

Filmmake It Happen! A One-Day Film School Lights. Camera. Action. In One Day.

Join us for a 6–8 hour hands-on filmmaking workshop where you won't just learn about storytelling—you'll help bring a short film to life, start to finish.

You'll:

- Warm up with acting and creativity exercises
- Review and prepare a pre-selected short script (3–5 pages)
- Break down scenes and assign real production roles (actor, director, DP, sound, etc.)
- Rehearse and block your scenes
- Shoot the short film using professional techniques
- Learn basic editing using accessible tools (CapCut, iMovie, etc.)
- Present your film in a celebratory final screening

No experience needed. Just a story to tell and a willingness to learn.

This workshop is designed for beginners and emerging creatives who want to:

- Learn the how-to write a script
- Understand what it takes to build a scene
- Learn how film roles work in real life
- Practice on-camera acting and behind-the-scenes collaboration
- Create something meaningful in just one day
- The focus: story, performance, teamwork, and creative execution
