PS CHARCOAL LOUVERS

www.studiohomedecors.com

Studioglobaldecors

Studio Global Decors Private Limited presents high-quality PS Charcoal Louvers, designed to deliver a rich, modern, and elegant finish to interior spaces. Crafted with precision and superior-grade Polystyrene (PS), these louvers enhance walls and ceilings with a sleek linear texture while ensuring durability and low maintenance.

Designed for modern homes, offices, and commercial interiors, they are lightweight yet strong, ensuring easy installation and long-term reliability. The panels are moisture-resistant, termite-proof, and resistant to warping or cracking, making them ideal for long-lasting interior applications. With uniform texture, consistent color, and precision finishing, our PS Charcoal Louvers maintain their premium look for years with minimal maintenance. A perfect choice for architects, designers, and homeowners seeking stylish, durable, and low-maintenance interior solutions.

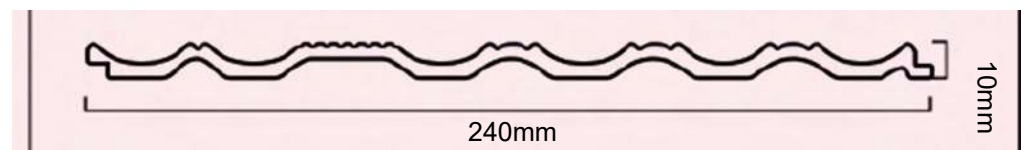

At Studio Global Decors Private Limited, our PS Charcoal Louvers are crafted using environmentally responsible green technology. Manufactured with sustainable materials and energy-efficient processes, these panels help reduce environmental impact without compromising on quality. Being lightweight and long-lasting, they minimize resource consumption, transportation load, and material wastage. Our eco-conscious production ensures low emissions, safe indoor usage, and recyclable material composition. By choosing our PS Charcoal Louvers, you're not just enhancing interiors — you're supporting a smarter, greener future built on sustainable innovation and responsible manufacturing.

PS high density extruded polystyrene wall panel with smooth surface and ribbed back for better glue adhesion. Highly resistant and suitable for indoor areas-made with high density polymers. Pieces with a smooth, pre-painted front, perfect edges and a textured back for better glue adhesion.

Features:

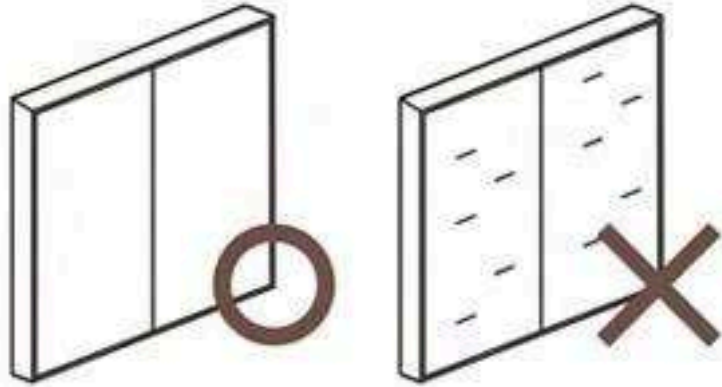

High density expanded polystyrene core, produced with virgin raw material. Moisture and pre-painted front with perfect edges. Smooth and pre-painted front with perfect edges.

Ribbed back for better glue adhesion.

