

Himalayan EPC
Pvt. Ltd.

A "Project life cycle solution company"

SERVING INDUSTRIES

**Oil & Gas II Petrochemical II Water & Irrigation II Power Plant
II Automobile Infrastructural II Mining II Solar System.**

Expertise

Himalayan EPC private Limited

- Tankages – EPC Work
- Piping & Pipelines – EPC Work
- Solar Power Systems – Supply & Installation
- Raw Water & Irrigation work – Pump House, Mechanical, E&I, Associated Civil
- Electrical & Instrumentations work – Supply, Installation & Commissioning
- Fire Fighting & Detection System
- Mechanical, Electrical Plumbing (MEP) Work
- Equipment Installation – Mechanical & Electrical
- Operation & Maintenance Work – WTP, Water Supply System
- Supply Chain Management (SCM) – Domestic & International
- Manpower Solutions & Supports – Domestic & International

Group of Companies

Peritum PMC Private Limited (India)

- Design & Engineering – Structural, Piping, E&I etc.
- Automobile infrastructural work – Structural, PCS, Equipment Installations, Robot Installation, Modification, Piping, E&I etc.
- Supply Chain Management (SCM) – Domestic & International

Peritum International LLP (Kazakhstan)

- Design & Engineering – Piping, Mechanical, E&I
- Process Plant – Design Engineering
- Various Skid – Design & Engineering
- Skid Fabrication, Installation & Commissioning
- Conveyor System – Design & Engineering
- Project Documentation work

ABOUT COMPANY

We are a “Project Life Cycle Solution Company” that offers a high-quality engineering support solutions to EPC organizations across industries like Oil & Gas, Refinery, Petrochemicals, Hydrocarbons, Power Sector, Renewable Energy, Automobile plants, Infrastructure, Metal & Mining, Water & Irrigation, Telecoms, Roads & Highways, Railways etc.

We are a partner committed to deliver the best solutions and help client to unlock the value on investments. Our services include Surveys & Studies, Design & Engineering, Procurement & Supplies, Project Execution, Construction Management, Testing & Commissioning, Operation & Maintenance, Fire Safety Solutions for various industries and Project Management Consultations. We are capable of delivering Turnkey EPC basis complete solutions across the life cycle of the project.

- Complete Design & Engineering Solutions
- Project Management consultancy
- Project Executions & it's Closer
- Service, Operation and Maintenance

OUR STRENGTHS

- Our Presence in India, Middle East & Central Asia
- More than 40 Years of Collective Experience amongst partners experts in respective technical areas
- Knowledge & Experience in all applicable international standards such as IS, ANSI, ASME, API, EN & BS, GOST
- Our expertise:
 - Conceptual & Detail Engineering, Greenfield Brownfield/Revamp
 - Pipeline and Piping Systems
 - Mechanical & Structural Installations
 - E&I Works
 - Fire Fighting System
 - Painting & Coating Application (Automobile Industry)
 - Associated Civil Work

VISION, MISSION & GOAL

VISION

Be the best; do it right the first time; quality service and support; client satisfaction - we believe in a flexible approach that can influence the maximum that our client want. in the end, our commitment to customer satisfaction and client retention is what keeps us in business.

MISSION

To become a top service provider in the industry by providing comprehensive management and execution solutions to businesses and industrial complexes.

GOAL

We strive to offer dependable and reasonably priced services while upholding the highest standards of quality and professionalism. Our focus is on quality, services, and client/customer happiness. We firmly believe that our clients put their trust in us, and we work diligently and honestly to keep that trust.

Certifications And Awards

SERVIING INDUSTRIES

Oil and Gas

Petrochemicals

Mining

Renewable Energy

Water

Automobile Infrastructure

Power Plant

Irrigation

WHY US?

- A group of professionals from industries, including highly dependable and dedicated individuals, supports us.
- Our staff members have a combined 40 years of expertise and are knowledgeable about the nuances of this field.
- They are also familiar with the most recent technology, and we have trained them to collaborate with one another to successfully complete projects.

