Hi Larry,

I really enjoyed working with you last Friday for our client in San Francisco. Your professionalism, creative vision, and dedication were evident throughout the process, and our client, [REDACTED] is very happy with our video. They've approved our first choice with the B role, and there's no need for further edits. You made good choices where to fit the B roll, it was very well done!

Thank you for collaborating with us to create an exceptional video for our client. It exceeded our expectations. I look forward to working with you again.

Best,  
Jill
