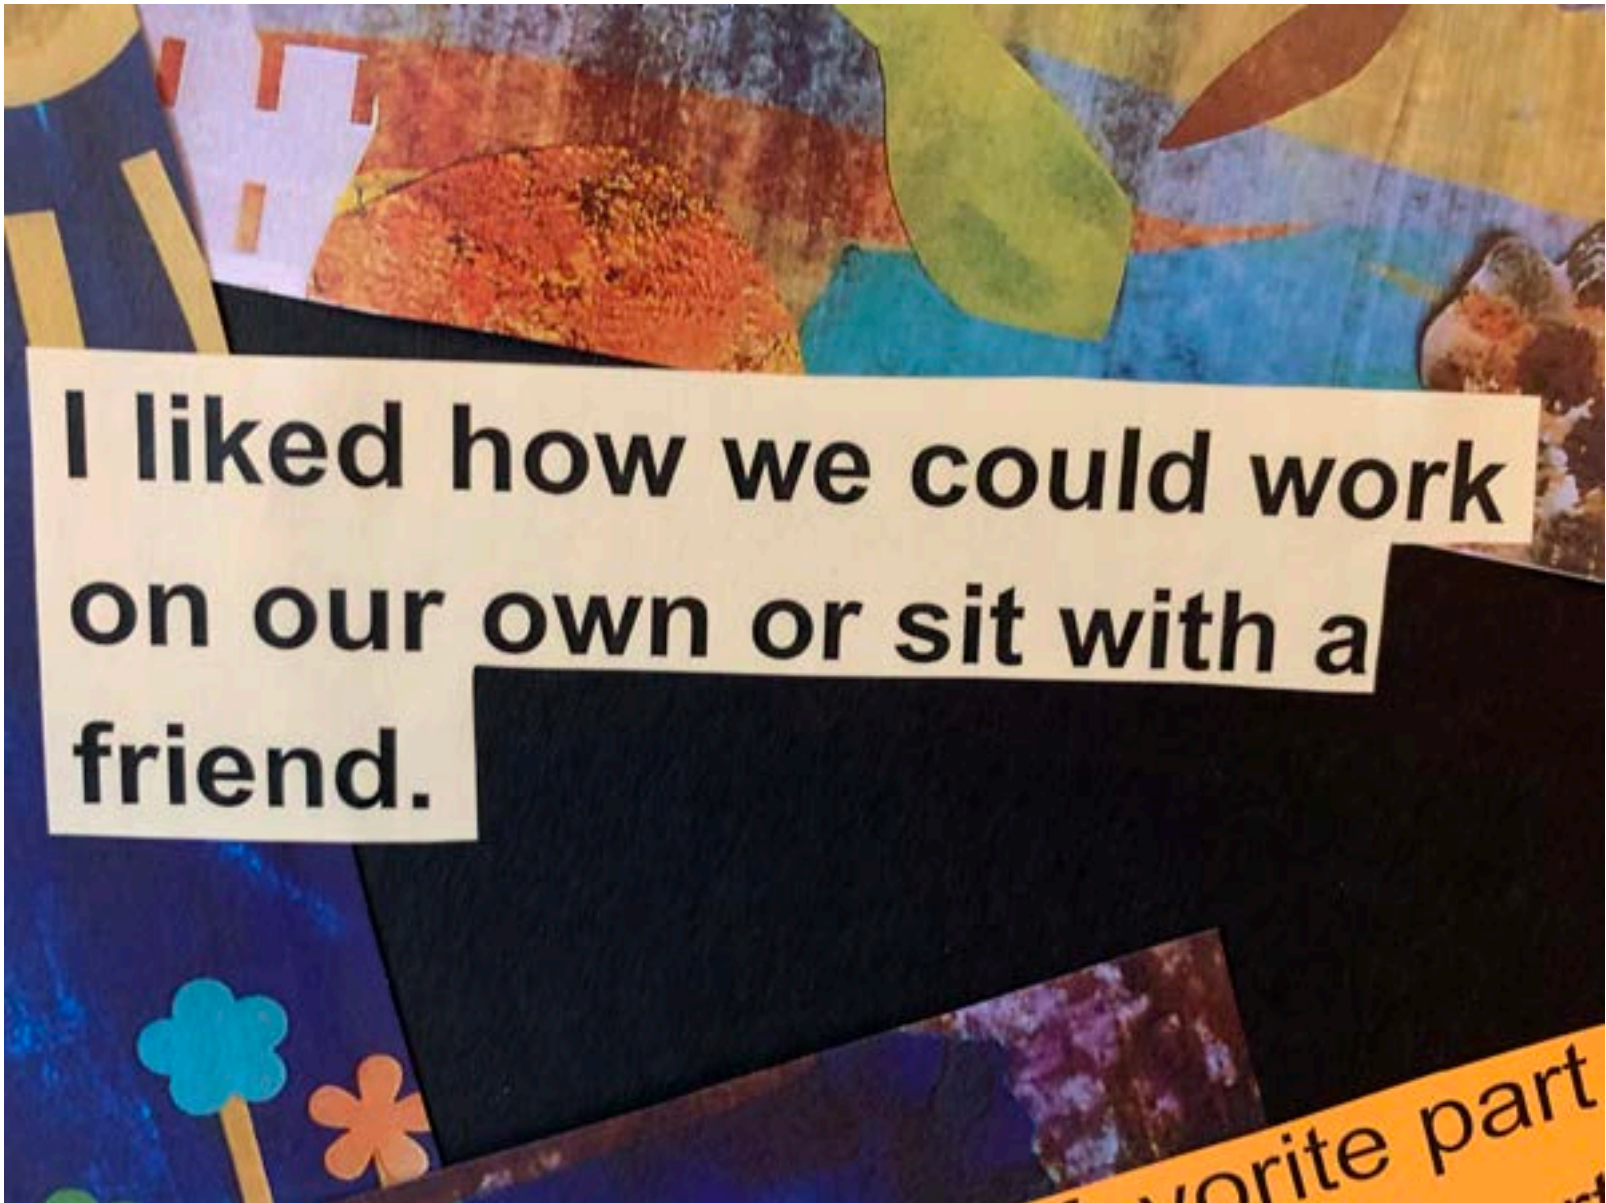

*My grandma was really really
proud of me when I gave her the
project.*

A collage on a black background featuring a green house with a brown roof, a yellow flower, and a red heart on a yellow circle.

It was fun to learn more about my grandma. I didn't know very much about her.

