Water  
Experience  
for Your  
Lifestyle.

***Adell***

**Recep Ali Topçu**

Adell Faucet & Valve Manufacturing Co. Inc.  
Chairman

Established in 1981 we are proud to have ADELL, a leader company that manufactures its own mixers / taps. ADELL is the outstanding example of an independent and fully integrated Turkey-based manufacturer, performing the complete production cycle with technology and management solutions ahead of its time.

With our 39 years' experience, we are happy to announce our new company future vision:

ADELL – Water experience for your lifestyle.

We use the latest technology to manufacture our own mixers and we are proud of this. Our design philosophy is 'Designed & Made in Turkey'. All design and crucial stages of product conception, development and manufacturing are performed within our facilities in Istanbul, one of the most fascinating city of the world.

We are perfectly equipped to provide water experiences that exceed all expectations – both today and tomorrow. We are passionate and are proud to be at the heart of changing global landscape.

Yours Sincerely,

# Production and Technology at Adell

### Raw Materials

High quality raw material is an unquestionable ingredient for excellent finished products.

#### For casting:

- CC 757 S; CC 770 S DZR; CC 773 Low Lead Casting Brass

#### For turning and machining:

- CW 614 N; CW 617 N; CW 509 L; CW 510 L; CW 511 L;
- Listed in UBA, 4MS
- Various aluminum and steel materials

### Mould, Fixture and Cutting Tool Production

Mould developing is processed using the most precision CNC workbenches. Core, casting and hot working moulds, designed using the 3D Unigraphix, Solid Works CAD-Glass programs in computer environment, are made by cutting the steel blocks in microns with high precision.

### Low Pressure & Gravity Die Casting and Hot Forging

Drafts are produced in different ways: low pressure die casting, Gravity die casting and hot forging/press. Sand mixtures, obtained by mixing the green sand with resin, silica sand and appropriate catalyst and chemicals in sand preparation machines, are formed into cores in the automatic coremaking machines.

### Mechanic Operations

Drafts, whose runners are cut and whose burrs are taken off, are processed on CNC controlled benches, in the automatic transfer machines and 3, 4 and 5 axes horizontal / vertical CNC machining centers which carry out all operations named as mechanic operations such as turning, drilling and cutting.

**Turned parts:** The production of lathe-turned parts according to customer-specific sketches and precisely defined client quality requirements are daily challenges for our highly qualified precision engineering team. We have 4 and 12 axes CNC Automatic lathes, Swiss type lathes.

### Surface Treatments

Product surfaces are the elements on which we lay too much stress as they are a kind of last clothing of our products. Coating protects the surfaces from corrosion and mechanical effects, gives the surfaces an aesthetical appearance and enables them to harmonize with other accessories in kitchen compartments.

### Assembling, Testing, Packaging

Product quality is developed with the perfect combination of fine components, details and precision workmanship. Each part is picked and scaled carefully with this approach. The product is mounted by assembling the product body with the parts such as cartridge, lever, aerator and screw. The assembled products are subject to 100% leak-tightness, Functionality, and resistance to pressure tests in high precision testing devices. In addition, they are tested in life span, flow rate, sound and surface coating strength through the random method.

From Ideas  
To Simply  
Beautiful  
Designs

#### Adell In House Design Team

There is an idea behind every successful product. Everything is a dream come true. We work for original designs that speak the same language as the venue. The designs are carefully investigated and planned with careful details. The designs that increase the energies to the skies and take care of every drop of water ...

#### Engineering, Design And Innovation

Innovation and design are our most important values. Adell has unique aesthetical and stylish designs which protect the water and environment. We believe a good design will catch everyone. Our products are designed by our design experts according to customer demands and expectations, considering the national and international standards and our design criteria. Functionality, energy saving, aesthetics, ergonomoy, mountability and maintainability, size compatibility, safety, production life span, testability, modularity, packaging and shipping, impact on environmental pollution, waste utilization, production techniques and cost issues are taken into consideration at the design phase.

# Steps Of Adell's Quality Process:

### QA - Quality Management

We believe quality is the best business plan. Therefore we test 100% of finished products, ensuring that they are able to perfectly perform all their functions. All organizations of our company carry out activities based on a consistent quality assurance system, from the product planning conceptions stage through development, design, manufacturing of prototypes, evaluation, mass production, delivering and after sales-delivering activity. The Quality Management team within Adell is a key function consisting of people from many disciplines.

