

The start of the Guest Artists Program

Our friend Aidan gave us the idea of including his art on a shirt, and we couldn't resist.

It has been more successful than we could have imagined! We had a great time working and creating together. Not only did Aidan's shirt come out great, he has also earned commissions from multiple sales. He continues to receive orders, and loves seeing other people wear his art.

We were all so excited about working together, and the result, that we wanted to provide the same opportunity for this experience to other artists with disabilities.

Designed to be YOUUnique strives to make meaningful work available to people with disabilities, and this program is proving to be another great avenue for everyone involved.

Designed to be YOUUnique
started in the vocational
program at a school for multiply
disabled students.

We started a t-shirt shop and taught
students incredible and useful new
skills.

Wanting to spread beyond the walls of
the school, we started a small
independent business that would
employ people with disabilities.

DESIGNED TO BE
YOU **UNIQUE**

Guest Artists Program

for artists with
disabilities

What is the Guest Artists Program?

Artists work with Designed to be YOUNique to transform their unique art into incredible designs for professionally created shirts, cups, and other paraphernalia.

Do you have a student or client who you think has artistic skills in these areas?

Painting

Drawing

Graphic Design

Submit art (png or jpg) to
devra@designedbyunique.com

be sure to include your artist's:

- name
- age
- one sentence about them

What Happens Next?

If the artist's art shows the talent we are searching for, we will work with them to create a design that will spotlight their skills.

Their wearable art and other items will then be listed for sale on DesignedYOUNique.com's Guest Designer page!

Once listed, the artist will receive a short sleeve white or gray T-shirt with their art printed on it free of charge (other options will be available for customer purchase).

The artist will receive a commission per item sold.

Artist Spotlight: **Aidan**

Aidan loves to draw mythical and fantastical images. Realizing his drawings would make a wonderful shirt design, we set out together to create this masterpiece.

With his sketches of skulls down one sleeve, roses down the other, and his unique artwork on the front, it came out even better than we could have hoped for!