OUR SERVICES

STORAGE TANKS (DESIGN, ENGINEERING, FABRICATION, ERECTION & TESTING)

- DM Storage Tanks
- CST Storage Tanks
- Fuel Oil Storage Tanks (LDO & HFO)
- Water Storage Tanks (MS)
- Water Storage Tanks (GI)
- Day Tanks (MS / SS)
- Petrol Storage Tanks (MS Painted) U/G
- Diesel Storage Tanks (MS Painted) U/G
- Sour Water Tanks (MS Painted)
- Chemical Tanks (SS / MS Painted)

PRESSURISED TANKS (DESIGN, ENGINEERING, FABRICATION, ERECTION & TESTING)

- Fire hydrant tanks
- Air compressor tanks
- Food processing tanks
- Pain Shop tanks
- Rubber-lined tanks
- Lubricant tanks

SERVICES Follows

COMPLETE SOLAR POWER SYSTEM OF THE "OFF-GRID TYPE" **FULL-SERVICE SOLAR POWER SYSTEM OF THE "GRID CONNECTED TYPE"**

- Roof Top type (Home, Small Business etc.)
- Remote Industrial Type
- Stand-alone Solar Pole (Park, Street etc.)
- Parts supply of Solar panels system
- Solar Power Plants (targeting field)
- Operation and maintenance of Solar panel system

SERVICES-PIPELINE & SOLAR POWER

"CAPABILITIES IN PIPING SYSTEMS & PIPELINE"

- Raw Water System & its Pumping
- LP Piping System & Its Pumping
- DM Water system and its pumping
- DMCW Water system and its pumping
- Utility Piping of Automobile Plants
- Process Piping system
- Fuel Oil Piping System
- Raw Water Pipelines (larger dia.)
- Paint system piping of Paint shops

SERVICES-ELECTRICAL & INSTRUMENTATION (E&I)

CAPABILITIES IN ELECTRICAL & ELECTRIFICATION

- Laying of HT | LT | Instrumentation Cables | OFC etc. underground and on cable trays and cable ducts
- Termination of HT Cables | LT Cables | Instrumentation Cable | OFC etc.
- Installation of HT Switchgear | LT Switchgear | Distribution Boards | Welding Receptacles etc.
- Installation of Power | Distribution Transformers | EOT Cranes etc.
- Installation of UPS, Battery, Battery Chargers, DCDB etc. Installation of
- Instruments like Pressure | Temperature | Level | Flow Gauges, transmitters, switches etc., Analysers, sensors etc. Installation of
- CCTV system, Telephone | EPBAX system etc. Installation of PLC |
- SCADA etc.
- Installation of Fire Annunciation Panel, Smoke & Fire Detectors etc.
- Installation of Electric Pole with Conductors (6.6KVA, 11KVA, etc.)
- Electrification & Lighting for Industrial Building, Pump House, Compressor House, SV & IP Stations etc.

SERVICES-(E&I) CONTINUOUS

CAPABILITIES IN INSTRUMENTATION & CS: –

- Diagrams of the connections between various instruments.
- Analysers, Instrumentation Cable, Pressure Indicator, Level Indicator, Flowmeters, Pressure Transmitter, Differential Pressure Transmitter, Level Switch, Pressure Switch, Flow Switch.
- Local Instrument Enclosure, Junction Box, PLC Panel, and a control panel that uses relays.
- Fibre optic cable installation and termination.
- CCTV system, wireless system.

FIRE SOLUTIONS

WE ARE IN COMPLETE FIRE DETECTION ,ALARMING & FIGHTING SYSTEMS: –

- Fire extinguishers Supply and refilling.
- Fire Safety Items & Accessories.
- Fire detection & Alarm System
- Fire hydrants & Fighting System
- Fire suppression system Etc.
- Industrial safety equipment
- First aid medical equipment
- Safety and road construction signs
- Fire blankets Etc.
- Fire training/fire drills
- Fire related Design & Engineering
- Fire Design, Engineering, Supply, installation, testing, commissioning and servicing of all types of fire equipment & Systems.

MEP WORK

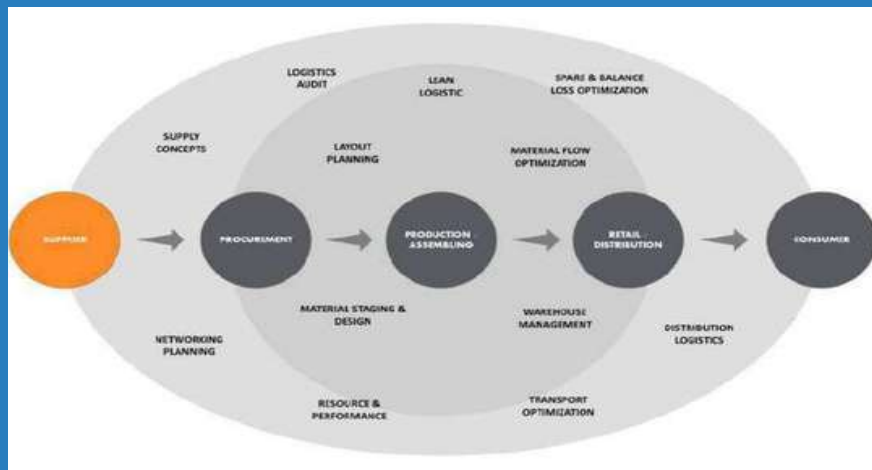

As a specialized team in MEP engineering, design, and construction, we take great pride in our ability to deliver comprehensive solutions for critical building systems. Our expertise encompasses Mechanical, Electrical, and Plumbing domains, ensuring structures that are functional, safe, and efficient

