- Turbines Parts (All rotating and stationary parts including disc, blade, shaft, sleeve bearing, labyrinth, etc)
- Compressor Parts(All rotating and stationary parts including impeller, casing, sleeve bearing, etc)

4. Welding Repair

- Re-Babbit Sleeve Bearing
- Steam & Gas Turbines Rotor & Stator
- Major Parts of Gas and Steam Turbine

PT. KIDANG KENCANA SAKTI

COMPANY BUSINESS LINE

5. Thermal Powerplant Services

- Commisioning
- Operation & Maintenance
- Operation & Maintenance Consultant
- Troubleshoot
- Assessment

6. EPC (Engineering Procurement Contruction

7. On Workshop Repair

Fully equipped workshop and facility with wide range of machine tools given a fast and high quality repair from our experienced PT.KKS technicians.

- Turbine Overhaul.
- Turbine Repair.
- Turbine Parts Supply.
- Generator Overhaul.
- Generator Repair.
- Generator Parts Supply.
- Reverse Engineering / Manufacturing
- Rotating Parts with 3D Scan
- Repair and Reverse Engineering / Manufacturing Generator Parts.

PT. KIDANG KENCANA SAKTI

ON SITE REPAIR FIELD SERVICE

PT.Kidang Kencana Sakti well trained service give support on site and perform repairs fast and accurately.

Reduced downtime with fast response times to be a customer benefit

TURBINE

- Vibration Diagnostic
- Insite Machining
- Labyrinth Replacement
- Bearing Replacement
- Control System Check
- Cooling System Check
- Assembly & Disassembly
- Cleaning
- Assessment
- Power Up grade
- NDT
- Visual & Dimension Inspection
- Relocation
- Overhaul

GENERATOR

- Recurrent Surge Oscillograph (RSO)
- Stator BumpTest
- Partial Discharge & Tangent Delta Test
- Stator Wedges Analysis (SWA)
- Stator Coil Recondition
- Overhaul

PT. KIDANG KENCANA SAKTI

WORKSHOP FACILITIES

Our workshop equipped with facilities such as large capacity of lathe machine, overhead travelling crane, CNC milling machine, Plasma Spray, Electro Discharge Machining, Vacuum Heat Treatment, TIG Welding, etc
