

Manifesto

Health is a fundamental human right— not only a privilege for those who can afford it. Yet too many people still face barriers to quality, inclusive and sustainable healthcare. The Health Impact Coalition exists to change that – to challenge the status quo and deliver lasting, positive solutions, where needed most.

We unite 8 international health NGOs, 1,650 staff members, and 16,000 volunteers, reaching more than 10 million people each year through more than 100 partnerships and supported by 130,000 individual donors who believe in one mission : making universal, quality healthcare a reality for all.

We are driven by people, powered by collaboration, and guided by one vision: strong, connected and resilient health systems – everywhere.

We engage in 8 commitments for lasting impact because collective action multiplies impact.

1. People at the heart

We empower communities to take charge of their own health – breaking stigma, building trust, and ensuring everyone can access care with dignity.

2. Health workers first

We stand by those who care for others. Through peer to peer training, exchange and advocacy, we help them thrive – supported, skilled and valued.

3. Strong and connected care

From the community to the hospital and beyond, we strengthen health systems so that services stay accessible, affordable and reliable – even in times of crisis.

4. Together, we go further

Our coalition unites the expertise of many. By working together hand in hand with national and international actors, we achieve impact no single organisation could reach alone.

5. Change through influence

We raise our collective voice to shape fairer health systems, open civic space and make the right to healthcare a reality.

6. Learning and innovation

We build on evidence, creativity and new models that make healthcare more effective, inclusive and sustainable.

7. Future-proof health systems

We act responsibly – diversifying resources, integrating climate resilience, gender equality and local leadership into everything we will do.

8. One credible voice

We speak and act as one – transparent, united and accountable. Together, we are building the next chapter of global healthcare solidarity.

Our Promise

To multiply impact through collaboration. To empower communities and health workers. To strengthen systems that last.

Because people deserve a decent healthcare.

We are One. We are Many.
We are the Health Impact Coalition.