A collage on a black background featuring a blue and green forest scene, a person in a red shirt, and white silhouettes of people.

I liked the the collage part because you could be creative about how you represented your ancestor.

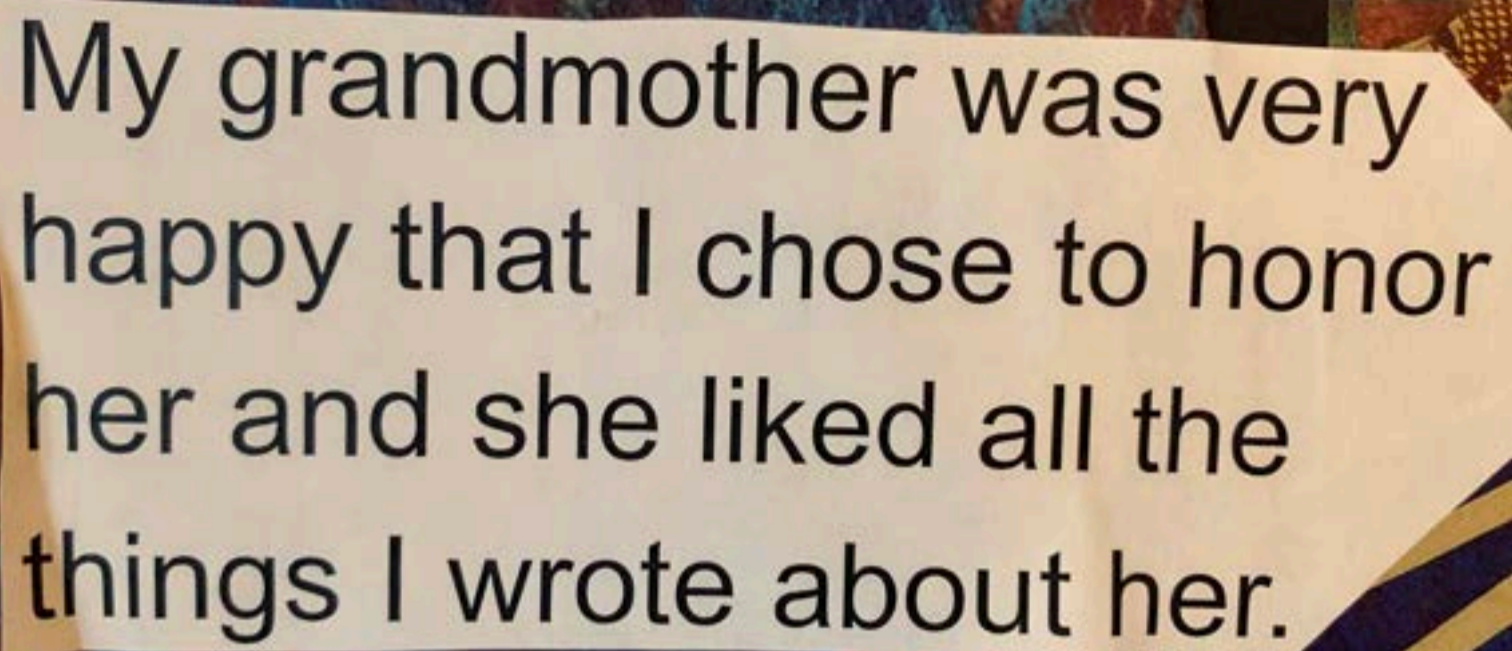

I liked how we could work on our own or sit with a friend.