Our Scope of Work Includes:

- Designing and supervising HVAC systems for optimal comfort and energy efficiency (Mechanical Systems)
- Handling electrical design, lighting, and energy supply while adhering to safety codes and sustainability standards (Electrical Systems)
- Overseeing water supply, waste management, and fire protection systems for seamless integration into building designs (Plumbing Systems)

We collaborate closely with architects, civil engineers, and other professionals to ensure a unified approach to construction projects. Our ultimate goal is to create buildings that meet safety regulations, enhance occupant comfort, and promote sustainability.

Our industry impact is diverse, spanning residential, commercial, and industrial projects. From small-scale homes to large commercial complexes, we bring our expertise and dedication to every project, delivering top-notch results.

SUPPLY CHAIN MANAGEMENT (SCM) DOMESTIC & INTERNATIONAL

MECHANICAL: –

1. Pipes & Pipe Fittings
Bare or Coated both
Weld & Bolted fittings
Pipe Supports
Insulation
Heat Tracing
2. Valves & Actuators
Hydraulic
Pneumatic
Servo Controlled
3. Piping Skids
4. Pig Launchers & Receivers
5. Equipment
Process
Rotary
Static
7. Steel Structures
- & More

ELECTRICAL & INSTRUMENTATION

1. Electrical System
Wire Drums & JBs
Earthing Materials
Transformers & Generators
Lighting Solution
2. Instrumentation
Pressure & Temperature
Level indicators, Transmitters
Flow Meters & Regulators
3. Analytical & Automation
Industrial Automation Solutions
Control Systems & Integration
Hardware & Software
Analytical instruments
SCADA Systems
4. Hydraulic & Pneumatic Equipment
Pumps & cylinder
Accumulators
Rotary Actuators
Motors & Power Units
- 5 . Fire & Safety Equipment
Sensors & Extinguisher
Explosion Proof Equipment

PROJECT CONSUMABLES

WE ALSO SUPPLY PROJECT CONSUMABLES & SAFETY ITEMS

Project Consumables

- Tool & Tackles
- Welding related items
- Cables & fixtures, Lugs, Tape
- Flood lights, fixture, Bulbs etc.
- Packaging Materials, Foam sheets
- Paints & Brushes
- Grinding & buffing wheels
- Gas Cutting sets and accessories
- Hoses, Flexible Pipes etc.
- Meson tools (Gurmala, Axe, Pick etc.)
- Cutting Blades, Locks, Lifting sling/Belts
- Binding Wire (MS)
- Safety Equipment's
- PPE (Helmet, Safety Shoes, Reflector Jackets, Goggles, Ear plugs etc.)
- Office stationeries
- Plumber fittings, Nut & Bolts
- Ladders (2 Mtr. 4 Mtr. 6 Mtr. Etc.)
- Measuring Tapes
- Insulation Tapes

