

ELITE TACTICAL TRAINING

MODULE DEMOLITIONS & CONTROLLED CHARGES

DURATION : 4 DAYS

32 hours

**Audience: SOF, Combat
Engineers, Tactical Assault
Units.**

Learning Objectives

- Understand types of explosives, fuses, and effects.
- Prepare and deploy charges for tactical purposes.
- Follow safety and detonation protocols precisely.

Contact :

Tél : +33745032129

Mail : Contact@academieswat.com

**Control the power, secure the
impact**

ELITE TACTICAL TRAINING

MODULE DEMOLITIONS & CONTROLLED CHARGES

Module Content

Day 1 – Explosive fundamentals

- Terminology: high/low explosives, sensitivity, brisance.
- Military-grade explosives: types and compositions.
- Effects: overpressure, shrapnel, blast radius.
- Inert demo of basic charge types.

Day 2 – Fuzing and safety

- Fuses: time fuse, electric/non-electric detonators.
- Initiation systems: boosters, detonating relays.
- Safety distances, direct vs. indirect effects.
- Practical: door charges, lock breach, gate entry

DURATION : 4 DAYS

32 hours

Audience: SOF, Combat Engineers, Tactical Assault Units.

Learning Objectives

- Understand types of explosives, fuses, and effects.
- Prepare and deploy charges for tactical purposes.
- Follow safety and detonation protocols precisely.

Day 3 – Advanced charges and cutting

- Directional and shaped charges.
- Explosive breaching applications.
- Structural demolition: columns, vehicles, walls.
- Simulated live detonation with inert tools.

Day 4 – Tactical scenario and assessment

- Placement and setup (teams, delay timing).
- Final scenario: breach or object destruction mission.
- Post-blast assessment and site security.
- Evaluation.

ELITE TACTICAL TRAINING

MODULE DEMOLITIONS & CONTROLLED CHARGES

DURATION : 4 DAYS

32 hours

Audience: SOF, Combat Engineers, Tactical Assault Units.

Learning Objectives

- Understand types of explosives, fuses, and effects.
- Prepare and deploy charges for tactical purposes.
- Follow safety and detonation protocols precisely.

Equipment

- Inert charges, detonators, simulated trigger tools.
- PPE, radios, mock targets and structures.

Certification

- Final scored exercise (effectiveness, accuracy, safety).
- 30-question MCQ.
- Certificate: Controlled Demolitions Operator.