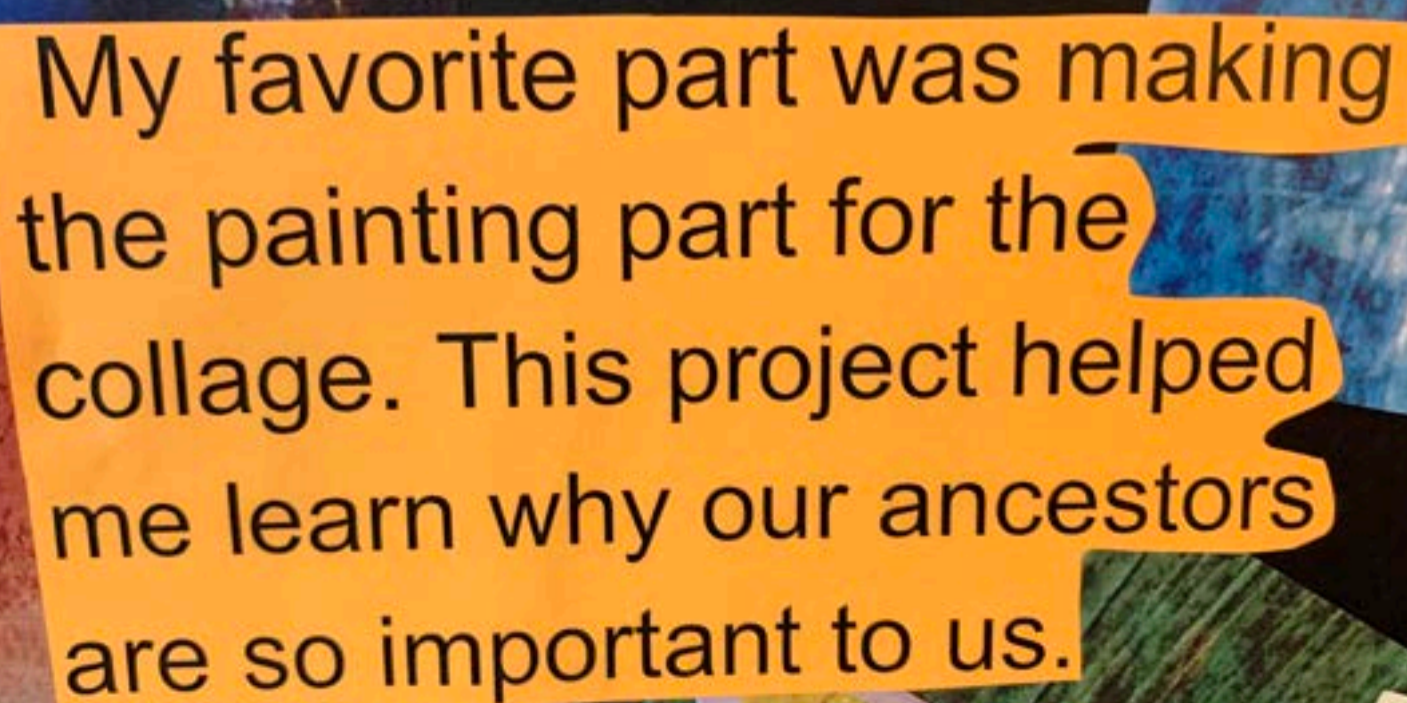

I don't like art and I had a hard time with the cutting part.

I need more time to work on the family tree graphic organizer.

Having the family tree graphic organizer really helped me.

I thought it was really cool to learn that I have some missing spaces about my ancestors that I want to fill in later.