MANPOWER – SOLUTION & SUPPORT

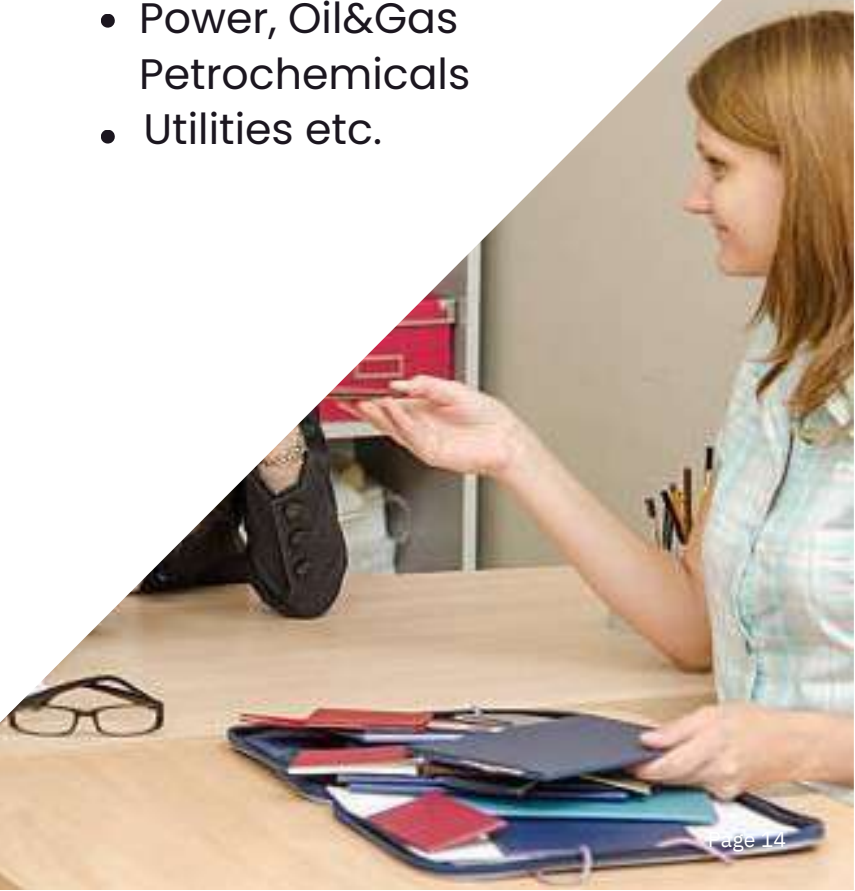

(PROFESSIONAL & SKILLED)

Skilled & Efficient Manpower

- RCM / Site In-Charge
- Line Superintendent
- Managers, Engineers
- Foreman, Supervisor
- Surveyor & draftsman
- Pipeline Fitters
- Welders
(Manual & Automatic)
- Grinder Man
- Riggers
- Mechanic
- Electrician
- Technician
- Operators
- Drivers etc.

Project Management Consultancy Service

- BOP Packages
- Piping & Pipelines
- Electrical & Instrumentation
- Equipment installations
- Power, Oil&Gas
Petrochemicals
- Utilities etc.

Our Projects

**Gas Pipeline Wrapping & Coating –
at IBCI – Thailand**

**Irrigation Pipeline p rotective Coating
at TATA Projects Lmt. MP**

**Guniting / Concrete Coating on irrigation
pipeline – JayPee Associates – Rewa MP**

Chemical Tank

PMC for crude oil flowlines-Basra, Iraq

Our Projects

Structural fabrication and erection

Filter Media Tank-WTP

Pump House

Sludge pond -Sagar MP

Smart City Developer

Electrical Panel Room

City supply - WTP inlet maintenance

Smart City Developer

Install the Pump

Paint Circulation System-Maruti Suzuki

CWR Tank

Our Projects

Smart City Developer

Smart City Project

Industrial Paints

Food grade epoxy flooring

Water Treatment Plant

OUR GROUP COMPANIES

Peritum International LLP-Kazakhstan
Peritum PMC Pvt Ltd
Himalayan Engineering

Peritum is a Global Company with presence in Central Asia, Middle East and India With headquarter in Almaty, Kazakhstan is accredited with ISO 9001-2015, 14001-2015 & 45001-2018 certifications. The key focus of PERITUM business is to provide Engineering (Greenfield & Brownfield) and Project Management Solutions to our customers in Oil & Gas, Petrochemical, Refinery, Water, Power & Mining industries. Our Key Strength is more than 40 years of collective experience amongst the partners. Our Core Experience is in Plant & Equipment Bid Engineering, Basic and Multidisciplinary Detail Engineering, Fabrication, Project Design, new product development, Pre-Management & Project Services All design, engineering and fabrication works are carried out in accordance with international Standards ANSI, ASME API, EN & BS, GOST.

AN INDEPENDENT
ENGINEERING & PROJECT
MANAGEMENT COMPANY

(Project Life Cycle Solution Company)

Peritum PMC Private Limited

(A Group Of Company Himalayan EPC Private Limited)

ABOUT US

Peritum is a Global Company with presence in Central Asia, Middle East and India. With headquarter in Almaty, Kazakhstan is accredited with ISO 9001-2015, 14001-2015 & 45001-2018 certifications. The key focus of PERITUM business is to provide Engineering (Greenfield & Brownfield) and Project Management Solutions to our customers in Oil & Gas, Petrochemical, Refinery, Water, Power & Mining Industries.

Our Key Strength is more than 40 years of collective experience amongst the partners. Our Core Experience is in Plant & Equipment Design, new product development, Pre-Bid Engineering, Basic and Multidisciplinary Detail Engineering, Fabrication, Project Management & Project Services.