### Laboratory-Testing Center

Laboratory R&D activities are the studies which will carry us into future. The basic approach of our R&D unit is to spread on effort to ease the life and make life standards safer and more comfortable for people. Adell's laboratory center has the modern laboratory systems required by the related standards. Testing for performance, durability and dimensional accuracy can be taken by trained personnel. We have the ability to test in accordance with national and test for EN 248 Electroplating Specifications , Flow Rate Test, Salt Spray Test, High and Low Pressure Test, Kitchen Spout Life Cycle Test, Diverter and Hose life.

### Global Sales Network & After Market Care

39 years experience, almost 41 different countries. As diverse as peoples requirements and tastes may be, the basic need of people on this planet are the same, also the concerns. In throughout the world ADELL's employees take personal care of request from our customers and partners. We know by heart: we stand for the water experience that people would love. Every product bearing Adell's signature is manufactured under superior technology standards and has a guarantee of perfection in material and manufacturing workmanship.

**10 YEARS  
WARRANTY**

### Products Quarantee Periods

10 years warranty for chrome plated single lever mixers  
2 years warranty for gold plated, painted, two handle, electronic, Arda Series single lever mixers and thermostatic mixers, taps, shower system products, bathroom accessories, concealed cuterns, reservoir inset sets, seat covers, shower drains, siphons and towel radiators.

# PERFECT COMBINATION OF DIFFERENT MATERIALS FOR SUSTAINABLE QUALITY.

From which parts does a mixer consist? Excellent details, durable components, compatible hardware result in Adell quality. High standard, long life combined Adell mixers superior performance and long term performance thanks to the compatibility of all components and spare parts and durability. Carefully engineered, all parts complying with the standards.

## ERGONOMIC Handles

Adell handles are produced of high quality zinc material. It provides ease of use with ergonomic forms that grip the hand.

## %100 BRASS Mixer spouts

From quality raw material produced long-lasting chic of the sink. Ergonomic and easy to use In forms and in different sizes for your to use the water comfortably.

## PLUMBER FRIENDLY Fixing deck-mounted parts

Adell mixer connections made from stainless and brass raw material. It provides to easy installation, easy replacement and easy maintenance.

Depending on product groups and designs, specifications may vary from spare parts.

### **EASY-OPERATED Bath mixer diverters**

Automatic and compact Neoperl diverters are used. Long life and performance guarantee. When pulled up and locked to the right, it locks, when the battery is switched off, the pressure automatically switches to the crown position. Due to the locking system of the shower control unit in the bath and shower baths, the water flow from the handgrip is not affected by pressure fluctuations.

### **%100 BRASS MADE-IN-HOUSE Wall connection parts**

Wall-connection eccentrics and raccors are produced from the first quality brass raw material. The wall connection elbows are 10-15 mm longer than the market products, so the threads do not need to be extended.

### **WATER SAVING Aerators**

Aerators are critical parts that determine the overall performance of a mixers. In the aerators, the water flow is enriched with plenty of air. This ensures that the water is like a soft, non-splashing flow and full shower drops. These aerators allow you to save up to 50% from water gives with a softer flow with its ability to mix water with air.

### **%100 BRASS Body**

It is produced from high grade brass raw material by technological casting system. The wall thicknesses are designed to meet performance criteria for water passages.

### **GUARANTEED FOR MORE THAN 1.000.000 CYCLES Ceramic cartridges**

Cartridges are the heart and most important working parts of mixers. Adell products are made of long-lasting and quality cartridges with world quality ceramic discs. It has also 35 mm, 40 mm, with legs and without legs. We also use special cartridges in some series. Full tightness, heat resistance, abrasion resistant, but all are long lasting.

### **Certified Flexible hoses**

Basin and kitchen mixers come along with %100 tested leak-proof stainless steel or PE braided PEX flexible hoses. They are healthy and strong.

# Mixer Series

To us, mixers are the leading actors of bathrooms and kitchens.

We designed an extensive range of mixers for you, leaving you with the choice.

We transformed dreams, trends, fashion into designs, processed the most fashionable surfaces. We've added our love into a pinch.