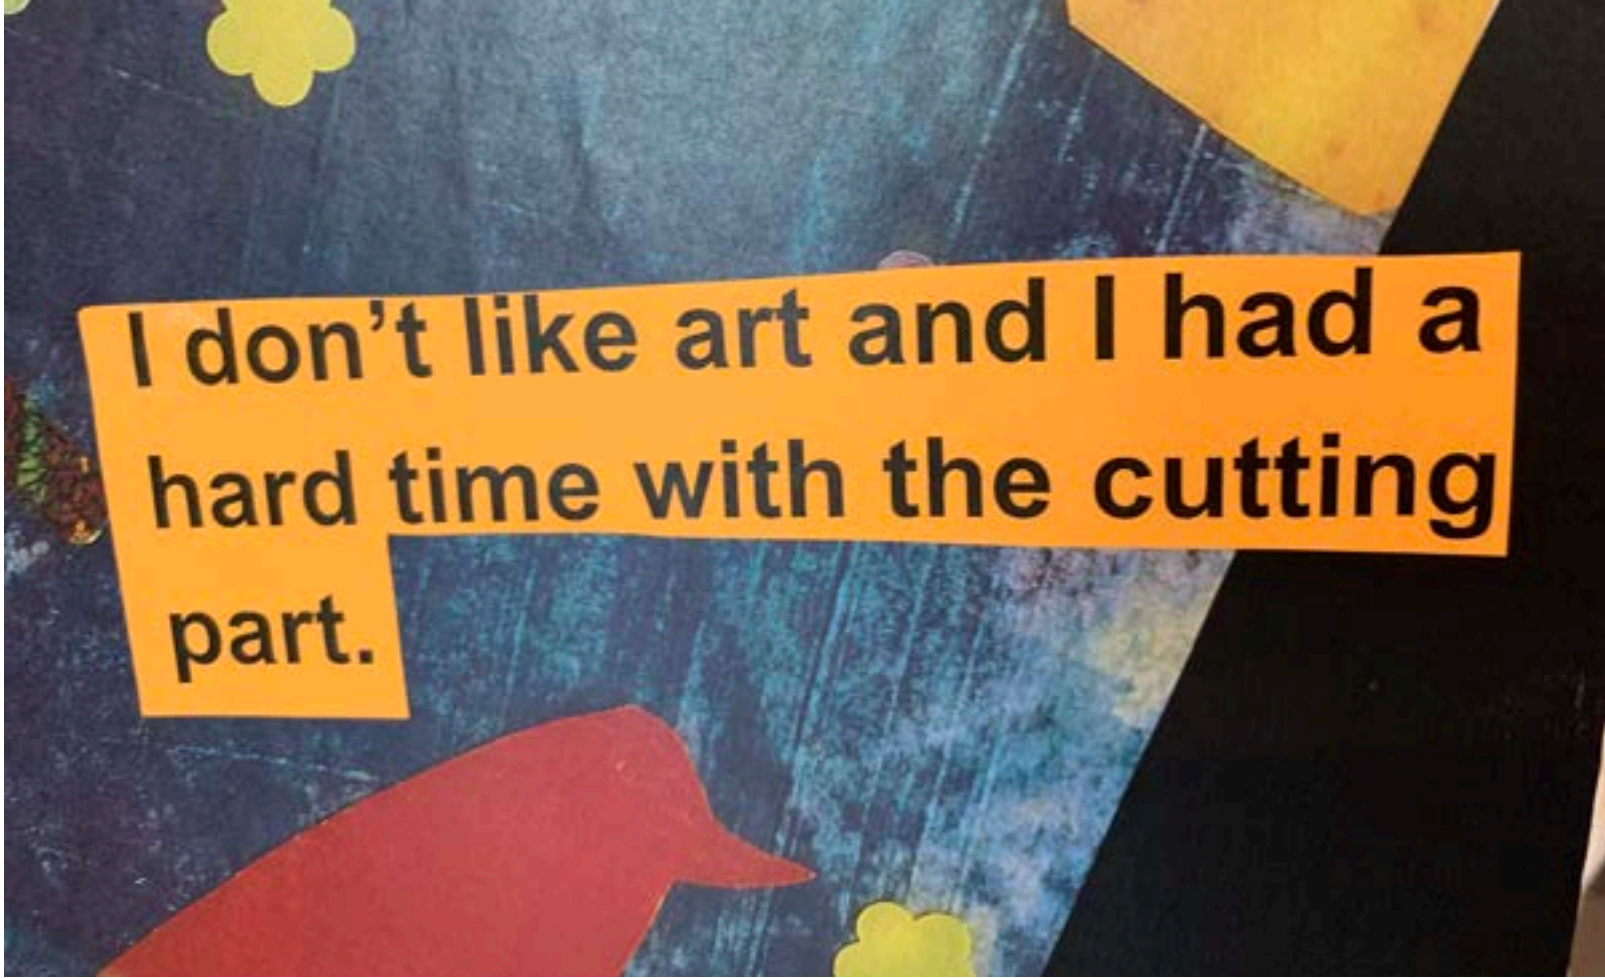

I didn't think we had enough time for cutting and gluing the collage but overall I really enjoyed the project!

I didn't enjoy this project because family has always been a difficult topic to discuss.

I liked learning more about my family and translating that into art.
