OPTIONAL NAILING

Use finishing nails if needed. Fill nail holes with putty and sand smooth.

4. INSTALLATION STEPS

5. FINISHED RESULT

Smooth, elegant finish that adds depth and style to the wall.

Tools Required

- Measuring Tape
- Pencil / Marker
- Spirit Level
- Mitre Box & Hand Saw
- Construction Adhesive
- Caulking Gun
- Sandpaper
- Cloth / Sponge
- Finishing Nails (Optional)

At Studio Global Decors Private Limited, we manufacture premium-quality French mouldings designed to transform ordinary spaces into luxurious architectural masterpieces. Crafted with precision and modern manufacturing technology, our mouldings add elegance, depth, and timeless character to walls, ceilings, doors, and decorative interiors.

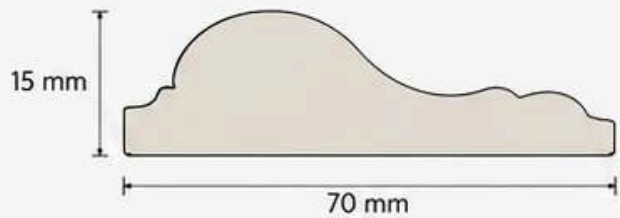

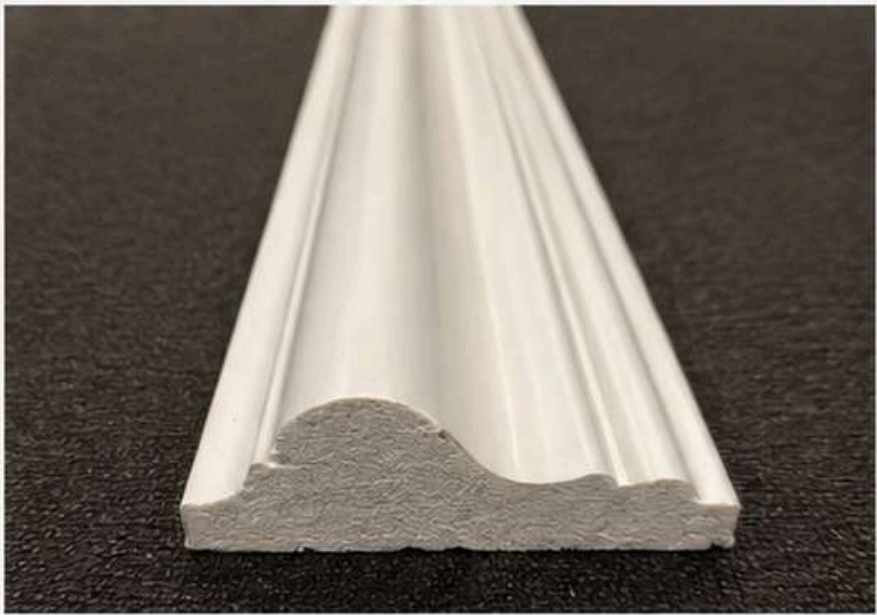

Our collection combines classic European aesthetics with contemporary durability, making it ideal for residential, commercial, hospitality, and luxury interior projects. Each profile is engineered for easy installation, smooth finishing, moisture resistance, and long-lasting performance. From minimal modern designs to royal decorative patterns, our French mouldings enhance every interior with refined detailing and premium appeal.

We focus on superior craftsmanship, consistent quality, stylish textures, and flawless finishing to ensure every product reflects sophistication and durability. With a wide range of customized designs, sizes, and finishes, Studio Global Decors Private Limited delivers elegant decorative solutions trusted by architects, interior designers, builders, and premium project developers across India.

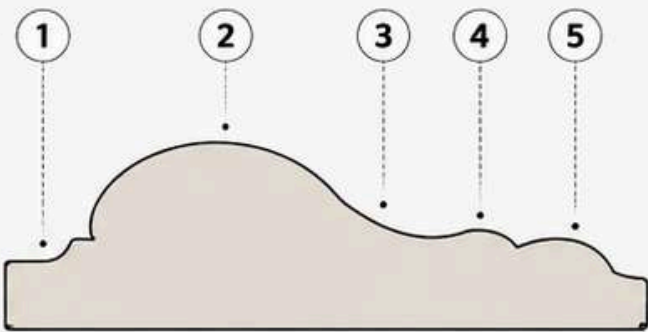

Begin the installation by measuring the wall area carefully and marking the alignment using a pencil and spirit level for accurate placement. Cut the moulding according to the required size using a hand saw or mitre box, especially making 45° angle cuts for corners to achieve a seamless finish. Before installation, ensure the wall surface is clean, dry, smooth, and completely dust-free for proper adhesive bonding. Apply high-quality construction adhesive in a zig-zag pattern on the back side of the moulding and press it firmly against the wall along the marked line. Hold it in position for a few seconds and check the alignment immediately using a spirit level before the adhesive sets.

For additional strength on uneven surfaces, finishing nails can also be used during installation. After fixing the moulding, fill any nail holes or visible gaps with putty and lightly sand the surface for a smooth premium finish. Clean excess adhesive using a damp cloth to maintain a neat appearance. This decorative moulding is ideal for living room walls, ceiling borders, TV unit panels, luxury interiors, hotels, and commercial spaces. Its lightweight structure, moisture resistance, durable composition, and elegant appearance make it a perfect solution for creating stylish and long-lasting interior wall designs.

PRODUCT OVERVIEW

PROFILE ILLUSTRATION

- 1 Left flat edge
- 2 Main curved profile
- 3 Small groove
- 4 Thin raised strip
- 5 Right edge contour

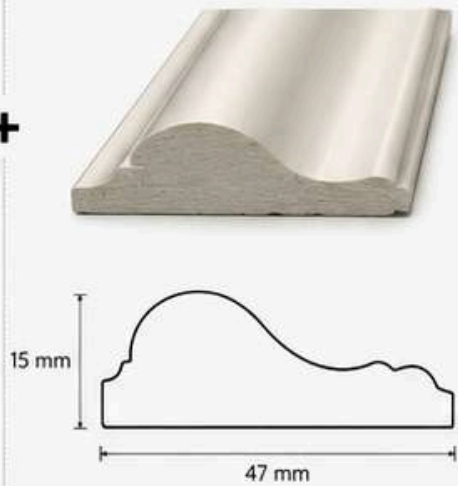

EXTRACTIONS (LAYERS)

This product is made by combining 5 extractions (layers) from the back (wall side) to the front (visible side).

1 Left flat edge

2 Main curved profile

3 Small groove

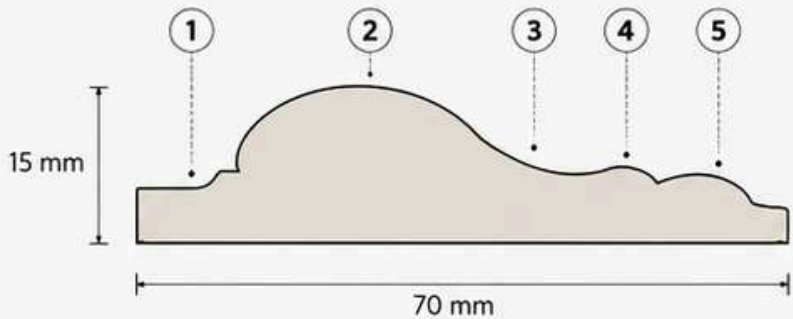

4 Thin raised strip

5 Right edge contour