Our bathroom and kitchen fittings offer modern and original design, environmentally friendly use, with diverse colors, designs and model options to suit your lifestyle in bathrooms and kitchens.

The bathrooms, kitchens look great with quality Adell mixers.

# Adell Lento

Stylishly designed geometric shapes and subtle rounded edges.

Can't decide between rounded and angular style? Lento has a contemporary design combining geometric lines with rounded edges.

# Thermostatic Technology Solutions

## You Will be a Bath-Lover With Adell Thermostatic Mixers.

The special cartridge inside the Adell thermostatic mixers controls hot - cold water fluctuations, automatically stopping the flow of hot water in the event of cutting cold water from the plant floor and reducing the risk of scalding. With this feature, the elderly provide a safe environment for children and pets. It offers water saving and energy saving with its advanced technology. It provides faster, more practical and more comfortable transportation of the hot water at the desired value. It helps the family budget and lowers water and fuel bills. With thermostatic technology, the temperature is under control and at the desired value.

- 1- Cold water inlet
- 2- Hot water inlet
- 3- 90 ° opening and closing system with special ceramic disc.
- 4- Shower diverter
- 5- Bath spout
- 6- Thermostatic cartridge thermostatic technology allows to adjust the water temperature to the desired level.
- 7- Safety lock
- 8- Integrated check valve

### MagnetClick™

At the end of Use, Adell MagnetClick™ magnetic system makes it easy to pull back the hood and pin it down. In addition, Kelvin's superior water experience is under the guarantee of Adell for 10 years.

### EasyFix™

Thanks to special water connection, it is very easy to assemble the mixer in narrow spaces.

### Soft Flow Function

As standard the water comes in the soft form mixed with air thanks to water saving aerator.

### Jet Flow Function

With the pull of the button located at the bottom of the spout, the water flow turns into strong jet form to easily clean tough remains on dishes.

### Angle of Handle

Thanks to special design of body machining the handle opens almost vertically to avoid hits to the surface behind the kitchen worktable.

# Adell Rondo Colors

In harmony or in contrast:  
Choose your color.

Adell kitchen faucet collection was expanded with black-granite, white-granite and cream-granite alternatives to be integrated harmoniously in the kitchen's colour concept or deliberate contrast with the surrounding area.

# Shower Systems

The perfect match for  
Adell bath and shower mixers.

Preparing in the morning, throwing your  
fatigue on the evening of the evening, the best way  
to feel yourself dynamic, refreshing yourself is to  
take a shower.

Adell shower systems offer you exactly  
the comfort you want when you go to the bathroom  
with a rich range of products, ranging from single  
flow function to six spray functions, special water  
flows, limescale hand showers, sliding shower sets  
and shower heads.

In every detail, you'll find traces of aesthetic and  
functional design.

Adell shower systems will bring pleasure to the  
shower.

Experience a perfect bathing experience.

The best way to start a new day.

# Flexible Water Hoses

## Strong, Resistant And Long Life.

Water connection flexes with inlet taps without installing a fixed pipe system. Flexible, connection elements in different dimensions. EPDM inner hose, nut/nipple elements and Stainless Steel clamping rings provide long life, PN10 bar resistant and 10 years warranty.

### Technical Information

- \* Working pressure: 10 bar Max. PN16 bar.
- \* Working temperature: -30 ... + 120C
- \* Water connections have gasket, no additional gasket is required during installation.
- \* Internal hoses are made from hot and cold water resistant EPDM material.
- \* The hoses and all parts are hygienic and can be used in drinking water connection.
- \* Made of metal braid AISI 304 quality Stainless Steel.
- \* Nuts and nipples made of brass material and nickel-plated wire.
- \* It can be manufactured in the desired size and diameter upon order.

