SHIPMENT

We are prepared to ship our premium charcoal and briquettes to your nation under the Free On Board (FOB) Incoterm. This ensures a straightforward and clear process for your sea freight needs.

Free On Board (FOB)

Under the FOB terms, we are fully responsible for getting your goods safely loaded onto the vessel you designate at the agreed Indonesian port of shipment. This includes handling all export customs procedures.

Once the goods are on board the ship, the responsibility for all subsequent risks and costs—including ocean freight, insurance, and import duties in your country—transfers entirely to you.

Please feel free to contact us if you need further clarification regarding our FOB shipping process.

FLEXIBLE PAYMENT OPTIONS FOR **YOUR TRANSACTIONS**

We understand the importance of security and flexibility in international trade. That's why we offer a payment scheme that combines the ease of an initial transfer with the assurance of final payment.

Payment Scheme: 50% T/T (Down Payment) & 50% L/C (Final Payment)

This method is designed to offer convenience for you and security for us:

- 50% Down Payment via Telegraphic Transfer (T/T): You make an initial payment of 50% of the total order value via T/T. This secures your order and allows us to immediately begin the production or preparation of your goods.
- 50% Final Payment via Letter of Credit (L/C): The remaining 50% will be paid via a Letter of Credit (L/C). This L/C will be activated and paid once the goods are loaded onto the vessel and all required shipping documents have been submitted by us and confirmed compliant by the bank. This ensures payment is only made after your goods are ready to sail.

Benefits for You:

- Guaranteed Security: Final payment is only processed after your goods are on board the vessel and valid documents are available.
- Efficient Cash Management: You don't have to pay the full amount upfront.

Brief Process:

1. You transfer the 50% down payment via T/T.
2. We process your order.
3. You open an L/C for the remaining 50%.
4. We load the goods onto the vessel and submit documents to the bank.
5. The L/C is activated, we receive final payment, and you get the documents to claim your goods at the destination port.

Choose this payment method for a secure and well-planned transaction. Contact us for further discussion!