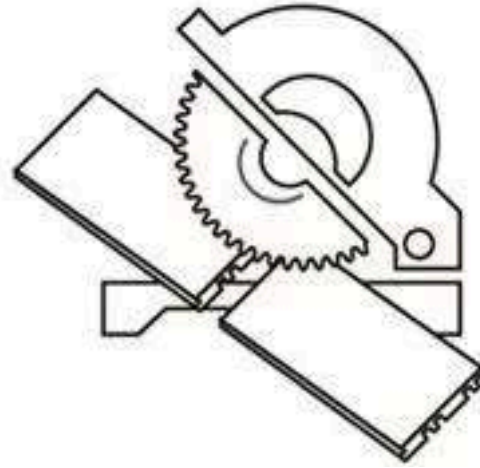

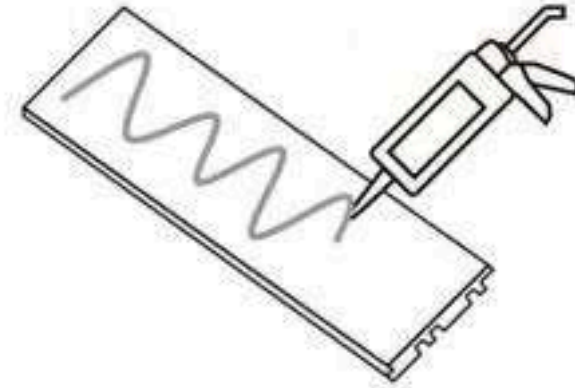

■ INSTALLATION

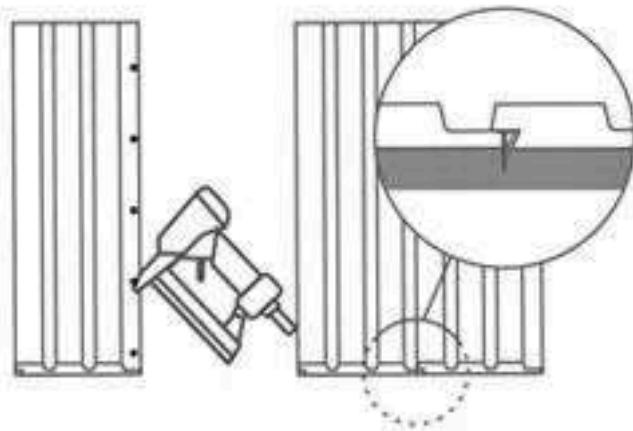

A) Prior to construction, prep work with plywood or plaster board is advised. Before work begins, kindly remove the wallpaper from the walls.

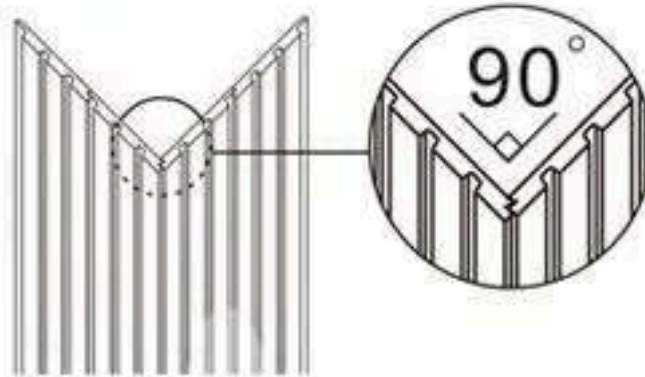

B) Circular saw can be used for cutting.

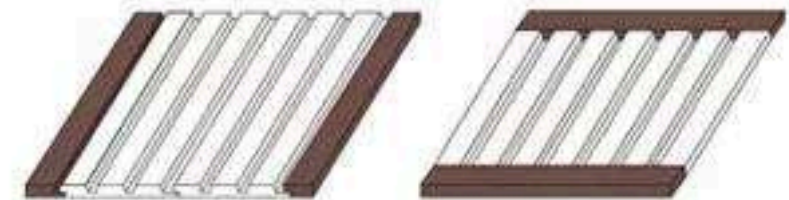

C) Apply nail free glue on the back of wall panel.

