## Message from the President

At StrativaX, we believe that progress is not defined by ambition alone, but by the clarity, care, and responsibility with which institutions are built. Throughout my professional journey, I have learned that even the strongest ideas can lose momentum when roles are unclear and relationships lack structure.

What gives me the greatest confidence in StrativaX is its people. Our team is a thoughtful blend of seasoned professionals and academically distinguished experts who share a deep sense of responsibility toward their work. They listen carefully, act with integrity, and remain focused on outcomes that truly matter.

As Saudi Arabia advances on its transformative journey, we consider it a privilege to contribute—quietly, responsibly, and with purpose. We believe that trust is earned through consistency and respect, and we look forward to building enduring relationships grounded in honesty and meaningful impact.

Wish all the best,

StrativaX  
President

## Company Overview

StrativaX for Management Consulting is a Saudi-based management and organizational consulting firm aligned with the objectives of Saudi Vision 2030. The firm specializes in institutional structuring, governance frameworks, opportunity coordination, and strategic relationship management. StrativaX supports government, semi-government, and private sector entities in strengthening organizational effectiveness, improving coordination across stakeholders, and enabling sustainable institutional growth.

StrativaX was established to address a recurring challenge within transformation initiatives and multi-stakeholder environments, where opportunities often fail not due to lack of potential, but due to unclear mandates, weak governance, and unstructured coordination. By combining practical consulting expertise with deep understanding of the Saudi regulatory and institutional landscape, StrativaX delivers solutions that enhance execution readiness, accountability, and long-term impact.

## Consulting Excellence

StrativaX's strength lies in its integrated, multidisciplinary team of subject matter experts across governance, strategy, organizational design, operations, and stakeholder coordination. The team combines strong academic foundations with extensive hands-on experience across government, semi-government, and private sectors, ensuring practical and executable solutions. This cohesive approach enables StrativaX to deliver clear, accountable, and execution-ready outcomes aligned with Vision 2030 and national priorities.

## Alignment with Vision 2030

StrativaX's services directly support the pillars and enablers of Saudi Vision 2030 by strengthening institutional capacity, improving governance maturity, and enabling effective cross-sector collaboration. The firm contributes to national transformation initiatives by clarifying mandates, structuring responsibilities, improving operating models, and governing partnerships between public and private stakeholders.

Through disciplined documentation, role clarity, and structured coordination, StrativaX supports improved operational efficiency, transparency, and sustainability—key factors for successful Vision Realization Programs and large-scale national initiatives.

# Vision, Mission & Values

## Vision

To be a trusted national consulting partner in institutional structuring and governance, supporting Saudi entities in achieving sustainable impact and effective execution of Vision 2030 initiatives.

## Values

StrativaX operates according to professionalism, integrity, transparency, accountability, confidentiality, and disciplined execution—values aligned with public sector governance expectations and regulated environments.