All design, engineering and fabrication works are carried out in accordance with International Standards: ANSI, ASME, API, EN & BS, GOST.

We are mainly active in serving following industries:

Renewable Energy

Oil & Gas

Petrochemicals

Mining

Automobile

Water

VALUE DRIVERS

QUALITY ASSURANCE POLICY

Peritum International
A Process Equipment Management Company

Quality Assurance Policy

Achieve our goals while strictly following Quality Policy with Focus on Customer Satisfaction

To ensure we meet this obligation, we:

- Set Quality performance objectives, measure and publicly report Quality performance, assess and continually improve processes, services and product quality, using an effective management system;
- Understanding the customer requirements, proposing optimal solutions, building and constantly improving systems & processes to ensure quality at every stage;
- Guide & Monitor relevant Quality standards to sub-contractors & suppliers and require them to provide proper training to their employees for proper Quality performance of their work;
- Minimize our impact on the environment through pollution prevention, reduction of natural resource consumption and emissions, and the reduction and recycling of waste, while not compromising on Quality of our products & services;

We endeavor to create a culture in which our commitment to Quality is shared by all of our employees.

HEALTH, SAFETY AND ENVIRONMENT POLICY

Peritum International
A Process Equipment Management Company

Health Safety and Environment Policy

Achieve our goals while strictly following "Zero Incident" Policy and with No harm to people and to environment

To ensure we meet this obligation, we:

- Set Quality & HSE performance objectives, measure and publicly report HSE performance, assess and continually improve processes, services and product quality, using an effective management system;
- Work with authorities and stakeholders to develop regulations and best practice measures that improve the safety and health of people, and the environment;
- Provide relevant safety and health information to contractors and require them to provide proper training for the safe, environmentally sound performance of their work;
- Minimize our impact on the environment through pollution prevention, reduction of natural resource consumption and emissions, and the reduction and recycling of waste.

We endeavour to create a culture in which our commitment to HSE is shared by all of our employees.

PARTNERS

AMR PROCESS INC

From its origins in Alberta, the heart of the Canadian Oil & Gas Industry, and world leaders in Heavy Oil Technology, AMR Process has grown to a recognized International Oil & Gas Process Package & Technology company, with experience in Onshore, Offshore, Sweet, Sour & Cold Weather designs & applications.

AMR Products include Heavy Oil, Desalter, Oil Dehydrator, Heater Treater, Gas Dehydration, Amine Unit, Electrostatic Desalter, Electrostatic Dehydrator, Molecular Sieve Dehydrator, Gas Sweetening, Gas Conditioning Gas & Oil Process Packages & Technology, and Produced Water Treatment Process Packages & Technology. For more details please visit their website <https://www.amrprocess.com/locations>.

LIQUID TRANSFER INTERNATIONAL

- Surveys, manufacturing and commissioning of loading and unloading facilities (rail cars and tank trucks),
Specification of equipments and works,
- Project coordination,
Development of specific softwares,
Tests, commissioning and training on site,
- Maintenance of equipments and systems supplied by Liquid Transfer International.

THREE MAIN ACTIVITIES:

- 1. Automation and Instrumentation**
(Terminal management, access control, flow computer, additive injections systems);
- 2. Tank truck and rail car loading arms**
(Top loaders, bottom loaders, floating suctions, folding stairs);
- 3. Turn key solutions**
(Loading/metering fully assembled skids, top/bottom loading gantries,...).

Liquid Transfer International's unique products and project management methodologies are specifically designed to make upgrading automation systems less risky, less costly, and easier.

We have been doing this for more than 30 years. So the next time you need to upgrade your automation system, come to the automation upgrade experts.

Liquid Transfer International software is a PC-based Terminal Automation systems, developed entirely by software engineers at Liquid Transfer International.

Identification terminal (badge reader),
RFID technology

Electronic flow computer

Additive injection system

AUTOMATION AND INFORMATION MANAGEMENT SYSTEMS FOR PETROLEUM AND OTHER BULK DISTRIBUTORS:

- Terminal Automation
- Truck and Rail Loading
- Tank Farm Automation
- Business Transaction Management

FULLY ASSEMBLED LOADING/ METERING SKIDS

The skids are developed, manufactured and tested entirely our plant. They also include complete automation of the loading/unloading process.

THE ENGINEERING SCOPE OF SUPPLY INCLUDES:

- Basic and detail surveys,
- Works specifications,
- Procurement
- Project coordination
- Installation supervision
- Tests, commissioning, training
- Maintenance