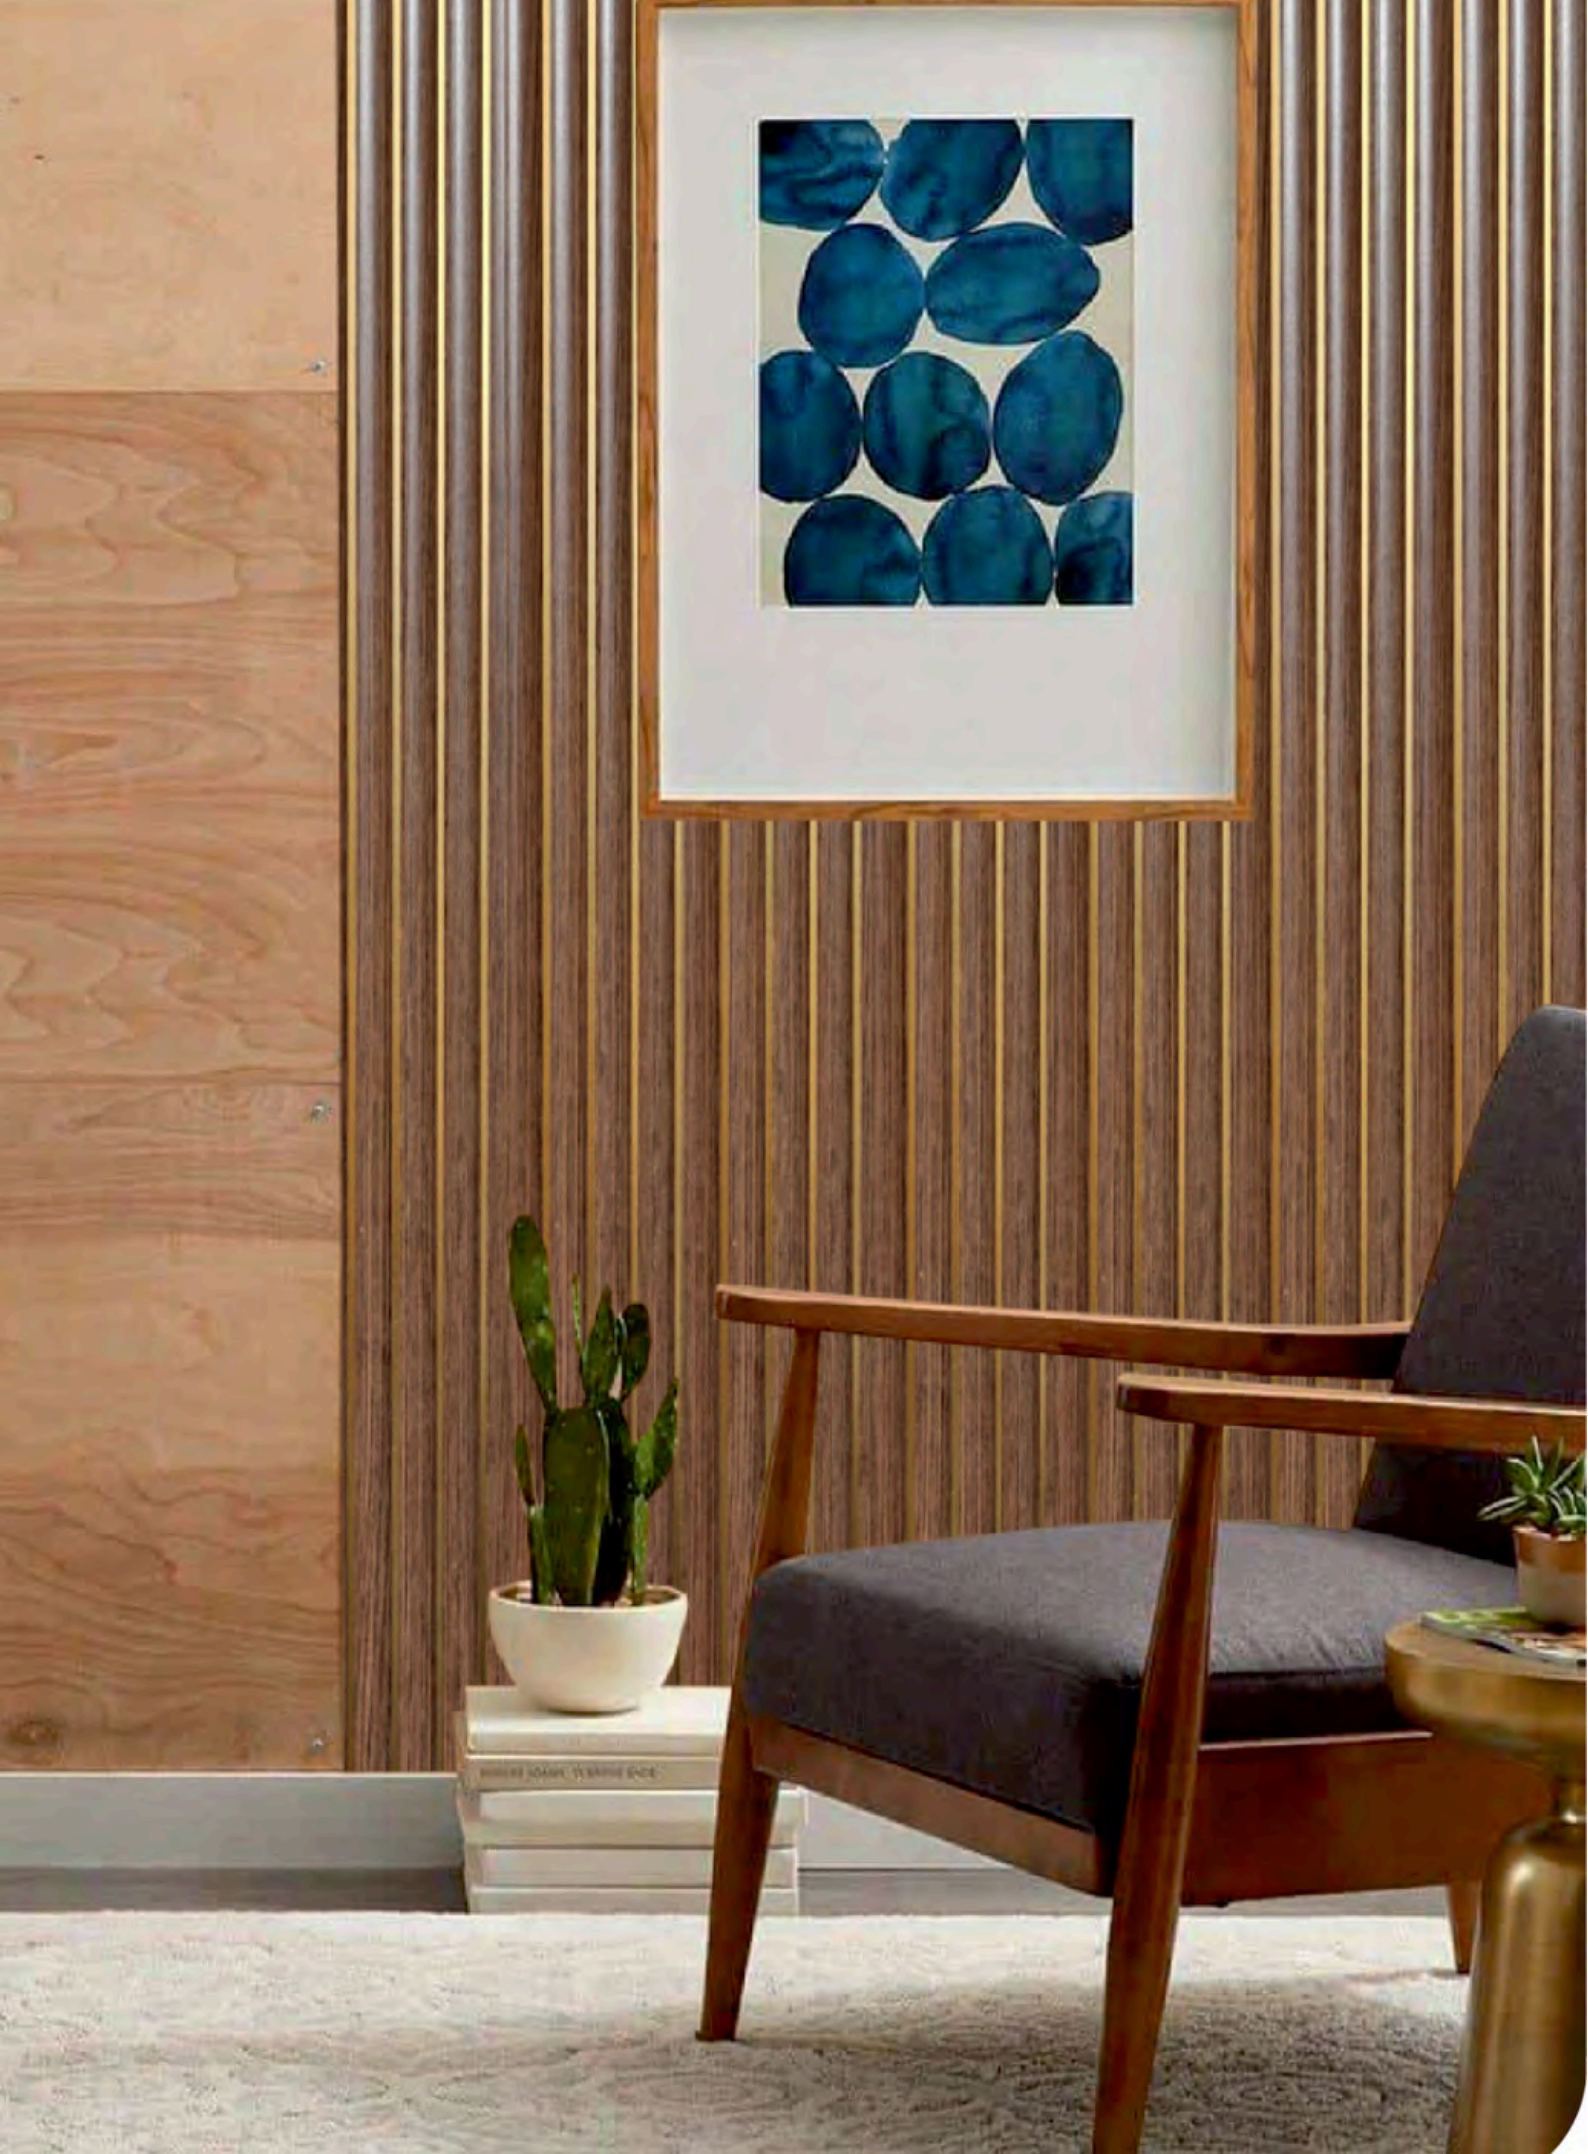

D) It is possible to place wall panels both horizontally and vertically. To conceal the pin markings, apply air-tacker to the tongue's edge.

E) For corner, combine the two grooves.

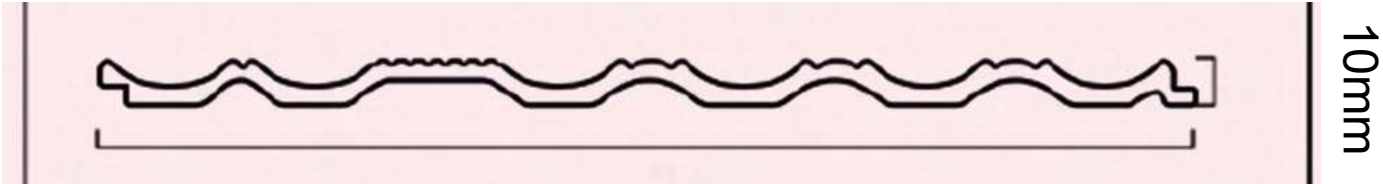

F) For a neat and attractive finish, coordinating mouldings can be utilised.