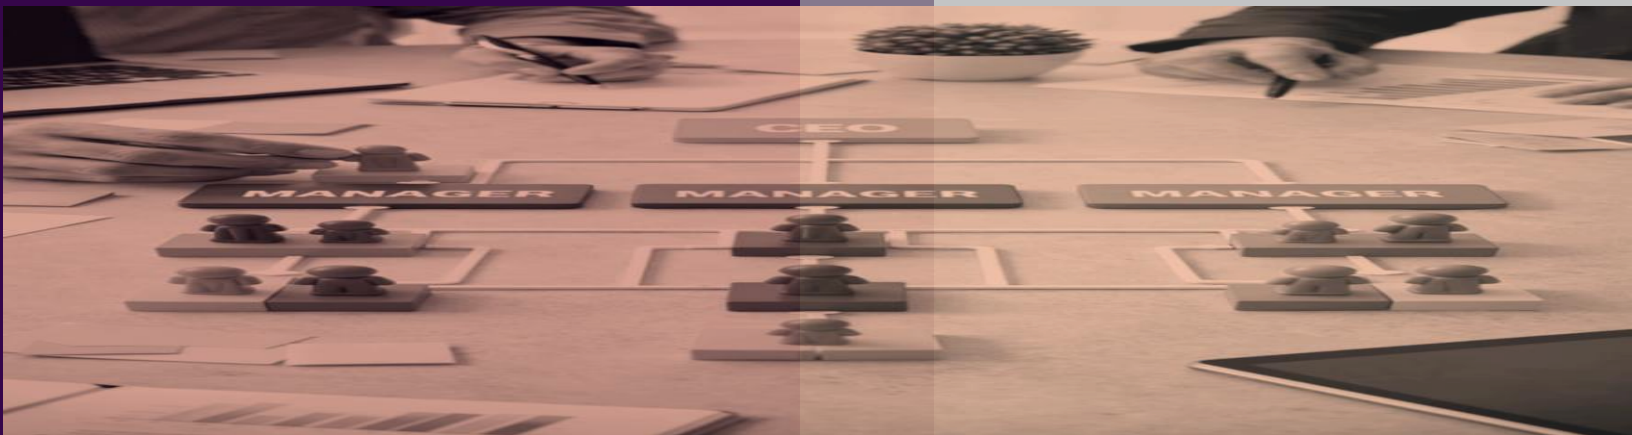

## Mission

To deliver structured, governance-focused management consulting services that enhance institutional clarity, coordination, and execution, while ensuring alignment with national policies and strategic priorities

## Core Services

### Structuring

StrativaX supports organizations in building and restructuring frameworks that strengthen performance, accountability, and decision-making. This includes designing organizational structures, clarifying roles and authorities, and establishing effective governance models that reduce overlap and improve coordination. The firm also develops policies, procedures, and SOPs to standardize operations and ensure consistency. In parallel, StrativaX helps clients enhance operational efficiency and prepare structured growth and expansion strategies aligned with institutional capabilities and national priorities

### Opportunity

StrativaX specializes in structuring and coordinating opportunities that involve multiple stakeholders. The firm establishes clear coordination channels, organizes meetings with defined objectives, and designs a practical opportunity pathway from proposal to execution. StrativaX also manages follow-up across involved parties, ensuring continuity, reducing friction, and maintaining momentum until responsibilities, deliverables, and next steps are formally aligned.

## Core Services

### Funding

StrativaX supports clients in organizing acquisition and funding opportunities by coordinating the administrative and stakeholder engagement components of the process. The firm structures communications between relevant parties, prepares the required documentation and governance framework for engagement, and supports stakeholders in sequencing execution steps—helping ensure that the opportunity is handled in an organized, decision-ready manner. (This service focuses on coordination and governance readiness rather than financial valuation.)

## Core Services

### Partnership

StrativaX helps entities build and govern strategic partnerships that are sustainable and well-structured. The firm coordinates with investors, corporate partners, developers, and relevant stakeholders to align objectives and responsibilities. StrativaX also supports drafting Memorandums of Understanding (MoUs), alliance frameworks, and partnership models that create clarity, reduce risk, and support long-term institutional value.

### Governance

StrativaX designs governance-oriented contractual and administrative structures that regulate relationships between parties and protect institutional interests. This includes defining roles, responsibilities, and decision-making mechanisms, ensuring fairness and accountability, and documenting the engagement model to reduce ambiguity. The objective is to create stable frameworks that strengthen trust, preserve rights, and support predictable execution.

## Methodology & Compliance

StrativaX follows a structured, governance-driven methodology designed for high-accountability environments. The firm emphasizes institutional clarity, stakeholder governance, disciplined coordination, and professional follow-up. Deliverables are documented, traceable, and aligned with engagement objectives to support decision-making and implementation readiness. Confidentiality is treated as a baseline standard, and engagements are conducted with professional ethics expected in government and regulated settings.

## Positioning

StrativaX positions itself as an enabling partner that bridges strategy, governance, and execution. The firm helps entities convert strategic intent into structured operating realities by strengthening internal frameworks and governing external relationships. This positioning supports national initiatives where outcomes depend on cross-entity alignment, disciplined coordination, and clear accountability.

## Closing Statement

StrativaX is committed to supporting the Kingdom's transformation journey by strengthening institutions, governing relationships, and enabling effective execution—delivering structured outcomes that support sustainable national impact.