# Adell Cleaner **NEW**

## Tap-cleaner – be on the save side

In the bathroom you want everything to shine, but the common sanitary cleaners often affect taps and fittings. Indeed, the taps are thoroughly clean afterwards, but there is always a risk of having damaged the gasket and components (e.g. valves and cartridges). Often aggressive cleaners are the reason for complaints. Therefore we recommend our Tap-Cleaner for the correct cleaning and care. Limescale and deposits will be removed gently without harming the surrounding ceramic and enamel surfaces. Thus preserving the value of the sanitary objects for a long time.

|                           |  |
|---------------------------|--|
| <b>Code Number</b>        | 18330005   |
| <b>Description</b>        | Tap-Cleaner  |
| <b>Application</b>        | For daily cleaning and care of taps and whirl pool jets  |
| <b>Surfaces</b>           | Chrome, stainless steel, brass, gold glossy/ matchromed, satined and gold plated surfaces  |
| <b>Customer's Benefit</b> | For brilliant metal surfaces Protects valves and internal components Dirt-repellent through beading effect, antistatic effect Enamel- and eco-friendly, bio-degradable TÜV certified quality |
| <b>How To Use</b>         | Spray cleaner onto the tap, allow to work briefly and then rinse with warm water and rub dry   |
| <b>Advice</b>             | Do not use on limestone surfaces (marble).   |
| <b>Storage</b>            | At +5° to 30°C, minimum durability 10 years  |
| <b>Contents</b>           | Spray bottle 750 ml  |

# All chrome that shines!

Commercial detergents for fittings contain potent acids to effectively remove limescale. In doing so the fittings get cleaned, yet, there is a risk of also affecting the surrounding enamel surfaces of the bathtub or the shower tray in an unfavourable way. Cramer Chrome-Polish removes heavy stains and traces of oxidation leaving shiny fittings. With its enamel-friendly formulation it is also non-hazardous to the surrounding surfaces in the bathroom and leaves them sparkling as well.

|                    |  |
|--------------------|--|
| Code Number        | 18330004   |
| Description        | Chrome-Polish  |
| Application        | Chrome polish for heavily stained and corroded surfaces  |
| Surfaces           | Glossy and matt chrome surfaces  |
| Customer's Benefit | Thoroughly but gently cleans the surface,<br>Acid-free and enamel-friendly formulation,<br>Concentrated cleaning compound,<br>Gentle on the skin, pleasant scent   |
| How To Use         | Cleaning: Apply a hazel nut sized amount of Chrom-Polish on a damp sponge and rub well on wet surface, rinse off with warm water and rub dry. Polishing: polish the cleaned surface with Chrom-Polish applied on a damp cotton cloth, rinse off and rub dry. |
| Advice             | Please note: Check for compatibility on a small inconspicuous spot, first!   |
| Storage            | At +5° to 30°C, minimum durability 5 years   |
| Contents           | Tube 100 ml  |

## MUSEUM OF WATER CIVILIZATIONS

Adell Ab-i Hayat / Collection of Water Civilization.

Water is the life, the elixir of life. Water, having the power of purification and cleaning, is the symbol of purity, simplicity and wisdom in all civilizations. Ab-i Hayat (Adam's Ale), the water of immortality, means sweet and fresh water whose drops give an endless life. Fountains, hamams (Turkish public baths), 'Sadırvan' (a fountain used for ritual ablutions), cisterns, water canals and aqueducts have risen as the artifacts of this civilization throughout history. That's why we named our collection of water civilization as "Ab-i Hayat (Adam's Ale)" as an expression of tribute and respect to water.

Adell Armatur collects historical artifacts related to our water civilization as a sustainable social responsibility project in order to improve public awareness about water, introduce the water civilization and hamam culture from past to present, bring the values sinking into oblivion to light. It also organizes trainings and seminars, and holds exhibitions on water saving and water management.

Our Ab-i Hayat (Adam's Ale) Collection of Water Civilization aims to present the phases of our water civilization with its deep rooted history.

Some parts of the Adell Armatur collection were exhibited at the World Water Forum, in 2009. The exhibition "Past to Present Water and Water Culture in Istanbul" was held within the İstanbul 2010, European Capital of Culture events.

The exhibition "From the Source to the Demijohn" was held at the 3rd İstanbul International Water Forum in 2011; "Bathing in the Ottoman tradition – Hamam" was held at Tuyap Unicera Fair in 2011; "Living with water" was held at the Tuyap Unicera Fair in 2012; and lastly "The Friends of Water" was held at the Tuyap Construction Fair in 2012. Adell Mixer took part in the organization committee of the International Conference on "Water in ancient civilizations" and presented 3 declarations at the conference.

Adell Armatur collection of water civilization is exhibited at a permanent exhibition hall of the head office in İkitelli Organized Industrial Zone and is open to visits. You can discover details of Ab-i Hayat Water Collection activities our web site.
