

# DARAJ

Crafting staircases is more than a passion—it's the essence of the **DARAJ** series by **Expo**.

We pride ourselves on using premium materials to create staircases that are not only durable but also visually stunning. With a meticulous focus on every detail, from balusters and handrails to treads, we ensure that each component meets the highest standards of quality and craftsmanship.

The **DARAJ** series offers a versatile selection of materials, including LED, aluminum, wood and stainless steel.

To make your staircase truly unique, we provide a range of customization options, including handrails, stair treads, and hardware, allowing us to tailor every design to suit your space and vision.

Let the **DARAJ** series transform your stairway into a masterpiece.

# DARAJ

LUXURY STAIR SYSTEM

## FEATURES

The type of stringer impacts the design and structural integrity: a **mono stringer** offers a sleek, modern look with a single central support, while **due stringers** provide more traditional, symmetric support with two side beams.

The **zigzag** style creates an artistic and dynamic visual effect, often used for its unique and bold design, but requires careful engineering to maintain balance and safety
