

Head Measurement Guide For Custom Wigs

Accurate measurements are essential for a perfect fitting custom wig. Please follow the instructions below to measure your head. You will need a soft measuring tape for this process.

IMPORTANT: Measurements should be taken with your hair either flat or in a style that reflects how you will wear it beneath your wig for the most accurate results.

Circumference:

Start: Place one end of the measuring tape on the middle of your forehead, in line with your hairline.

Wrap: Bring the tape around your head, just above the ears, and under the occipital bone (the bump at the back of your head).

Finish: Bring the tape back to the middle of your forehead where you started.

Record: Make sure the tape is flat against your head and note the measurement.

Front to Nape:

Start: Place one end of the measuring tape at the middle of your hairline.

Pull Back: Stretch the tape down the middle of your scalp, to the nape of your neck.

Record: Note the measurement at the point where your neck meets your back.

Ear to Ear Across Forehead:

Start: Place the tape at your hairline at the base of one side of your ear.

Cross: Pull the tape up and over the top of your head, and across to the same point at the opposite ear.

Record: Take note of the measurement.

Ear to Ear Over Top:

Start: Measure from the top edge of one ear, over the crown of your head, to the same point on the opposite ear.

Record: Take note of the measurement.

Temple to Temple Around Back:

Start: Place the tape against your temple, just in front of the ear.

Wrap: Pull the tape around the back of your head to reach the same point on the opposite side of your head.

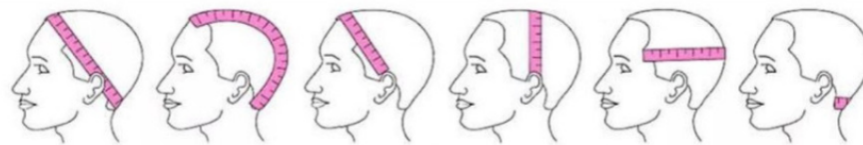

Record: Take note of the measurement.

Nape of Neck:

Start: Measure the width of the nape from one side to the other.

Find Points: Place the tape at the lowest point on the bone behind your ear and measure across to the corresponding point on the opposite side.

Record: Take note of the measurement.

Wig Size	Cap Size (Circumference)	Front to Nape (Inch)	Ear to Ear (Forehead) (Inch)	Ear to Ear (Over head) (Inch)	Temple to Temple (Inch)	Nape (Inch)
Small	21" - 21.5"	13.5" - 14"	11" - 11.5"	11.25" - 12"	14"	5"
Medium	22" - 22.5"	14" - 14.5"	11.5" - 11.25"	12.5" - 12.25"	14.5"	5.5"
Large	23" - 23.5"	15" - 15.5"	12" - 12.25"	13" - 13.5"	15.5"	6"
