Dr. Mohd Ashaq is Associate Professor of Botany in Higher Education Department of Jammu and Kashmir Government presently posted in Govt Degree College Thannamandi, J&K, India. Dr. Ashaq served in Eritrea for 8 years between 2000-2008, finally as Director of Research at Eritrea Institute of Technology, Asmara, State of Eritrea (2006-2008). Dr. Ashaq has 17 books, 38 book chapters, 35 Research papers, 25 patents and over 50 popular articles to his credit. He has edited over 100 issues of magazines and newsletters for various organizations. He is Reviewer/Editorial board member/fellow of about three dozen national and international peer reviewed and Scopus/Web of science/Springer journals and societies besides 15 development organizations.

Dr. Gopichand Singh is a senior scientist and head of the K.V.K., Nagaur under Jodhpur Agriculture University, Rajasthan, India. He obtained his B.Sc. Ag (Honours) (1996) and M.Sc. in Horticulture (1998) from R.B.S. College, Bichpuri, Agra (U.P.) (Dr. Bhim Rao Ambedkar University, Agra). He had also completed his Ph.D. (2003) in horticulture with a specialization in vegetable science from R.B.S. College Bichpuri, Agra (Dr. Bhim Rao Ambedkar University Agra, U.P., India). He started his career as a Senior Research Fellow (SRF) at IARI Pusa, New Delhi (2002). He was appointed as an SMS (Horticulture) at KVK Bichpuri, which works under R.B.S. College, Agra, U.P., from July 2003 to May 23, 2018. He had joined as Senior Scientist and Head at K.V.K. Maulasar, Nagaur II. Dr. Singh has published more than 25 research papers, including review papers, book chapters, and technical papers, in various reputed journals and publishers. He had also been awarded the Young Scientist Award (2015) and the Outstanding Scientist Award (2018) by the GKV Society of Agra for his outstanding research work.

Dr. Meenakshi Badu (Assistant Professor, Horticulture, Sri Sri University) completed her undergraduate degree in Horticulture (2010-2014), from College of Horticulture, Chiplima, Odisha University of Agriculture and Technology, Odisha. She was the recipient of CAFAS scholarship during undergraduation program, awarded the ICAR-Junior Research Fellowship (2014-16) for her post graduate studies leading to M.Sc Horticulture in Vegetable Science from Dr.Y.S.R. Horticultural University, Venkataramannagudem, Andhra Pradesh. Her master's research focused on variability studies among orange flesh sweet potato genotypes. She pursued Ph.D. Agriculture in Vegetable Science (2016-2023) from College of Agriculture, Bhubaneswar, Odisha University of Agriculture and Technology, Odisha. She has also qualified ICAR-SRF and ASRB-NET in Vegetable Science. She was recipient of OUAT merit scholarship during her Ph.D. She carried out her Ph.D. research work at Central Horticulture Experiment Station, Bhubaneswar which was focused on Breeding for resistance to bacterial wilt, Phytophthora root rot and root knot nematode in chilli (*Capsicum annuum* L.). She has participated and presented papers in various international and national conferences, seminars, symposium, webinars, workshop on horticulture. She has published many popular articles, book chapters, research and review papers in different international and national journals.

Mr. Vikash Tyagi was born on 17 march 1999. He has completed his graduation B.sc (Hons.) Agriculture in 2021 from S.V.P.U. A & T, Meerut (U. P) and M.sc (Horti) Vegetable Science in 2023 from S.V.P.A & T, Meerut. On the topic 'study on genetic diversity analysis in cucumber (*Cucumis sativus* L.)'. and now pursuing Ph.D. (Vegetable science) from S.V.P.U. A & T Meerut 250110 (U. P), on the topic "Molecular Characterization and Evaluation of Genotypes for Morphological & Qualitative Traits of Tomato (*Solanum Lycopersicum* L.) Under Protected & Open Field Condition' He has published 4 research paper ,5 National conference, 1 international conference,15 abstract,2 training program, 8 books chapters,3 books.

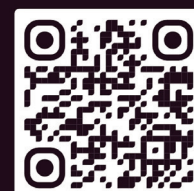

Shubham Kumar has completed his B.Sc. (Hons.) in Horticulture from Banda University of Agriculture and Technology, Banda (U.P.). M.Sc. (Hort.) Fruit Science From Chandra Shekhar Azad University Of Agriculture & Technology, Kanpur (U.P.). He is currently pursuing his Ph.D. (Hort.) Fruit Science From Anand Agricultural University, Anand (Gujarat) through the ICAR & qualified UGC- NET. He has published many popular articles, research papers, and review papers in reputed magazines and journals.

PREFACE

Horticulture, the art and science of cultivating plants, plays a vital role in our lives. From the food we eat to the landscapes that surround us, horticulture touches every aspect of our existence. It is a field that combines the beauty of nature with the precision of science, and it requires a deep understanding of plant biology, soil science, and environmental factors.

This **“Handbook on Horticulture”** is designed to provide a comprehensive guide for anyone interested in the field, whether you are a professional horticulturist, a home gardener, or a student of plant science. The book covers a wide range of topics, from the basics of plant growth and development to advanced techniques for propagation, pest management, and landscape design. One of the unique features of this handbook is its focus on sustainability and environmental stewardship. As we face the challenges of climate change and resource depletion, it is more important than ever to develop horticultural practices that are both productive and ecologically sound. Throughout the book, you will find information on organic gardening, water conservation, and other strategies for creating healthy, resilient landscapes.

Another key aspect of this handbook is its emphasis on practical application. While the book provides a solid foundation in horticultural theory, it also includes step-by-step instructions and real-world examples to help you put that knowledge into practice. Whether you are planning a vegetable garden, designing a perennial border, or managing a commercial greenhouse, you will find valuable guidance and inspiration in these pages.

The **“Handbook on Horticulture”** is the result of a collaborative effort by leading experts in the field, each bringing their unique perspectives and experiences to bear on the subject matter. We are grateful for their contributions and for the opportunity to share this knowledge with a wider audience.

We hope that this handbook will serve as a valuable resource for anyone who shares our passion for plants and our commitment to creating a more sustainable and beautiful world through horticulture. Whether you are just starting out or have been gardening for years, we invite you to explore the fascinating world of horticulture and to discover the many rewards of working with plants.

Happy reading and happy gardening!

TABLE OF CONTENTS

S.N	CHAPTERS	Page No.
1.	Introduction	1-12
2.	Plant Botany and Physiology	13-37
3.	Soil Science and Plant Nutrition	38-58
4.	Principles of Plant Propagation	59-80
5.	Nursery Management and Plant Production	81-99
6.	Greenhouse Technology and Management	100-122
7.	Orchard and Plantation Crops	123-130
8.	Vegetable Crop Production	131-160
9.	Floriculture and Ornamental Horticulture	161-173
10.	Landscaping and Garden Design	174-184
11.	Post-harvest Handling and Technology	185-192
12.	Plant Protection	193-202
