

Subject: **Urgent: Demand Oversight and Immediate Action on Elon Musk's Government Contracts**

Dear [Congressperson's Name],

I am deeply concerned about Elon Musk's influence and lack of oversight within key government agencies, especially given his \$20 billion in government contracts. His actions, both in business and on social media, are damaging to public discourse and the integrity of our institutions.

I urge you to immediately end all of Musk's government contracts and demand full oversight of his actions moving forward. It's critical that we hold those with vast power and influence accountable.

Thank you for your attention to this matter.

Sincerely,

[Your Name]
