## Struggle on Arlington

Tournament recap by Deb E. Downer

The start to the 2024 tournament season was a rough one for The Colony crew. The wind, temperature fluctuations and an intermittently running power station helped fuel mediocre results on "Lake Hardly-none". A few of our anglers had the secret sauce. Here were some of the ingredients:

- Frank and Wookey: Texas rig and weightless Senko. *"If you thought you were working it too slow, slow it down even more."*
- Blackstock:...you guessed it - dragging a baby brush hog.
- Rob Crocker: snagged his Haily Mary big bass in the last 30 minutes on a crankbait by the dam.
- Bill Brown: A-Rigs and jerkbaits in 10' of water.
